Nice, we make the extraordinary ordinary

Our aim is to let people live in a world without barriers, that makes the Nice Group the ideal partner to implement all types of project: residential, commercial, hotels and other public spaces such as schools, hospitals and medical centres.

Unique solutions combining technology, innovation, quality and design, able to make even the smallest of gestures extraordinary.

Systems for the automation and control of gates, garage doors, road barriers, blinds, shutters, lighting and alarm systems are now integrated and can be managed by smart and intuitive interfaces: practical, functional and elegant solutions for an extraordinary way to live every space to its fullest potential.

Designers, architects, engineers and contractors can find in The Nice Group their privileged partner, which provides comprehensive support throughout the realisation of any project, from design to installation.

Nice means the simplest integration, the most elegant design and the most advanced electronics.

www.niceforyou.com

KOVOPLOTOVARY.CZ

Why Nice

Innovation

Nice is investing in innovation, experimenting pioneering technologies like the Mixed Reality, to simplify professionals' everyday work. Guided interactive procedures, virtual manipulation of objects and remote assistance simplify installation and maintenance.

KOVOBRICHEVARY.CZ

Safety

A wide range of accessories with a minimalist, modern and discrete design, featuring BlueBUS or all-wireless technology to guarantee the maximum safety in residential, industrial and public contexts.

Versatility

Nice Tag System, miniaturized transmitters and control units: disappearing inside the standard wall plates, they're ideal for restorations and upgrades of existing systems, to control home automations without the need to replace the existing system or performing masonry work.

KOVOPOLOTOVARY.CZ

Fewer worries and more safety with Yubii

Yubii is the new Nice ecosystem that lets automations communicate not only with each other, but also with you through bidirectional remote controls.

Yubii resolves your every doubt

The new remote controls provide you with information on the status of your automations by LEDs, sounds or slight vibrations, so you can know at any moment if the garage and gates are open or closed, or if the blinds and rolling shutters are raised or lowered.

Yubii keeps you informed

With the new remote controls, lights, sounds or vibrations let you know immediately if the automation has received your command correctly, so you don't need to get up and check for yourself.

Yubii helps you live better

Having your home under control at all times has never been easier and more convenient, because all the answers to your doubts are at your fingertips, or rather, in the bidirectional remote controls and the MyNice Welcome App.

Yubii.niceforyou.com

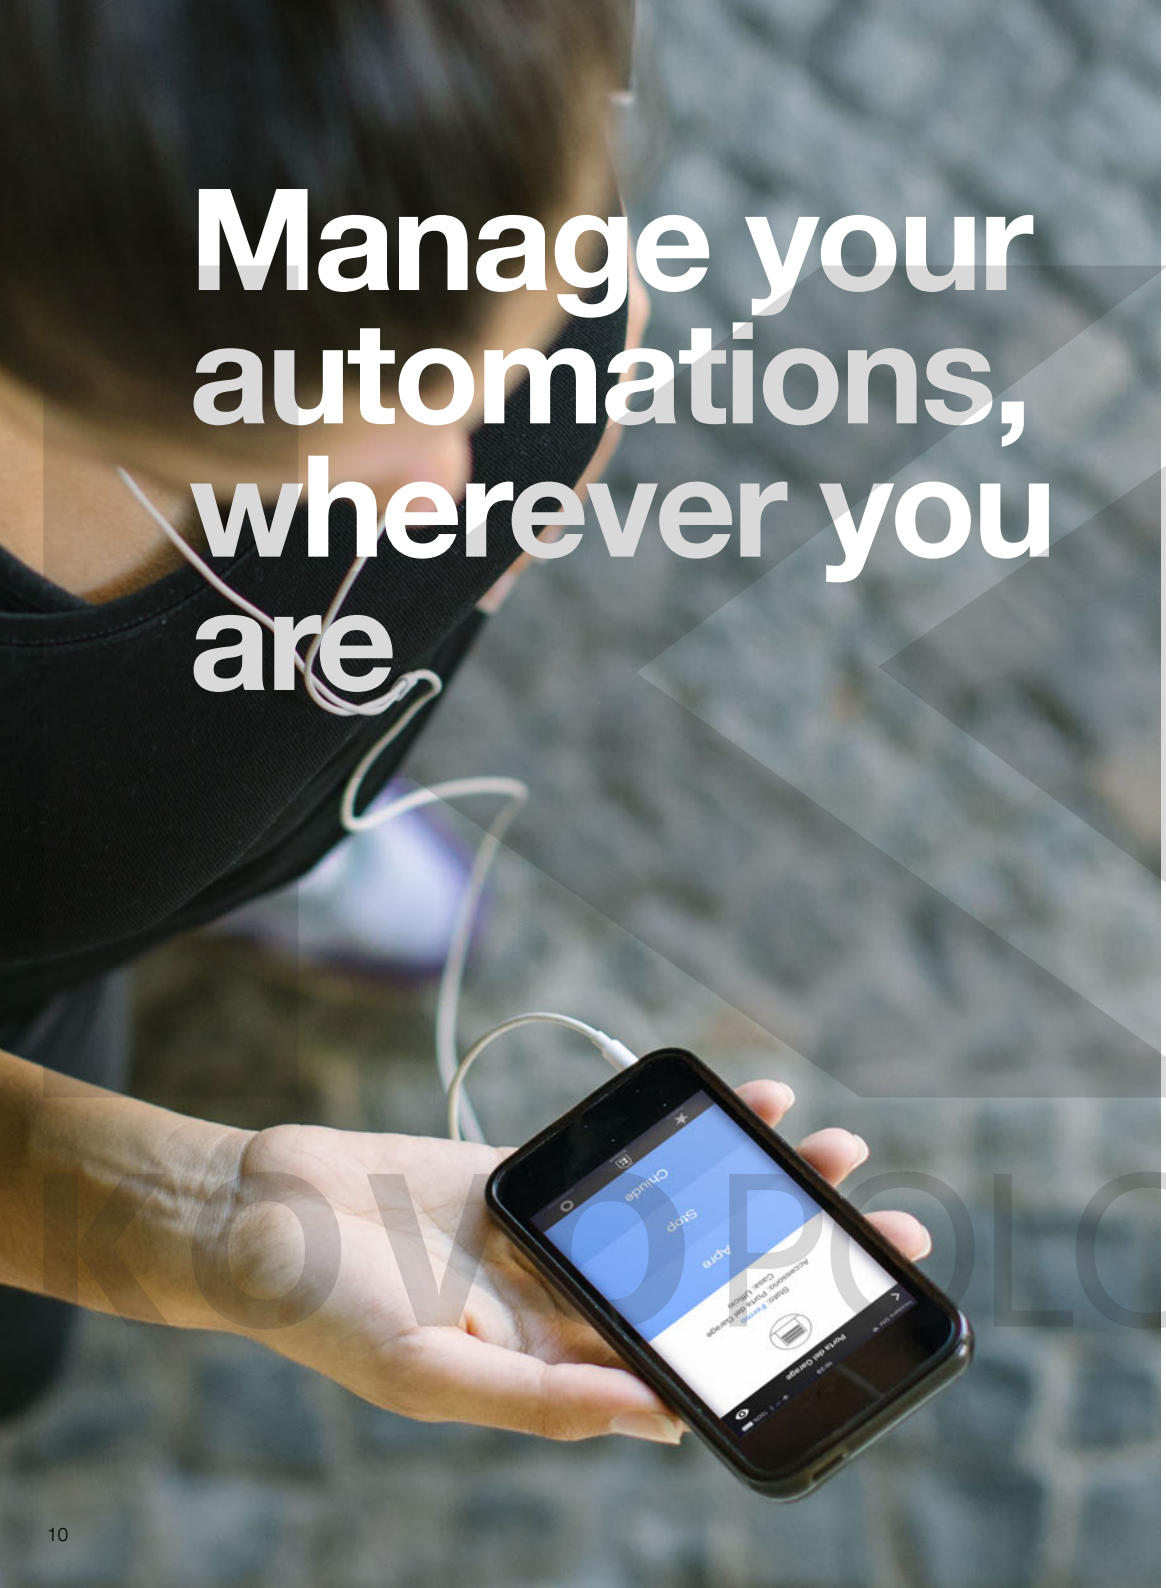
KOVOPOLOTOVARY.CZ

Yubii™

The new Nice bidirectional ecosystem

The new Nice bidirectional radio protocol gives you two-way communication between the transmitter and receiver.

The bidirectional (BD) transmitters will give your customers feedback on reception of the command and information on the status of garage, gate, blind, sun awning and rolling shutter automations by orange, green and red LEDs, together with sounds and slight vibrations.



Manage your automations, wherever you are

The MyNice Welcome App lets you control the movement and status of your automations by smartphone, even remotely.

Nice makes your life easier because …

Through the small Core hub, you can manage all your automations, including blinds, awnings, rolling shutters, garage doors, gates, lights, and make them interact, creating **personalised scenarios** and setting actions for set times and days.

Thanks to integration between the **MyNice sensors** and the **Core** interface, you can also receive notifications on your smartphone and **keep up-to-date on what is happening at home**. For example, if the sensors detect the risk of flooding or the start of a fire, the water or electricity supply will be shut off immediately.

On page 172 you can find all information on Core and the MyNice Welcome App.

The MyNice Welcome App also lets you control Nice automations for gates and garage doors through the IT4WiFi interface.

The IT4WiFi is compatible with the HomeKit, so you can also control your garage door through **Apple's Home App** and create personalised scenarios with the other HomeKit devices connected, exploiting the **geolocation** functions and **voice commands via Siri**.

Find out all about the IT4WiFi on page 174.

Application of the Works with Apple HomeKit logo indicates that the electronic accessory in question has been designed specifically to connect with the iPod touch, iPhone or iPad respectively and that the developer certifies its compliance with the performance standards defined by Apple. Apple is not liable for functioning of the device or its compliance with legal and safety standards.

KOVOPOLOTOVARY.CZ

Hi-Speed, faster than ever

High-speed 24 V motors for the automation of sliding and swing gates and garage doors.

The perfect answer where rapid manoeuvres are required, ensuring the shortest standing time and the maximum safety.
A complete range responding to all installation needs.

Thanks to the advanced control units and the sensors for sensitive edges making the obstacle detection technology even more precise, **Hi-Speed systems are synonym to reliability, security and comfort.**

OTOVARY.CZ

Nice Centre R&D and labs

Nice is always on the lookout for innovative solutions which don't exist. Yet.

Nice has made significant investments to guarantee maximum quality standards, going beyond mere compliance with directives and regulations, to focus on continuous product improvement through high-tech procedures and experimentation, together with an innovative approach to open integration.

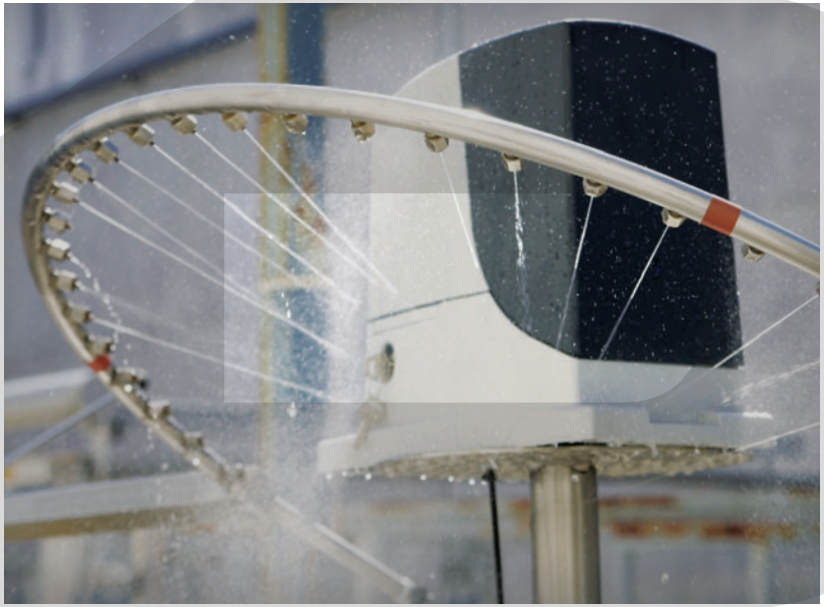
Every day in our laboratories we test our products painstakingly and precisely using cutting-edge technical procedures and the most innovative instruments in order to guarantee safety, quality, reliability and durability over time.

The Nice quality system complies with the internationally recognised ISO 9001, standard, while our laboratory conforms to the strict quality requirements of EN 17025 for test laboratories.

Nice CE certified products comply with European Directives and the leading internationally recognized standards.
Nice laboratories have been certified by outside certification bodies, attesting to their technical expertise and conformity to carry out testing to meet the needs of the numerous products manufactured by the Nice group:

- LCIE (France)
- IMQ (Italy)
- CTC Advanced (Germany)
- Intertek (Sweden)
- UL (USA)

KOVO POLOTOVARY.CZ



Guarantee

Nice control devices and automations for gates, garage doors, industrial doors and barriers are controlled and tested to give you a long-term guarantee: 3 years from the production date indicated on each product.

KOVOBOTOVARY.CZ

Better service, closer to you

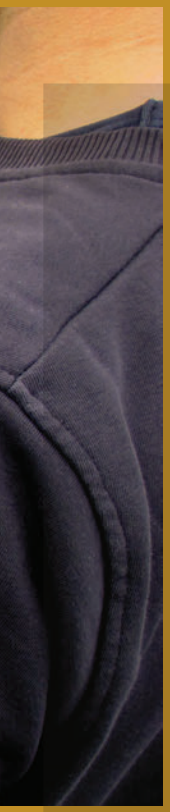
Nice provides you, the professional, with a complete range of solutions designed to enhance your offer to the customer and to simplify installation and programming of all automation systems, from the simplest to the most sophisticated.

Technology, reliability and service.

Tools

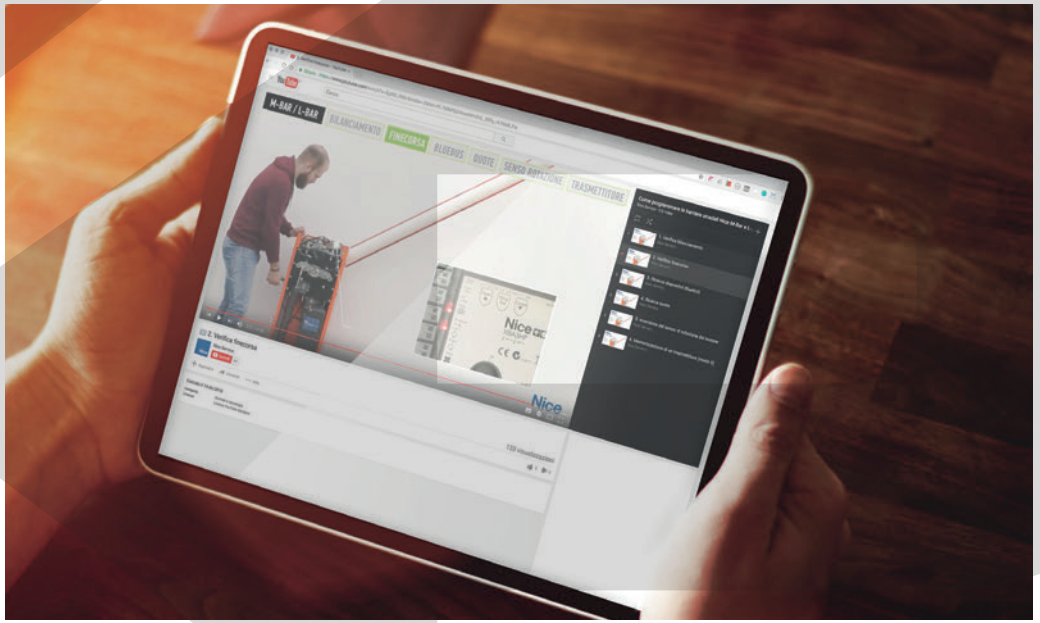
Nice presents the **Pro-View**, the new programming tool that **simplifies configuration and maintenance** and **lets you programme the automations remotely**.

KOVOPOLOTOVARY.CZ



Training

Nice offers a packed programme of **training courses on products, sales techniques, installation and programming**, to provide a complete professional training.



After-sales service

Nice guarantees **efficient and prompt service, even online, on the Niceforyou.com website**, with contents dedicated both to the professional and to the end user.

- Section dedicated to **installation and programming tutorial videos**, with the **answers to the most frequently asked questions**.
- Section where you can **download instruction manuals, quick guides, catalogues** and **brochures**.
- A form you can use to ask for the **updated software or firmware** of any programmer or control unit.

KOVOVÝROBKY.CZ

Guide to reading the catalogue

1. If you know the name of the product you can quickly find it out in the index on page 3;

2. If you know the part number but not the product name, go to pages 276/285 for the alphabetical list of part numbers;

3. If you don't know the product name or part number, look up the desired application in the index; the first few pages in each section feature a **simple selection guide** that helps identify the model of motor with the most suitable characteristics for your automation needs.

Surface mounted, with articulated arm, recommended for small posts, in kit with bidirectional technology

or leaves up to 1.8 m, 24 Vdc irreversible with built-in control unit equipped with BlueBUS technology, compatible for operation with Solemyo and Opera. Mechanical limit switch on closing.
Walkykit BD
pages 62/65

- for 1-leaf → **WALKY1024BDKCE**
- for 2-leaf → **WALKY2024BDKCE**

If you are looking to customise your automation system, refer to the **installation diagrams** on pages 256/271 and to the **compatibility table** on pages 272/275 to choose the most suitable electronics for each motor.

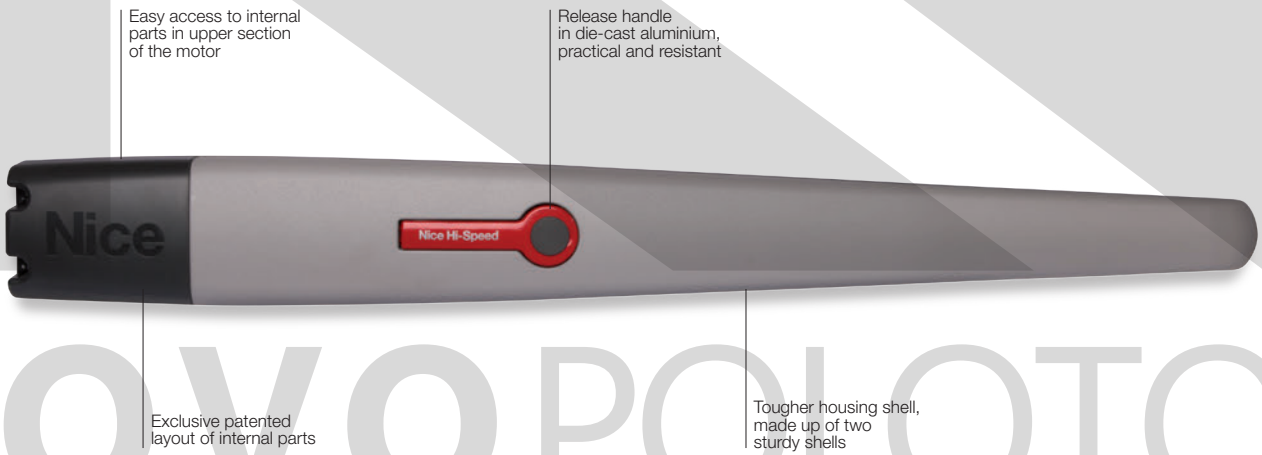
Nice

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Toona HS

For rapid operation of swing gates with leafs of **up to 5 m or 400 kg** (TO5024HS) **and up to 6 m or 1450 Kg** (TO6024HS)



Ideal for residential and industrial applications.

24 Vdc, electromechanical gear motor, surface mounted, with magnetic encoder.

Quick manoeuvres: 90° opening in about 16* seconds with TO5024HS and about 30* seconds with TO6024HS.

Reliable: the magnetic encoder ensures the safeguard of set values over time and precise obstacle detection.

Silent: patented layout of internal parts and lead nut in bronze.

Sturdy: thanks to the housing, made up of two tough aluminium shells with polyester paint finish; more resistant to atmospheric agents.

Internal moving parts completely in steel, light alloys and technopolymers.

Generously sized and practical connection compartment: rapid and easy access from above to internal parts located in the upper section of the motor.

Simple installation and maintenance: with built-in capacitor.

Wholly compatible with the Moby series: same dimensions and fixing brackets.

Moonclever MC824H control unit:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

* Considering standard installation, excluding acceleration and deceleration.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Discover the complete range of BiDirectional products on page 176.

Yubii is the new Nice ecosystem that connects all the automations in the home.

Discover all the benefits of the Yubii system on page 170.

Titan HS

For rapid operation of swing gates with leafs **of up to 3.7 m** (TTN3724HS, TTN3724RHS)**, 6 m** (TTN6024HS, TTN6024RHS) **or 450 Kg**

24 Vdc, electromechanical gear motor, surface mounted, with magnetic encoder.

Quick manoeuvres: 90° opening in about 12* seconds with TTN3724HS and TTN3724RHS or 19* seconds with TTN6024HS and TTN6024RHS.

Reliable: the magnetic encoder ensures the safeguard of set values over time and precise obstacle detection.

Easy to install: electrical connections easily accessible from above, thanks to the dedicated access. Fixing brackets are supplied with the motor.

Versatile: the motor can also be installed in the bottom part of the gate leaf, at a distance of at least 110 mm from the ground.

Practical and safe: easy convenient key release located in the top part of the motor, allowing the gate leaves to be opened and closed manually in the event of a blackout.

Models TTN3724HS and TTN6024HS are compatible with the Moonclever MC824H control unit, while models TTN3724RHS and TTN6024RHS are compatible with the MC824HR control unit **:

- simple programming, by means of a single key;

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Hyke HS

For hi-speed automation of swing gates with leaves up to 3 m or 270 Kg

Ideal for residential applications even with large columns.

24 Vdc electromechanical gear motor with articulated arm, surface mounted, with magnetic encoder.

Ideal for intensive use and quick manoeuvres: 90° opening in about 10* seconds.

Ultra-powerful and reliable: thanks to the torque of 500 Nm and encoder technology, for millimetric precision and reliability.

Safe movement: dual technology obstacle detection.

Sturdy: thanks to the housing in aluminium with polyester paint finish, resistant to atmospheric agents.

Two irreversible 24 Vdc versions with limit switches on opening and closing: with built-in control unit (HK7024) and without control unit (HK7224).

Practical and quick installation: the articulated arm is adjustable in length for maximum flexibility.

Simple and precise limit switch adjustment: mechanical stops and micrometric adjustment screws.

No black out: with the optional batteries (PS124) housed inside the gear motor.

Built-in control unit (HK7024):

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- provision for connection of latest generation resistive sensitive edges.

* Considering standard installation, excluding acceleration and deceleration.

For hi-speed automation of swing gates with leaves up to 3 m or 300 Kg

Underground installation, ideal for residential applications.

24 Vdc electromechanical gear motor, with magnetic encoder.

Ideal for intensive use and quick manoeuvres: 90° opening in about 8* seconds.

Foundation boxes externally chamfered, Fab Box with mechanical stop on opening:

- **in stainless steel** (MFABBOXI), ideal for use in extreme conditions;
- **with the cataphoresis paint finish** (MFABBOX), highly resistant to corrosion.

Reliable and resistant: motors made up of solid internal parts in metal. New IP67 waterproof die cast aluminium.

Total freedom of choice: release from inside and outside, two key-operated models or freely compatible lever version and easily activated with just one hand.

Simple installation: mechanical stop system on closure. Standard opening max. 110°, optional opening 360°.

Totally compatible with the previous Metro series.

Moonclever MC824H control unit:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

* Considering standard installation, excluding acceleration and deceleration.

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Robus HS

For hi-speed automation of sliding gates weighing **up to 250 Kg** (RB250HS) **and up to 500 kg** (RB500HS)

For residential and industrial applications.

24 Vdc electromechanical gear motor.

Ideal for intensive use: opening a 4 m gate takes around 10* seconds with RB250HS and around 9* seconds with RB500HS.

User-friendly: thanks to the Nice BlueBUS technology, the control unit can be connected to up to 7 couples of photocells, control, security and signalling devices, using two wires only.

Practical: control unit and buffer batteries PS124 (optional) connected by practical guided plug-in connector, housed in the gearmotor.

Advanced: the temperature sensor adapts the motor power to the climatic conditions and at the same time thermal cut-out; a master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other.

A master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other.

Intelligent: thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light. 8 programming levels.

Safe: acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

Sturdy: base and release in pressure die cast with easy to open handle.

Silent: gear motor on bearings.

* Considering standard installation, excluding acceleration and deceleration.

Run HS

For hi-speed automation of sliding gates weighing **up to 400 Kg** (RUN400HS) **and up to 1200 kg** (RUN1200HS)

For residential and industrial applications.

24 Vdc electromechanical gear motor.

Rapid manoeuvres, with opening and closing: Opening a 4 m gate takes around 6* seconds with RUN400HS, while opening a 7 m gate takes around 18* seconds with RUN1200HS.

The fastest: ideal for industrial applications, designed for intensive use.

User-friendly: thanks to the Nice BlueBUS technology, the control unit can be connected to up to 7 couples of photocells, control, security and signalling devices, using two wires only.

Practical: the control unit and PS524 battery charger (to which two B12-B batteries should be added) can be connected by means of a simple connector and can be housed directly inside the motor.

Advanced: the temperature sensor adapts the motor power to the climatic conditions and at the same time thermal cut-out; a master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other.

Intelligent: thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light. 8 programming levels.

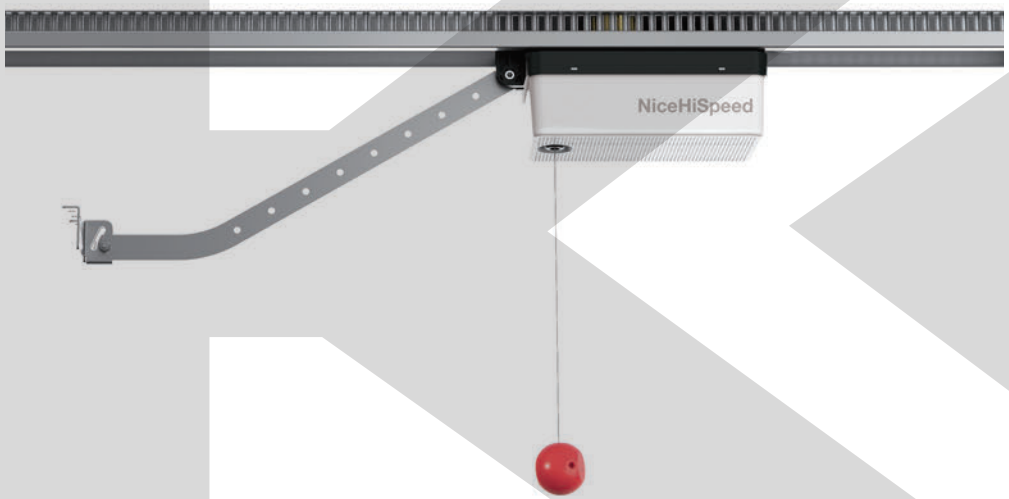
NEW | BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Spykit 650 HS BD

For sectional doors up to 10.5 m² and up-and-over doors (projecting and non-projecting) up to 11.5 m²



24 Vdc irreversible electromechanical gear motor for residential use, transmission with rack on the rail.

To be combined with SPYRAIL321, SPYRAIL162 and SPYRAIL081 rails.

Quick manoeuvres: the garage door opens in about 8,5* seconds

Functional and stylish: the motor is the only component that moves on the rail, there are no chains or other noisy mechanisms. Ideal for any architectural context.

Handy: Separate control unit: more practical and convenient for programming and maintenance. Built-in LED courtesy light. Three practical keys to control the automation.

Quick to install: modular rail with assembly accessories. Limit switches easy to position along the rail with no need to stand and work on the ceiling. No chains or other noisy mechanisms to install.

Simple to install with the BlueBus system: requiring just two wires for connection between the control unit and the pairs of photocells and other accessories featuring BlueBus technology.

Easy to program: simple and fast basic programming, using the Quick Setup procedure. Simplified advanced programming, using O-View.

ON/OFF release system: pulling the release knob once releases the motor; pulling it a second time blocks the motor again, in any position along the rail.

Inexpensive to run and environmentally-friendly: when connected to the mains in standby mode, the control unit consumes just 0.5 W. When connected to the battery or the Solemyo kit, power consumption in standby mode is reduced to 0.1 W.

No black out: operation is guaranteed even when mains power is not available, thanks to the optional PS324 backup battery.

Safe: obstacle detection, motor power monitoring during travel, diagnostic messages via flashing light and courtesy light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Ready for installation of the latest generation 8.2 kOhm resistive sensitive edges.

Optimised logistics: for practical management and transport, the rails are available in different sizes: single 3.2 m long rail, or supplied in two 1.6 m sectionsplus a 0.8 m extension.

* Considering a typical installation with a 2 m high garage door, excluding acceleration and deceleration.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

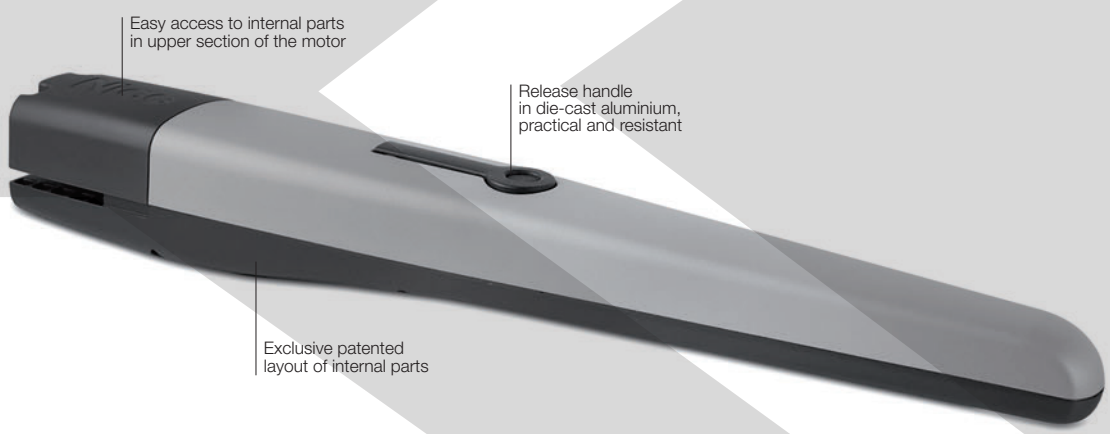
Nice

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V | 230V

Toona 4

For swing gates with leaves up to 3 m



Ideal for residential applications.

Electromechanical gear motor, surface mounted. Also available in 24 Vdc version, with magnetic encoder.

Reliability and durability over time: thanks to the housing, made up of two tough aluminium shells with polyester paint finish; more resistant to atmospheric agents.

Internal moving parts completely in steel, light alloys and technopolymers.

Silent: patented layout of internal parts and lead nut in bronze.

Generously sized and practical connection compartment: rapid and easy access from above to internal parts located in the upper section of the motor.

Simple installation and maintenance: with built-in capacitor.

Recommended control units: MC800, Moonclever MC824H for TO4024.

24 Vdc version with magnetic encoder. **Perfect for intensive use**, compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

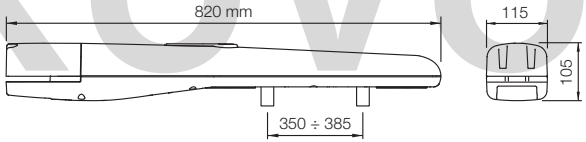
Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Discover the complete range of BiDirectional products on page 176.

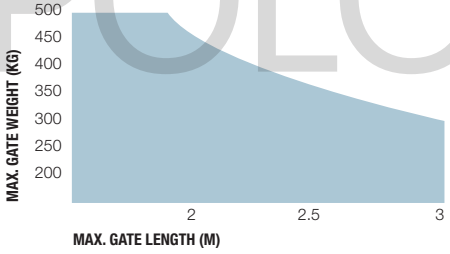
Yubii is the new Nice ecosystem that connects all the automations in the home.

Discover all the benefits of the Yubii system on page 170.

DIMENSIONS



UTILISATION LIMITS



The shape, the height of the gate and the weather conditions can considerably reduce the values shown in the graph to the side.

Use in windy areas 230 Vac models.

KOVO POLOTOVARY.CZ

COMMON ACCESSORIES

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Oltre 1824

For swing gates with leaves up to 1.8 m and 100 kg

Concealed motor for swing gates.

24 Vdc irreversible electromechanical gear motor.

Minimum visual impact: the motor is small enough to be easily installed inside the profiles of the gate leaf or in very slim posts (with a minimum diameter of 55 mm).

Easy to install: the bottom-up installation simplifies fixing of the motor inside the post.

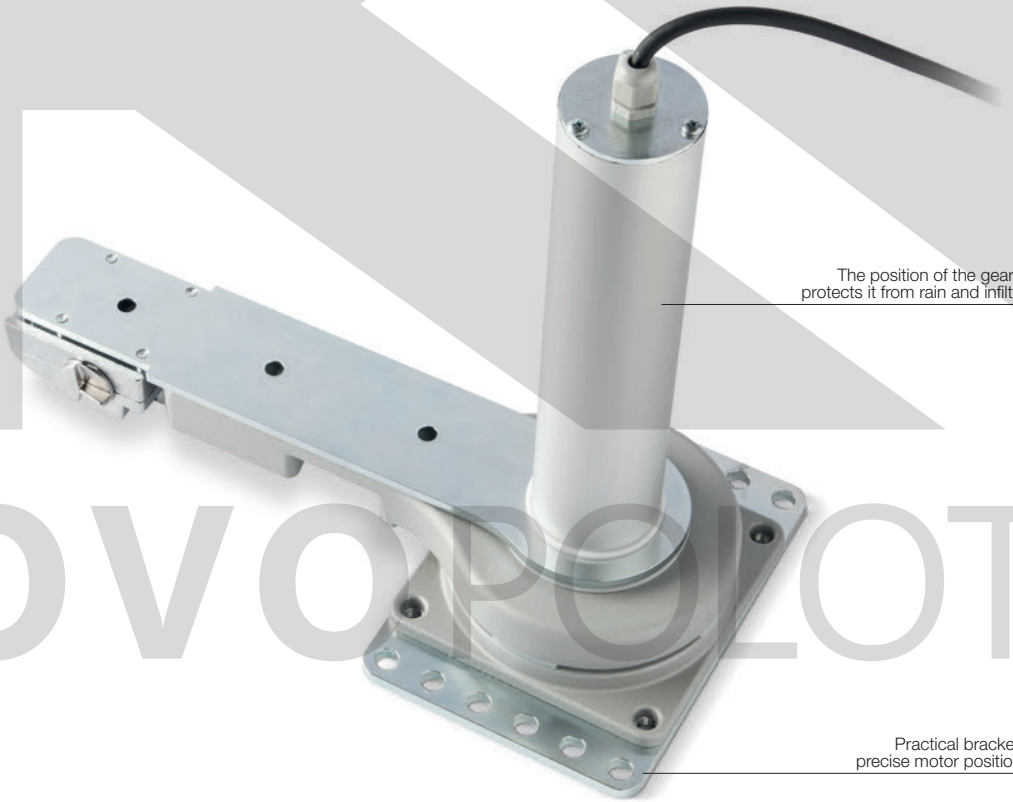
Resistant: die-cast aluminium structure, IP67, resists the most severe weather conditions.

Quick and reliable: complete opening (90°) of the leaf in about 10 seconds. Oltre has been tested for use at 60 cycles/hour, making it suitable for all contexts with intensive use.

Safe: easy-to-use external manual release: the gate can always be opened manually, without having to take it apart.

Dedicated Moonclever MC824L control unit:

- easy to programme;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of resistive sensitive edges.



The position of the gear motor protects it from rain and infiltrations

Practical bracket for precise motor positioning

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Walkykit 1024 BD

For swing gates with leaves up to 1.8 m

Especially suited to gates in wood or PVC.

Irreversible electromechanical gear motor at 24 Vdc, with articulated arm.

Ultra compact: ideal for pedestrian gates, recommended for small posts (width 8 cm).

Safe: thanks to the irreversible motor and anti-shear arm with built-in mechanical stop on closure (with installation of entire arm).

Practical: the articulated arm enables installation in specific conditions, such as in the presence of small walls or obstacles adjacent to the post.

Quick: no waiting in front of the gate, just 7 seconds to open or close (in optimal installation conditions, with reduced arm and 90° opening).

Convenient: incorporable flashing Led indicator, with courtesy light function (WLT, optional); rapid motor release for manual movement of the gate.

Built-in control unit:

- simple programming;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- provision for connection of latest generation resistive sensitive edges.

No black out: with the optional batteries (PS424) housed inside the gear motor.

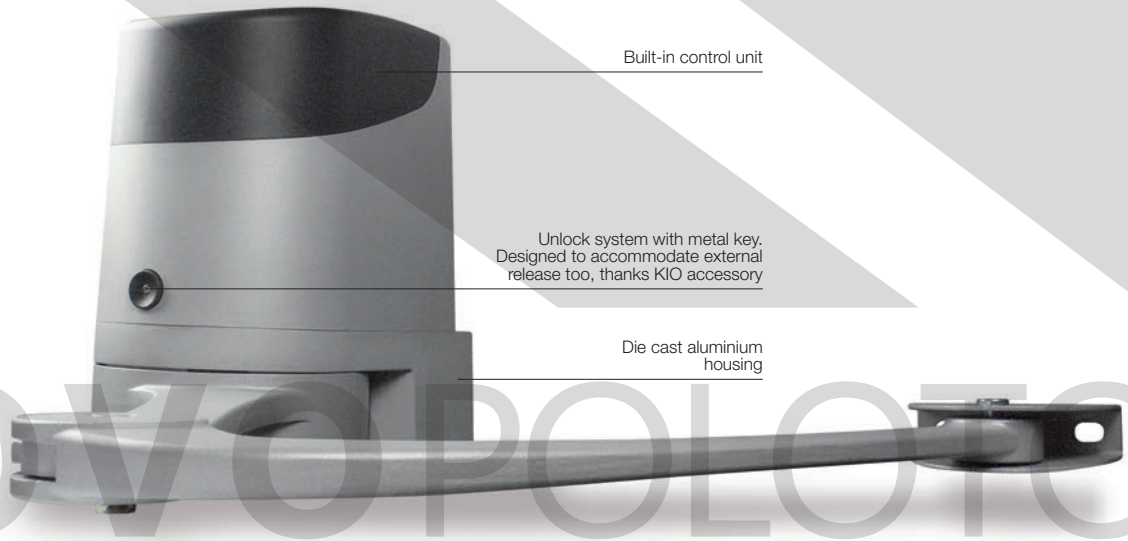
Hopp

For swing gates with leaves up to 2.4 m, ideal for large columns



Ideal for intensive use.

Irreversible electromechanical 24 Vdc gear motor with articulated arm, surface mounted.

Two irreversible 24 Vdc versions with micrometric adjustment mechanical stops on opening and closing: with built-in control unit (HO7124) and without control unit (HO7224).

Powerful thanks to the 250 Nm torque.

Resistant and compact: 180 mm in width, ideal for any kind of post. Small shockproof body with aluminium base.

Sturdy, aluminium anti-shearing arm.

Easy to install: thanks to the new fixing bracket with quick connector for the motor. No welding.

Sophisticated electronics with the built-in control unit, ust 3 keys to manage all programming operations:

- obstacle detection and possibility of connecting to 8.2 KOhm sensitive edge, fototest;
- automatic fault diagnostics;
- automatic memorization of limit switches on opening and closing with self-learning function;
- possibility of configuring the stop input in self-learning mode, NO, NC and the latest generation 8.2 KOhm resistive sensitive edges;
- deceleration on opening and closing;
- simple connection of pairs of additional photocells;
- programming of pause time;
- pedestrian open and partial open;
- clutch with anti-crush safety feature.

Energy saving with no black outs: 3 standby modes to reduce mains consumption, or battery power consumption if connected to the Solemyo kit. Operation in the event of a power failure thanks to the optional batteries (PS124).

Everything under control: thanks to compatibility for operation with Opera BUS T4, the unit O-Viewcan be used to expand the options of programming, control and diagnostics of the automation on site and remotely.

Nice

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Hyke

For swing gates with leafs of up to 3.5 m, including with large posts

Ideal for intensive use.

24 Vdc electromechanical gear motor with articulated arm, surface mounted, with magnetic encoder.

Reliability and durability over time: thanks to the housing in aluminium with polyester paint finish, resistant to atmospheric agents.

Safe: obstacle detection system and monitoring of the motor absorption during movement, self-diagnosis by means of a flashing light, courtesy LED light.

The latest generation optical and resistive 8.2 KOhm sensitive edges can also be connected.

Two irreversible 24 Vdc versionswith limit switches on opening and closing: with built-in control unit (HK7024) and without control unit (HK7224).

Practical and quick installation: the articulated arm is adjustable in length for maximum flexibility.

Simple and precise limit switch adjustment: mechanical stops and micrometric adjustment screws.

Easy to operate release lever: with metal lock and personalised Nice key. With provision for cable control.

Savings, respect for the environment, and autonomy: when connected to the buffer battery or Solemyo kit, consumption on standby is just 0.1 W.

No black out: with the optional batteries (PS124) housed inside the gear motor.

Built-in control unit (HK7024):

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- provision for connection of latest generation resistive sensitive edges.

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V | 230V

Hyppo 7000

For swing gates with leaves up to 3 m, ideal for large columns

Electromechanical gear motor, surface mounted, also in 24 Vdc version with magnetic encoder, with articulated arm.

Single model for right and left leaves.

Two irreversible versions, with 230 Vac (HY7005) and 24 Vdc (HY7024) power supplies with magnetic encoder.

Easy and quick to install: thanks to fewer connections and nothing welded to the gates.

Pre-wired, incorporated double limit-switch both during opening and closing (HY7005).

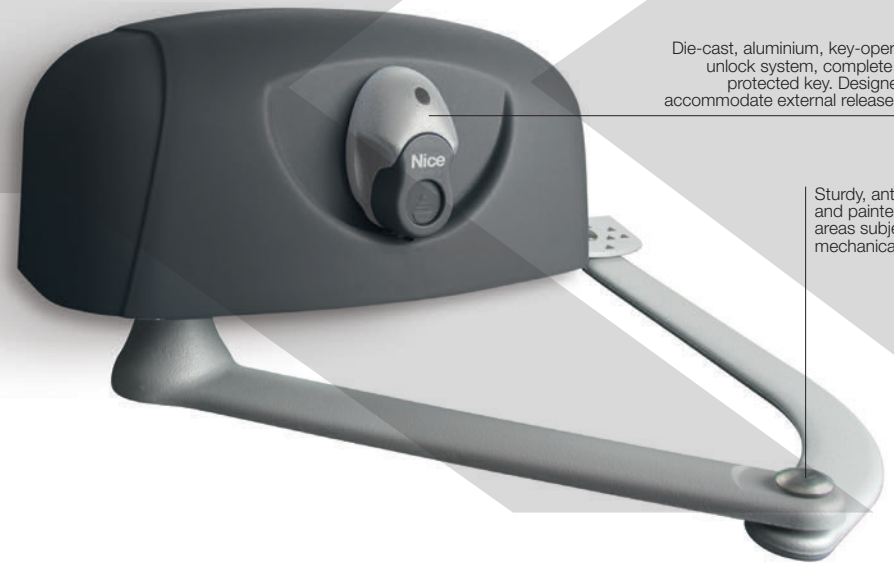
Long-lasting: solid metal mechanics.

Compact: shockproof bodywork with no sharp corners.

Recommended control units: Moonclever MC800 for HY7005; Moonclever MC824H for HY7024.

24 Vdc version with magnetic encoder. **Perfect for intensive use**, compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.



Die-cast, aluminium, key-operated unlock system, complete with protected key. Designed to accommodate external release, too

Sturdy, anti-shearing arm, galvanised and painted; strengthened in those areas subjected to greater mechanical stress

S-Fab

For swing gates with leaves up to 2.3 m, underground installation, ultra compact

Foundation box with cataphoresis paint finish

Waterproof, with IP67 protection rating

Irreversible electromechanical 24 Vdc gear motor, ideal for intensive use

Sturdy and discreet: compact foundation box with a height of only 81 mm.

Steel with cataphoresis paint finish guarantees optimal resistance to corrosion, and thickness of 2.5 mm guarantees strength. All this in just 52 mm of protrusion from the ground.

Practical and quick installation: thanks to the exit lever on the gear motor attached directly on the leaf.

Opening up to 180° as standard.

Reliable and sturdy: the gear motor, in IP67 pressure die cast aluminium, suspended inside the housing to enable drainage of any deposits, ensures optimal water resistance.

Load-bearing foundation box with adjustable mechanical stops on opening and closing: the gear motor can also be installed later as required.

Practical release easy to operate from inside and outside, acting directly on the gear motor, easy to operate by means of the special key.

SFAB2024, compatible with the control unit Moonclever MC424L, and for operation with Solemyo and Opera systems:

- built-in radio receiver;
- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection system;
- provision for connection of latest generation resistive sensitive edges;
- operation in event of power failure by means of optional rechargeable batteries (PS124) with compartment in control unit.

SFAB2124 with magnetic encoder, compatible with control unit Moonclever MC824H, with BlueBUS technology, and compatible for operation with Solemyo and Opera systems:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- with output for courtesy light and maintenance indicator;
- speed settings on 5 levels;
- separate and configurable inputs for Step by Step, Open and Close;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- provision for connection of latest generation resistive sensitive edges;
- operation in event of power failure by means of optional rechargeable batteries (PS324).

M-Fab

For swing gates with leaves up to 3 m, underground installation

Irreversible electromechanical gear motor, also available in 24 Vdc versions with magnetic encoder.

3 types of electromechanical gear motors M-Fab.

Foundation boxes externally chamfered, Fab Box, with mechanical stop on opening:

- **in stainless steel** (MFABBOXI), ideal for use in extreme conditions;
- **with the cataphoresis paint finish** (MFABBOX), highly resistant to corrosion.

Reliable and resistant: motors made up of solid internal parts in metal. New IP67 waterproof die cast aluminium.

Total freedom of choice: release from inside and outside, two key-operated models or freely compatible lever version and easily activated with just one hand.

Simple to use: mechanical stop system on closure. Standard opening max. 110°, optional opening 360°.

Totally compatible with the previous Metro series.

Recommended control units: Moonclever MC800 for MFAB3000 and MFAB3000L; Moonclever MC824H for MFAB3024.

24 Vdc version with magnetic encoder.

Perfect for intensive use, compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

L-Fab

For swing gates with leaves up to 4 m, underground installation

Irreversible electromechanical gear motor, also available in 24 Vdc versions with magnetic encoder and mechanical stop.

Foundation boxes with mechanical stop on opening:

- **in stainless steel** (LFABBOX4I), ideal for use in extreme conditions;
- **with the cataphoresis paint finish** (LFABBOX4), highly resistant to corrosion.

Total freedom of choice: release from inside and outside, two key-operated models or freely compatible lever version and easily activated with just one hand.

Simple installation: built-in mechanical stop system on closure. Standard opening max. 110°, optional opening 360°.

Ideal for intensive use, LFAB4024 model is compatible with the control unit Moonclever MC824H, with BlueBUS technology, Solemyo and Opera systems:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

LFAB4000 model is compatible with the control unit Moonclever MC800.

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Naked Sliding 400

Nice concealed motor for sliding gates up to 400 Kg with leaf length up to 6 m

Motor with built-in control unit and absolute encoder which can be installed inside a compact post with suitable holes.

Its **extremely small size** allows the motor to be installed even in very slender posts, with interior size down to 140x140 mm.

User-friendly: thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

Master/slave selection: for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

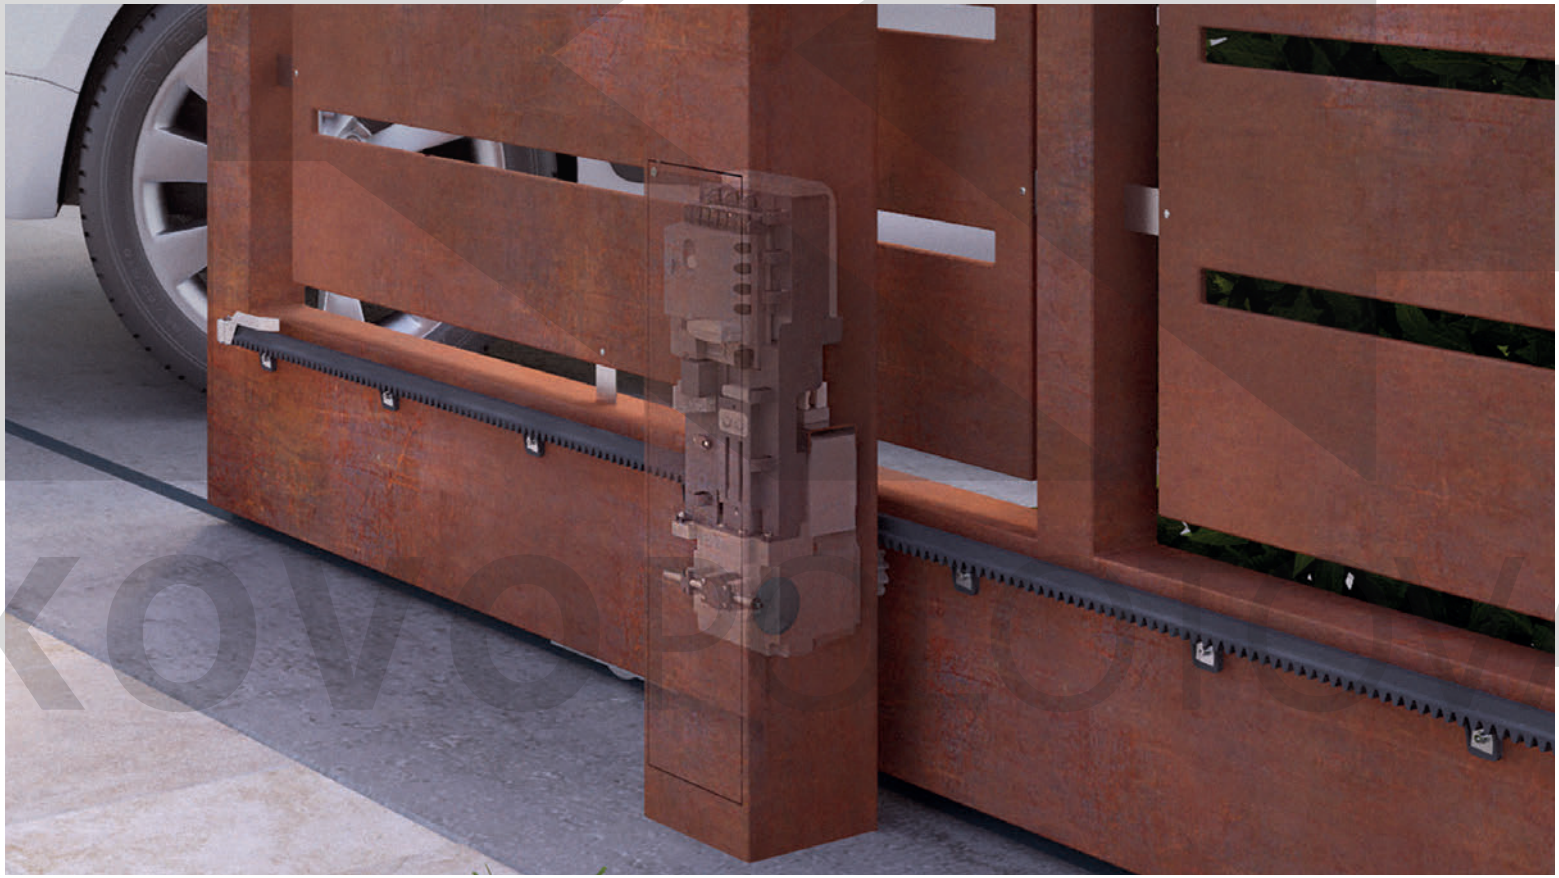
Intelligent: thanks to obstacle detection and automatic working time programming. Self-diagnostics with flashing light signalling.

Safe: acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

Simple and precise limit switch adjustment: integral absolute limit switch, quick learning with just one opening or closing operation with motor released.

Practical: control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

Flexible: unlocking can be provided on both sides of the post and/or on the outside (with the KIO and KA1 accessories). Also easy to install on existing posts.



Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Discover the complete range of BiDirectional products on page 176.

Slight

Nice motor for sliding gates up to 400 kg with leaf length up to 6 m

Motor with built-in control unit and absolute encoder.

Innovative ultra-compact design: the vertical configuration of the motor makes it easy to install even in narrow openings.

User-friendly: thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

Built-in LED light: programmable as either a flashing or courtesy light, it warns of gate movement during opening and closing.

Master/slave selection: for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

Intelligent: thanks to obstacle detection and automatic working time programming. Self-diagnostics with flashing light signalling.

Safe: acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

Built-in absolute limit stop:

- simple and precise regulation thanks to the rapid learning in a single movement with the motor released;
- no bracket or accessory to be installed on the ratchet;
- particularly suitable in snow areas.

Practical: control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Master/slave selection: for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

Intelligent: thanks to obstacle detection and automatic working time programming. Self-diagnostics with flashing light signalling.

Safe: acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

Built-in absolute limit stop:

- simple and precise regulation thanks to the rapid learning in a single movement with the motor released;
- no bracket or accessory to be installed on the ratchet;
- particularly suitable in snow areas.

Practical: control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Discover the complete range of BiDirectional products on page 176.

Yubii is the new Nice ecosystem that connects all the automations in the home.

Robus 400/600/1000

For sliding gates weighing up to 400 kg (RB400), up to 600 kg (RB600) and up to 1000 kg (RB1000)

Versions with electromechanical limit switch (RB400/RB600/RB1000) and with inductive limit switch (RB600P/RB1000P).

User-friendly: thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

Practical: control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

Advanced: RB400, RB600 and RB1000 are equipped with a temperature sensor: adapt the motor power to the climatic conditions and at the same time thermal cut-out. A master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other.

Intelligent: thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light. 8 programming levels.

Safe: acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

Sturdy: base and release in pressure die cast with easy to open handle.

Silent: gear motor on bearings.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Run 1800/2500

For sliding gates weighing up to 1800 kg (RUN1800) and up to 2500 kg (RUN2500)

Suitable to operate in extreme conditions, in systems for intensive use.

Ventilated motor with inductive limit switch (RUN1800P/RUN2500P) or electromechanical limit switch (RUN1800/RUN2500/RUN2500I).

Easy to install: the BlueBUS system enables connections by means of just two wires between the control unit and up to 15 control safety and signalling devices.

Safe: the acceleration settings (at the start of the manoeuvre) and the deceleration settings (at the end of the manoeuvre) are precise and reliable.

Advanced temperature sensor: Run is able to manage force, adapting it to the different climatic and environmental conditions, while adapting the thermal cut-out protection and intensity of self-ventilation, depending on the temperature reading.

Master/slave selection: for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

Practical and functional: the control unit (and inverter on version RUN2500I), housed inside Run, can be simply connected by means of the practical connector guide.

Silent: gear motor on bearings.

RUN2500I version with built-in inverter

Perfect movement: the inverter enables the power supply and drive of the 3-phase motor with single-phase current at 230 Vac, acting on the frequency to adjust speed of the automation from a minimum of 8.2 m/min to maximum 15.4 m/min. In the automation deceleration phase, the inverter, which dialogues with the control unit, increases the torque, thus improving performance and reducing the risk of the automation blocking on impact with obstacles.

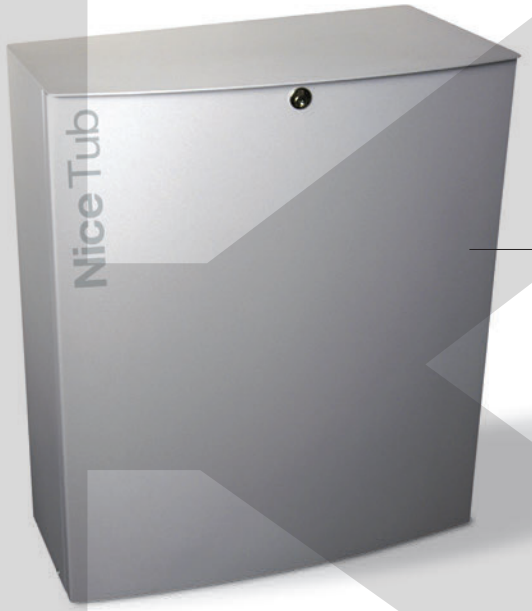
Tub

For sliding gates weighing up to 4000 kg



Ventilated motor to increase work cycle efficiency

Ideal for industrial use.

Irreversible electromechanical 400 Vac gear motor with built-in D-PRO 500 control unit.

Powerful: ideal for automating large industrial gates.

Functionality and safety: programmable, with electromechanical brake to eliminate gate inertia. Self-ventilated motor to increase the working cycles.

Maximum durability and silence: bronze and metal gears.

Advanced: Tub satisfies all control needs thanks to the possibility of easily and precisely managing the various functions with the O-View programmer.

Practical: the lever release enables safe and simple operation.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Discover the complete range of BiDirectional products on page 176.

Yubii is the new Nice ecosystem that connects all the automations in the home.

Discover all the benefits of the Yubii system on page 170.

S-Bar

Electromechanical road barrier system for control of road access

For bar up to 4 m.

24 Vdc gear motor with built-in control unit.

Strength and reliability: tough steel structure, new robust balancing springs guaranteed to 500,000 cycles and elliptical section shaft with high resistance to gusts of wind.

Optional flashing or traffic light can be integrated in cover.

More comfort and safety in programming and maintenance phases: the separate enclosures for electronics and mechanics protect internal parts from potential risks.

Rapid and easy access to the control unit located in the upper section of the barrier body.

Simple fixture of the completely concealed photocells onto the specially designed seats on the barrier body.

More safety and reliability: obstacle detection and monitoring of motor absorption during automation movement.

Automatic fault diagnostics during operation with consequent signalling of fault type through specific flash sequences.

Provision for connection of latest generation optical and resistive sensitive edges (with 8.2 KOhm resistance).

Energy saving: the system sets to standby when not in use to save consumption.

No black out: emergency backup power with the optional batteries housed inside the case.

Release from side with Nice triangular key: can be installed on either side.

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

BiDi Yubii 24V

Wide System

Electromechanical road barrier system for control of road access

24 Vdc gear motor, with built-in control unit, adjustable speed and anti-crush safety function.

Two types of case available, galvanized steel or stainless steel (AISI 304) in **three sizes from 3 to 7 metres long**.

More comfort and safety in programming and maintenance phases: The same built-in control unit is used on all versions, and is installed in the bottom part of the barrier body.

Large front door for quick and easy access.

Easily-removable reinforced gear motor support.

Maximum safety: when both opening and closing; barrier body supports on the inside for minimum visual impact.

Electronically-adjustable speed from 3.5" (Wide M) to 5" (Wide L) for fast opening.

Sturdiness, reliability and easy installation: elliptical section bar for lighter weight and higher wind-gust resistance; special profile for fast assembly of the accessories.

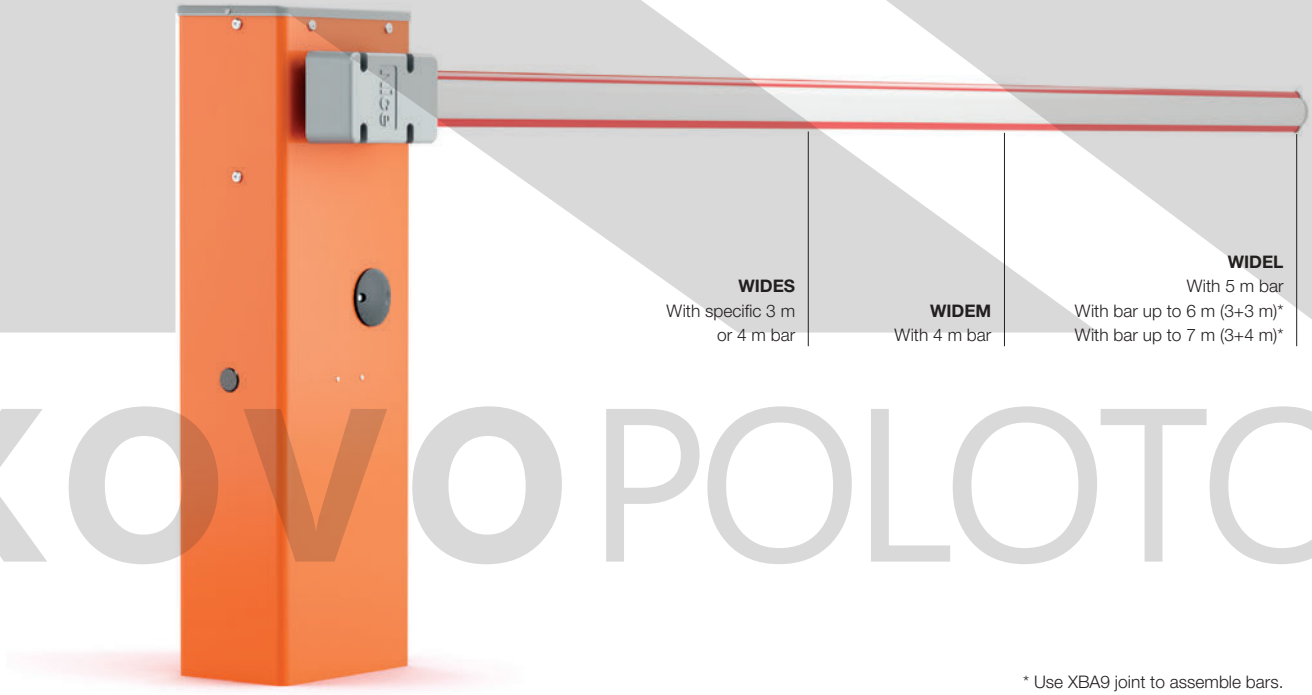
Optional pivot joint to protect the barrier in the event of collision.

The bar can be assembled either on the right or left.

Easy to balance, thanks to practical spring tension adjustment.

No black out: operation is guaranteed in the event of power outages by the PS234 backup battery installed inside the control unit.

Release with triangular key protected against the weather.



WIDES
With specific 3 m
or 4 m bar

WIDEM
With 4 m bar

WIDEL
With 5 m bar
With bar up to 6 m (3+3 m)*
With bar up to 7 m (3+4 m)*

* Use XBA9 joint to assemble bars.

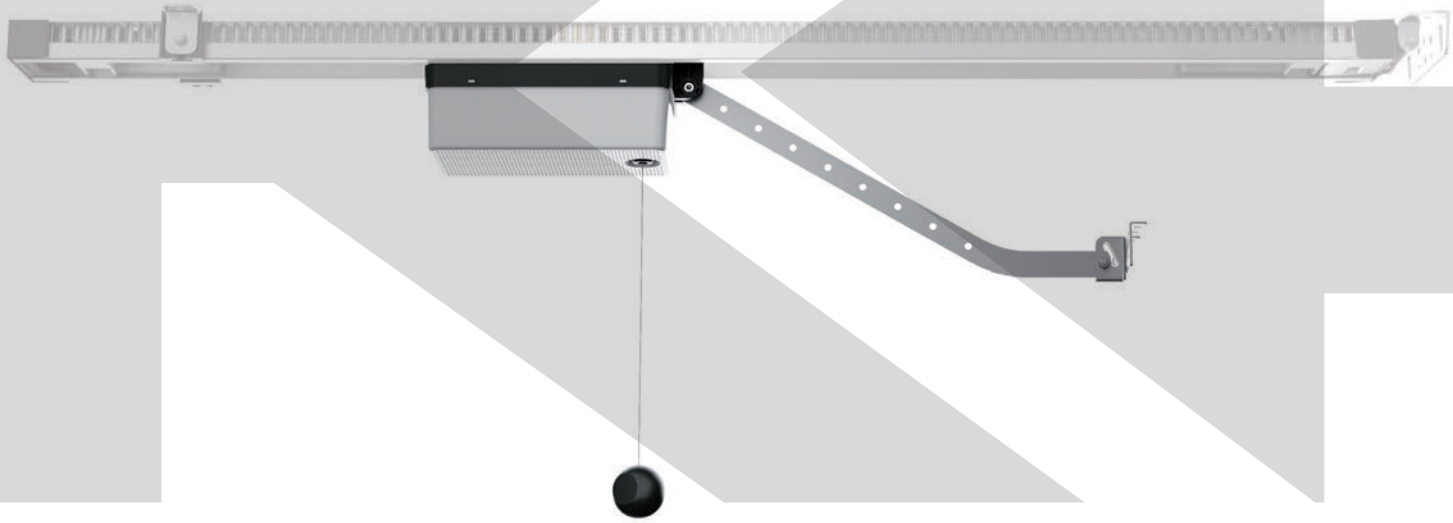
Nice

OPERA 24V

Spykit 550

For sectional doors up to 9 m² and up-and-over doors (including canopy doors) up to 10.5 m²



24 Vdc irreversible electromechanical gear motor for residential use, transmission with rack on the rail.

To be combined with SPYRAIL321, SPYRAIL162 and SPYRAIL081 rails.

Functional and stylish: the motor is the only component that moves on the rail, there are no chains or other noisy mechanisms. Ideal for any architectural context.

Handy: Separate control unit: more practical and convenient for programming and maintenance. Built-in LED courtesy light. Three practical keys to control the automation.

Quick to install: modular rail with assembly accessories. Limit switches easy to position along the rail with no need to stand and work on the ceiling. No chains or other noisy mechanisms to install.

Easy to program: simple and fast basic programming, using the Quick Setup procedure. Simplified advanced programming, using O-View.

ON/OFF release system: pulling the release knob once releases the motor; pulling it a second time blocks the motor again, in any position along the rail.

Inexpensive to run and environmentally-friendly: when connected to the mains in standby mode, the control unit consumes 1.5 W.

Safe: obstacle detection, motor power monitoring during travel, diagnostic messages via flashing light and courtesy light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Ready for installation of the latest generation 8.2 kOhm resistive sensitive edges.

Optimised logistics: for practical management and transport, the rails are available in different sizes: single 3.2 m long rail, or supplied in two 1.6 m sectionsplus a 0.8 m extension.

The kit contains:

SPY550
1 gearmotor, 550 N.

SPYBOX
1 Control unit with built-in LED courtesy light and receiver.

FLO2RE
1 Transmitter 433.92 MHz, 2 channels.

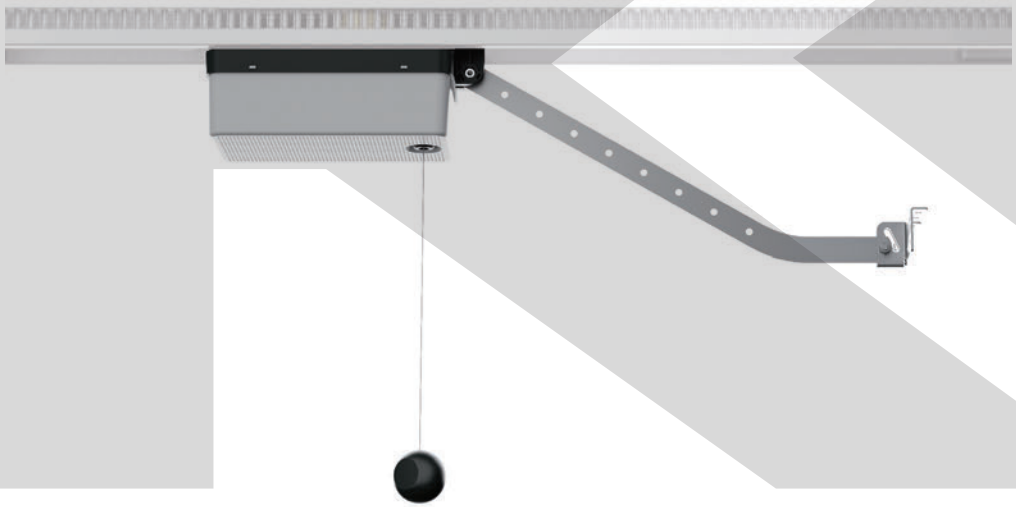
BiDi Yubii SOLEMYO OPERA

Spykit 650/800 BD

For sectional doors up to 10.5 m² (SPY650) and 12.5 m² (SPY800), up-and-over doors, including canopy doors, up to 11.5 m² (SPY650) and 14 m² (SPY800)



24 Vdc irreversible electromechanical gear motor for residential use, transmission with rack on the rail.

To be combined with SPYRAIL321, SPYRAIL162 and SPYRAIL081 rails.

Functional and stylish: the motor is the only component that moves on the rail, there are no chains or other noisy mechanisms. Ideal for any architectural context.

Handy: Separate control unit: more practical and convenient for programming and maintenance. Built-in LED courtesy light. Three practical keys to control the automation.

Quick to install: modular rail with assembly accessories. Limit switches easy to position along the rail with no need to stand and work on the ceiling. No chains or other noisy mechanisms to install.

Simple to install with the BlueBus system: requiring just two wires for connection between the control unit and the pairs of photocells and other accessories featuring BlueBus technology.

Easy to program: simple and fast basic programming, using the Quick Setup procedure. Simplified advanced programming, using O-View.

ON/OFF release system: pulling the release knob once releases the motor; pulling it a second time blocks the motor again, in any position along the rail.

Inexpensive to run and environmentally-friendly: when connected to the mains in standby mode, the control unit consumes just 0.5 W. When connected to the battery or the Solemyo kit, power consumption in standby mode is reduced to 0.1 W.

No black out: operation is guaranteed even when mains power is not available, thanks to the optional PS324 backup battery.

Safe: obstacle detection, motor power monitoring during travel, diagnostic messages via flashing light and courtesy light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Ready for installation of the latest generation 8.2 kOhm resistive sensitive edges.

Optimised logistics: for practical management and transport, the rails are available in different sizes: single 3.2 m long rail, or supplied in two 1.6 m sectionsplus a 0.8 m extension.

Nice

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Spinbus

For sectional doors up to 12.5 m² and up-and-over garage doors up to 11.8 m²

Irreversible electromechanical gear motor, for residential use, with belt drive, 24 Vdc motor, with magnetic encoder.

Complete version of the guide in 3 x1 m sections.

Rapid installation - anywhere! The adjustable head, cord-type release and cable-controlled, step-by-step release can be fitted in any part of the garage in order to actuate the system without a remote control device and without the need to install wall-mounted control units.

Inexpensive to run and environmentally-friendly: with the connection to the mains in standby mode the control unit with radio connected consumes just 0.8 W (SPIN30) and 1.2 W (SPIN40); when connected to a battery or to the Solemyo kit, consumption in standby mode is reduced to 0.036 W.

User-friendly thanks to the BlueBUS system: which enables connection by means of just two wires between the control unit and pair of photocells.

Safe: obstacle detection system and automatic programming of the working times; motor absorption is monitored during movement, self-diagnosis by means of a flashing light and courtesy LED light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Can be connected with latest generation sensitive edges 8.2 KOhm.

Luminous: built-in LED courtesy light able to replace garage lighting.

Three-section guide in galvanised steel with belt drive system, very quiet

By rotating the “petal” which diffuses the light, users access the incorporated BlueBUS control unit

Nice

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Spinbus

For sectional doors up to 17.5 m² and up-and-over garage doors up to 14.7 m²

Non-reversible electromechanical gear-motor, 230 Vac for residential use, 24 Vdc motor with magnetic encoder.

For use with belt tracks SNA30 - SNA31 or chain tracks SNA30C - SNA31C.

Rapid installation - anywhere! The adjustable head, cord-type release and cable-controlled, step-by-step release can be fitted in any part of the garage in order to actuate the system without a remote control device and without the need to install wall-mounted control units.

Inexpensive to run and environmentally-friendly: when connected to the mains on standby the control unit with radio connected consumes just 0.8 W (SN6031) and 1.2 W (SN6041); when connected to a battery or to the Solemyo kit, consumption in standby mode is reduced to 0.036 W.

User-friendly thanks to the BlueBUS system: which enables connection by means of just two wires between the control unit and pair of photocells.

Safe: obstacle detection system and automatic programming of the working times; motor absorption is monitored during movement, self-diagnosis by means of a flashing light and courtesy LED light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Can be connected with latest generation sensitive edges 8.2 KOhm.

Luminous: built-in LED courtesy light able to replace garage lighting.

By rotating the “petal” which diffuses the light users access the incorporated BlueBUS control unit

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Spinbuskit 20/22/23 BD

For sectional doors up to 10.5 m² and up-and-over garage doors up to 11.8 m²

Three versions in kit:

- rail in three 1 m pieces SPIN20KCE;
- pre-mounted guide of 4 m (3+1 m) SPIN22KCE;
- with pre-mounted guide of 3 m SPIN23KCE.

Rapid installation - anywhere! The adjustable head, cord-type release and cable-controlled, step-by-step release can be fitted in any part of the garage in order to actuate the system without a remote control device and without the need to install wall-mounted control units.

Inexpensive to run and environmentally-friendly: with mains electricity, the control unit in stand-by with radio connected consumes just 5.2 W; connected to a battery or the Solemyo kit, consumption in stand-by drops to 0.036 W.

User-friendly thanks to the BlueBUS system: which enables connection by means of just two wires between the control unit and pair of photocells.

No black out: operation in event of power failure with optional PS124 batteries insertable in the motor.

Safe: obstacle detection system and automatic programming of the working times; motor absorption is monitored during movement, self-diagnosis by means of a flashing light and courtesy LED light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Can be connected with latest generation sensitive edges 8.2 KOhm.

Built-in **LED courtesy light.**

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

BiDi | Yubii | SOLEMYO | OPERA | BLUEBUS | 24V

Ten

For projecting and non-projecting up-and-over doors of up to 9 m² and 2.6 m high (up to 16 m² and 2.6 m high using 2 motors)

24 Vdc electromechanical gear motor.

Three versions, standard and upgraded:

- with built-in control unit, force regulator and absolute encoder (TN2010L);
- with incorporated control unit and receiver, electromechanical limit switch (TN2030L);
- without control unit (TN2020L).

Reliable and precise: memorisation of the opening and closing limit switch positions; gradual starting and slowdown during closing.

Safe: obstacle detection system and monitoring of the motor absorption during movement, self-diagnosis by means of a flashing light, courtesy LED light.

The latest generation optical and resistive 8.2 KOhm sensitive edges can also be connected.

Functional: possibility to connect a second motor without control unit TN2020L, to automate doors up to 16 m².

Model TN2030L with built-in radio receiver, also compatible with Nice Flo and Smilo systems.

TN2010L model with BlueBUS technology, with provision for the Solemyo and Opera systems, compatible with the Yubii system and bidirectional receiver.

Advanced: the absolute encoder technology guarantees precision without the need of a limit switch, reliability and the long term safeguard of the set values.

User-friendly: thanks to the BlueBUS technology which enables connection by means of just two wires between the control unit and photocells.

Energy saving: the system enters in stand-by when not in use.

Practical: the control unit and PS324 buffer battery (optional) can be connected by means of a simple connector and can be housed directly inside the motor.

Compatible with Nice SMXI and OXI plug-in receivers (optional).

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Soon

For sectional doors* up to 20 m²

24 Vdc electromechanical gear motor with absolute encoder.

Versatile: ideal in residential contexts with even large garage doors, in multi-user contexts including with intensive use and in industrial contexts with small sectional doors. For example 3x3 m loading points.

All in one: built-in control unit. No track, or rack.

Easy to install: can be fitted directly onto the shaft of a sectional door; compact, particularly in width, in order to make assembly easy in any position.

User-friendly thanks to the BlueBUS system: two-wire connection between the control unit and the pairs of photocells.

Practical: the control unit and PS124 buffer battery (optional) can be connected by means of a simple connector and can be housed directly inside the motor.

Energy saving: the system enters in stand-by when not in use.

Reliable and precise: memorization of limit switch positions on opening and closing; gradual starting and slowdown during closing; the abosolute encoder technology guarantees precision without the need of a limit switch, reliability and long term safeguard of the set values.

Safe: obstacle detection system and monitoring of the motor absorption during movement, self-diagnosis by means of a flashing light, courtesy LED light.

The latest generation optical and resistive 8.2 KOhm sensitive edges can also be connected.

Easy maintenance: removable terminals and receiver.

Easy to certify: passes impact tests without further accessories.

* for balanced sectional doors equipped with anti-crash (safety device useful in case of spring breaking).

Protective flap complete with courtesy LED light. Users can connect and programme the control unit, modify its functions without having to disassemble the casing

Release system with 4 m long cord

Perfect for intensive use.

Compact and versatile: compact, particularly in width, in order to make assembly easy in any position; quick to install.

Easy to install: can be fitted directly onto the shaft of sectional doors. Perfect for Ø 25.4 mm shafts and can be used also with Ø 31.75-35-40 mm shafts thanks to the CRA9 adapter.

Many different functions with the separate D-Pro 924 control unit:

- automatic memorization of limit switches on opening and closing;
- gradual departure and slowdown during closing;
- optional battery power supply in the event of power failure;
- pause time programming and speed adjustment;
- "service" warning light for maintenance (can be programmed according to the number of manoeuvre required).

Nice **BiDirectional products** indicate the status of the automations and confirm correct reception of the command.

Hyppo 7100

For 2-leaf folding doors

Electromechanical gear motor irreversible with telescopic arm, also in 24 Vdc version, with magnetic encoder.
Single model for right and left leaves.

Double built-in limit switch: in both opening and closing, pre-wired: fewer connections and fast installation (for HY7100 only).

Solid metal mechanics.

Sturdy, galvanised, telescopic arm.

Recommended control units:

- for HY7005 Moonclever MC800;
- for HY7024 Moonclever MC824H.

24 Vdc version with magnetic encoder.

Perfect for intensive use, compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorization of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connecting latest generation resistive sensitive edges at 8.2 kOhm.

Compact, shockproof bodywork with no sharp corners

Nice aluminium release, designed to accommodate external release

Nice

OPERA 230V

Giro

For balanced rolling shutters up to 170 kg and 340 kg

Electromechanical gearmotor available both in reversible and irreversible version.

High performance: new irreversible twin-motor version with 800 W power and lifting force up to 340 Nm.

Unbeatably flexible use and less inventory to keep in stock: a single model that is designed to take a 76 mm rolling shutter shaft but can be easily adapted to take a 60 or 48 mm shaft, covering the full range of most commonly used sizes.

The outside diameter of the gear can be adapted from 200 mm to 220 or 240 mm, allowing installation on most rolling shutters.

Technologically innovative: the brake is built into the gearmotor and results in much smoother operation than the traditional solution.

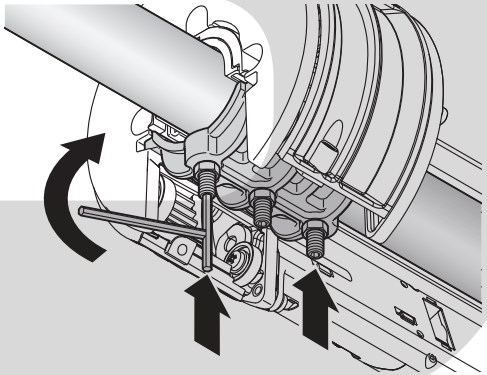
Easy limit switch adjustment: automatic limit switch adjustment is achieved by simply operating the rolling shutter without any load, with the motor released, and then just fine-tuning the system manually.

Simple system for releasing both motors at the same time.

Recommended control unit: MC200.

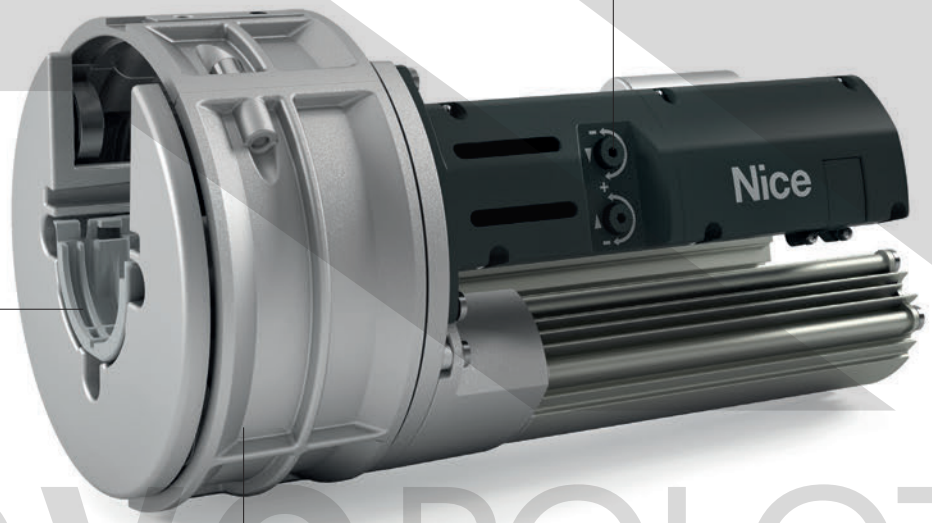
QUICK AND EASY INSTALLATION

During installation, the motor is supported on the shaft thanks to the practical guided coupling.



Practical:
limit switches for both closing and opening, easy to adjust

Versatile:
can be used with 76, 60 and 48 mm shafts



Strong:
100% aluminium housing

Twin-motor version:
maximum power, ideal for the toughest applications

OPERA 230V

Rondo

For balanced rolling doors up to 170 kg

Irreversible electromechanical gearmotor.

Smart: the wiring is protected by an elegant box; pre-wired capacitor.

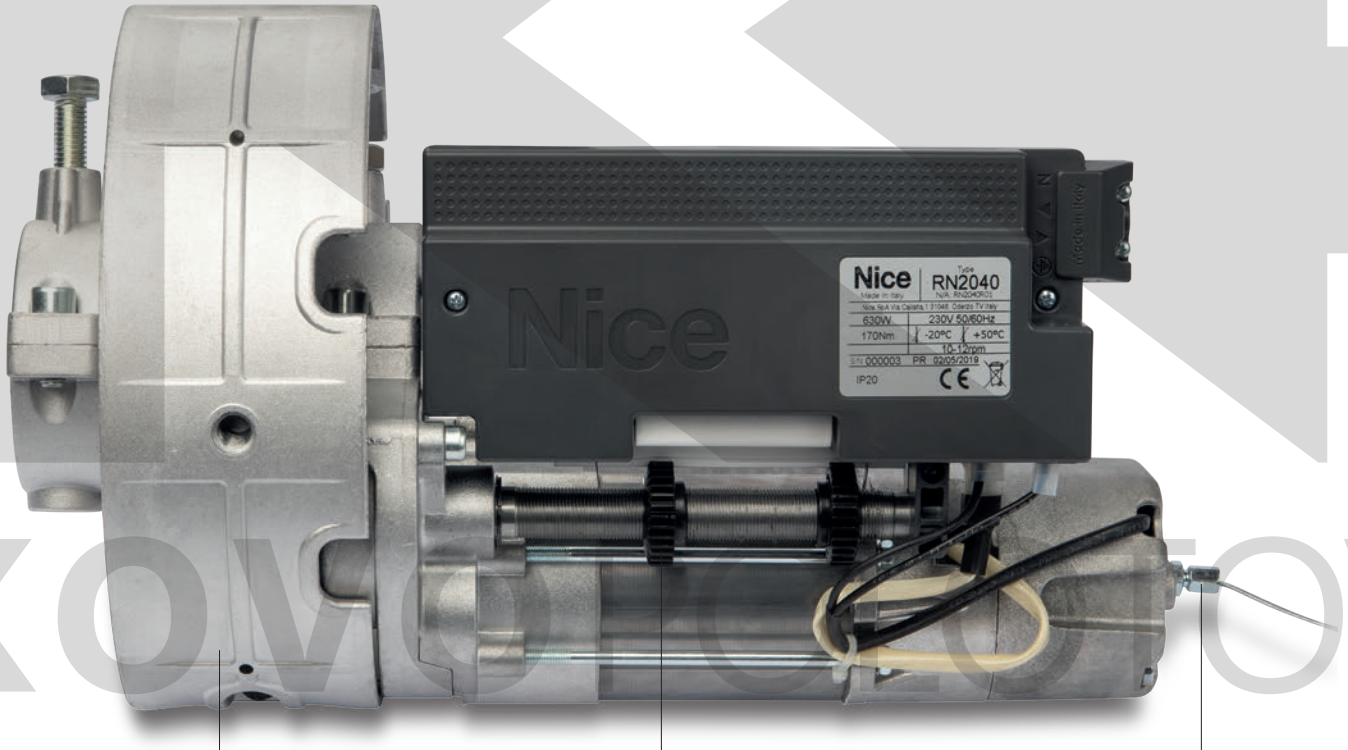
Fast: easy and intuitive adjustment of the limit switches both during opening and closing.

Complete: supplied with 200 mm pinion and 220 mm adaptor, for 60 mm shafts with 48 mm adaptors.

Easy to install: thanks to the guided connector, you don't need to hold the motor while you secure it using just 3 screws.

Recommended control unit MC200, easy, complete and reliable with:

- compatible with the Opera system;
- remote control with the MyNice Welcome App (thanks to the IT4WIFI interface);
- semi-automatic or automatic operation;
- complete reverse run with photocell;
- step-by-step operation;
- programmable Step-by-step/Open input;
- programmable Stop/Photo input;
- input for resistive edge;
- incorporated radio card, compatible with the Nice Flo, FloR and Smilo systems.



Sturdy: housing in 100% aluminium

Practical: easy to adjust, electromechanical limit switches both during closing and opening

Complete: designed for cord operated release

KOVO POLOTOVARY.CZ

Yubii™

More automations, more control, fewer worries.

Yubii connects all the automations in your home and lets them communicate with each other and with you via the Mesh network, so you can eliminate every doubt and live each day with greater peace of mind.

Manage your home from your smartphone.

Download the MyNice Welcome app to have everything under control, even when you're not at home.

More certainty with bidirectional remote controls.

Bidirectional remote controls provide feedback through vibration, sounds and lights to indicate automation status and correct command reception.

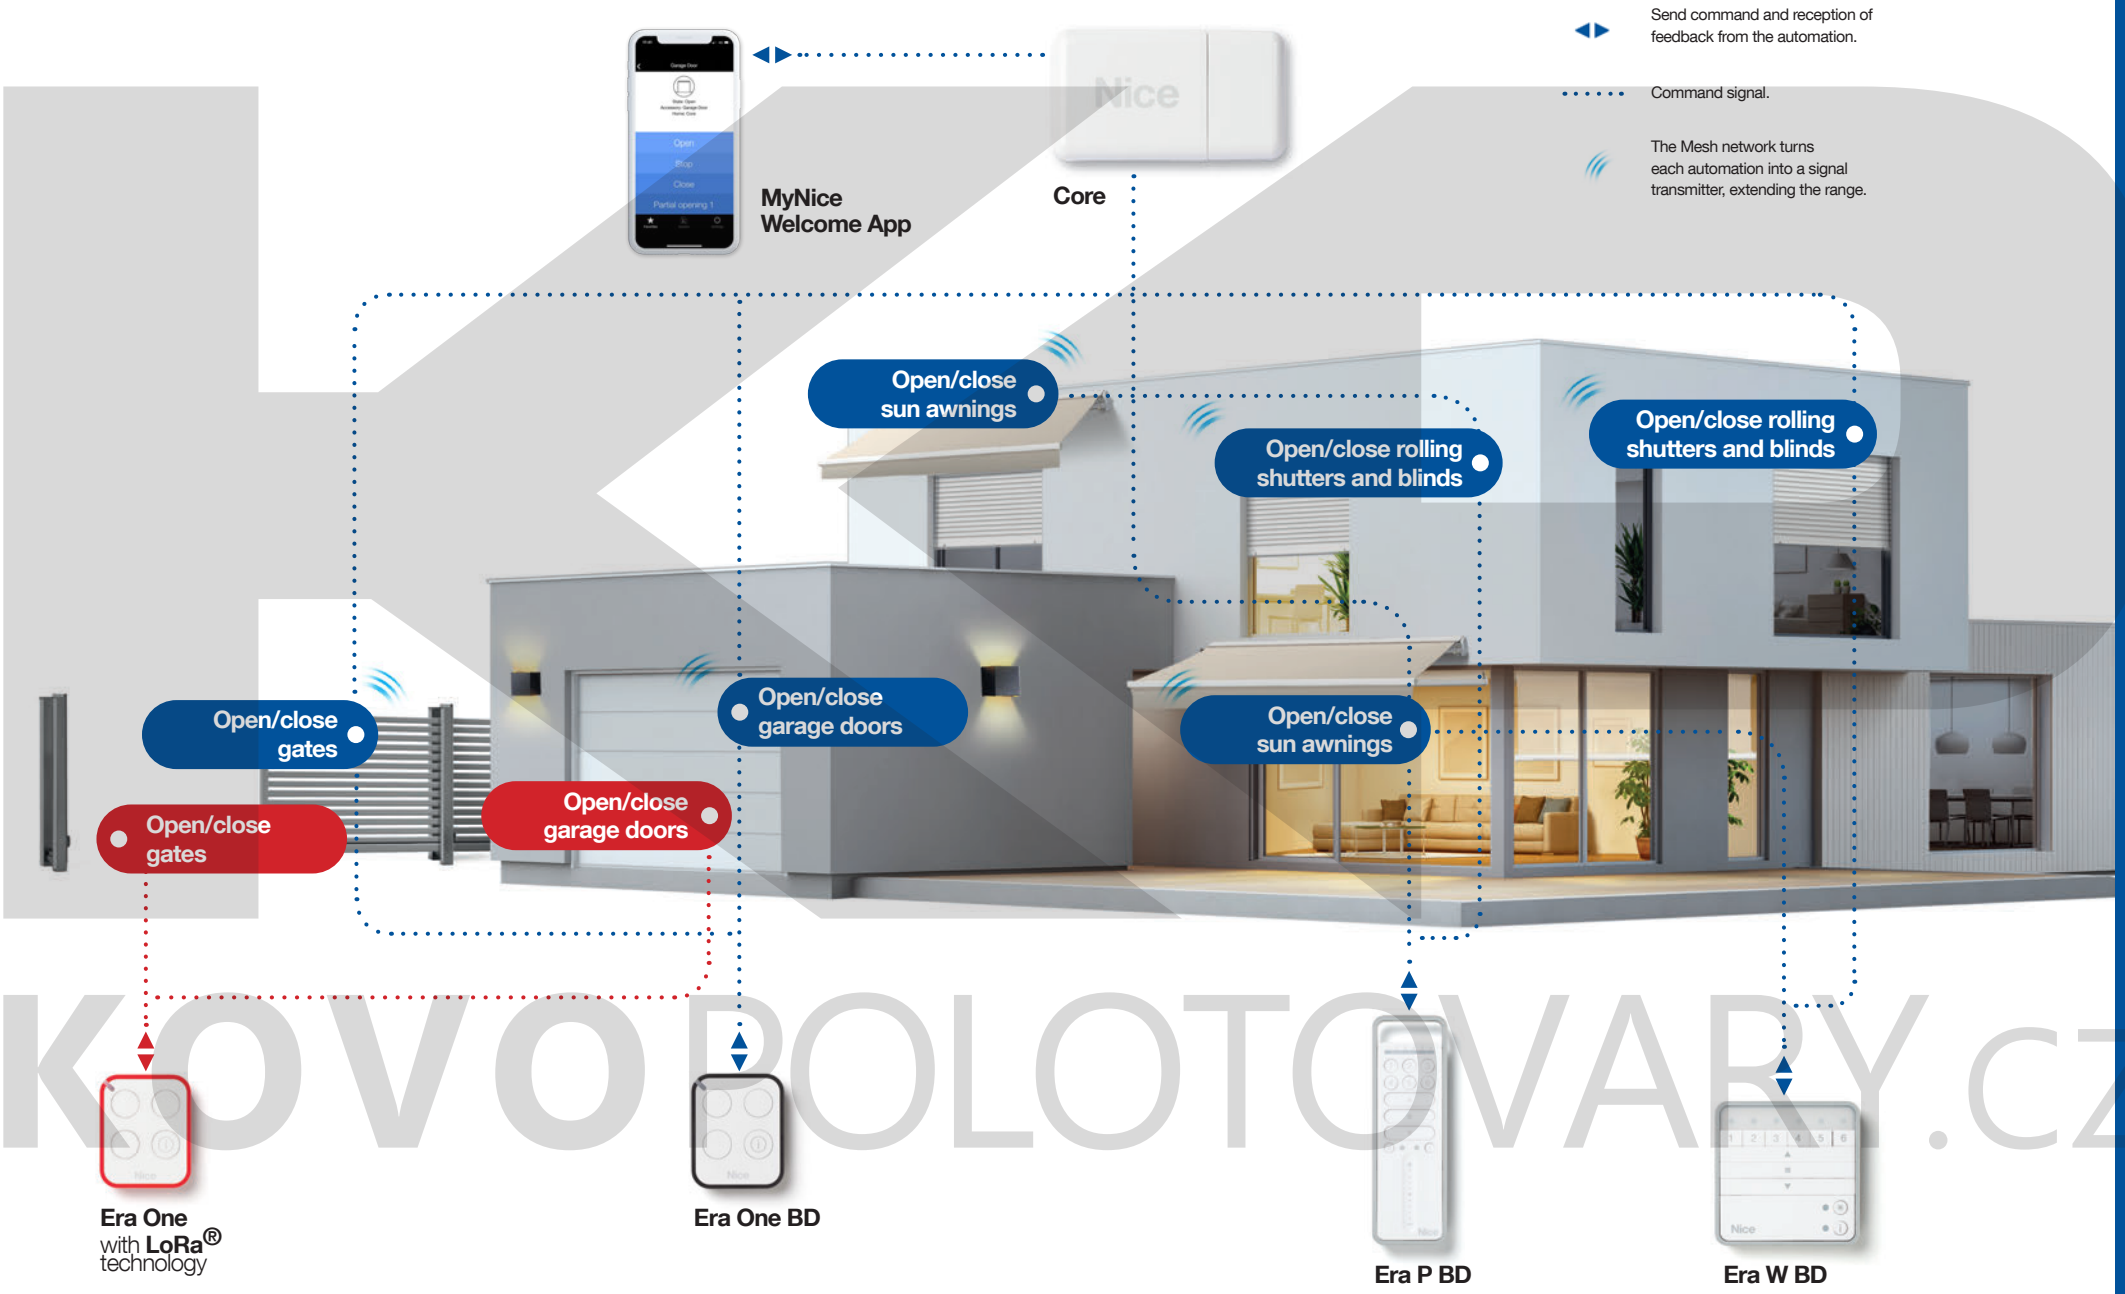
Your lifestyle, your scenarios.

Connect your automations through the Core and create customised scenarios you can manage either by smartphone or by setting a key on your bidirectional remote control.

For example, you could create a scenario that raises the rolling shutters, turns on the irrigation and opens the garage door to let the dog out in the garden every morning at 7.00. All this with just one click on your smartphone or the bidirectional remote control.

KOVOPOLOTOVARY.CZ

Do you want to have everything under control, even when you're not at home? You can even get an answer from your present gate or garage with a simple upgrade. Do the test now and discover which bidirectional products you need on
yubii.niceforyou.com



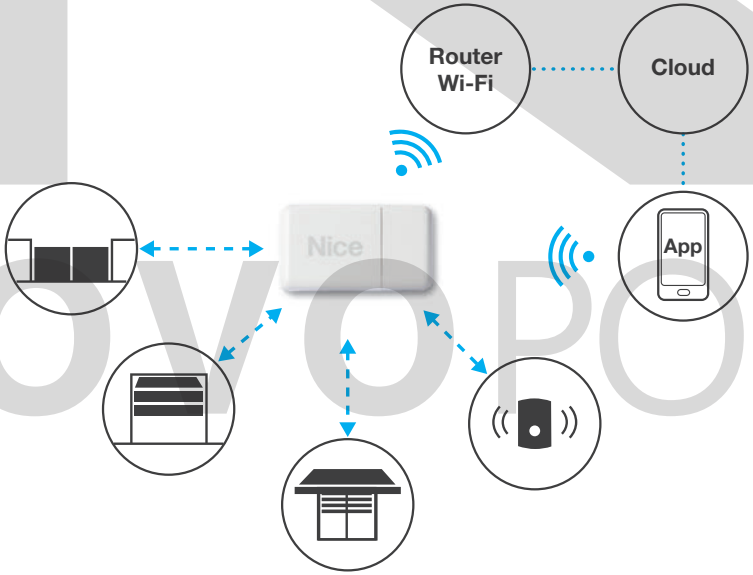
KOVO POLOTOVARY.CZ

Nice

NEW BiDi Yubii

Core

Nice Wi-Fi-Radio Gateway



Nice Wi-Fi-Radio Gateway to manage Nice automations via the MyNice Welcome App.

Smart: communicating by Wi-Fi, Core enables Nice automations with built-in or optional radio receiver for doors, gates, barriers, blinds, awnings and rolling shutters to be connected, made to interact and controlled, including remotely. It can also be used to manage remote controls (including unidirectional), sensors for blinds, awnings and rolling shutters with built-in radio and accessories for MyNice alarm systems (except MNTX8, MNKS, and MNPIRTVCC series Photopirs).

Easy to configure: the **MyNice Welcome App** makes configuring the interactions between the automations and programming scenarios easy and intuitive.

Comfort: activations can be scheduled in time bands, for example:

- at 7.00 in the morning, raise the blinds and open the garage door (good morning);
- at 21.00 in the evening, dim the light levels in the room by partially lowering the blinds, turn power to the stereo on to play music (relax);
- at 22.00 at night, turn off the lights (good night).

Safe: The bidirectional radio protocol uses GFSK modulation to improve immunity from interference.

Optional battery power to safeguard functions in the event of blackout. Configurations are automatically saved on the Nice Cloud.

Versatile: Thanks to the Yubii ecosystem, you can make all the devices in the system interact to create events, such as:

- activating a Nice remote control raises the blinds and turns the lights off;
- if a Nice smoke detector detects the beginning of a fire, the system will automatically turn power to the electrical loads off;
- if a Nice flood detector detects that the water has reached the threshold level, it will open the garage door.

In unidirectional rolling code mode, compatible with previous versions of Nice receivers with connector or surface mounted.

Discover the complete range of **BiDirectional products** on page 176.

Discover all the benefits of the **Yubii** system on page 170.

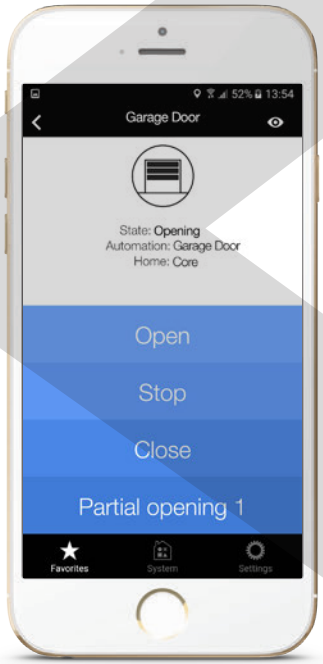
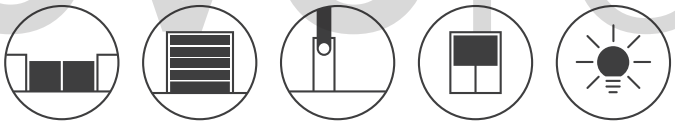
KOVOPOLOTOVARY.CZ

NEW BiDi Yubii

My Nice Welcome App





MyNice Welcome is a single APP allowing users to configure and control **Nice** devices directly from their smartphone via **Core**, the Nice Wi-Fi-Radio gateway.

Everything under control: if your smartphone has an internet connection, you can also view the status of each individual automation and control it wherever you are via the Nice Cloud.

All Nice technology at your fingertips!: the MyNice Welcome App lets you configure and control the system locally, even without an internet connection.

With a simple click, you can update the IT4WIFI interface and Nice Core Wi-Fi-radio gateway, download the events log and view automation activations and diagnostics.

Practical: you can control Nice group automations and create scenarios and rules remotely, combining sensors, remote controls and automations (the smartphone and Core communicate via the Wi-Fi network).

Smart: with the dedicated accessories, you can now:

- **associate** and save all home devices, such as sensors, remote controls and automations;
- **configure** the parameters of the bidirectional sensors and verify their status (battery, FW version, etc.);
- **add** more functions to a key on the remote control, while maintaining the original settings (for example, if pressing a key opens the gate, you can now add other functions, such as the simultaneous or delayed switching of the garage light or activation of an existing scenario);
- **create** scenarios involving all the saved devices, or activate the functions of an automation with an event (pressing a button, sensor activation, scheduling), for example, close the rolling shutters at your preferred time of day (scheduling) or when the wind sensor sends an event (sensor activation).

Discover the complete range of **BiDirectional products** on page 176.

Discover all the benefits of the **Yubii** system on page 170.

KOVOPOLOTOVARY.CZ

Nice

IT4WIFI

Interface for controlling Nice automations by smartphone

Works with Apple HomeKit

IFTTT

Wi-Fi interface allowing control of Nice gate and garage door automations compatible with the BusT4 (Opera) protocol.

Easy to install:

1 Using the cable provided, connect the BusT4 socket on the Wi-Fi interface and the BusT4 or IBT4N* socket on the Nice control unit.

2 Choose whether to use IT4WIFI with the MyNice or Apple HomeKit protocol. Then configure the interface using your smartphone.

The IT4WIFI interface can be installed in the control unit or a protected environment. To reach the Wi-Fi range, a BusT4 cable up to 100 m long can be used.

Geolocation: with the GPS on the smartphone activated, the gate or garage door opens or closes when the device is at the set distance.

Voice commands: Open and close the garage door with Siri: the automation can be activated with just a voice command.

Programmed actions: certain actions can be programmed to take place at set times and days. For example: "From Monday to Friday, open the gate and garage door at 19.00".

Integration with the Apple HomeKit.
Nice has Apple HomeKit certification with the IT4WIFI interface: manage Nice automations with Apple's Home app and create personalised scenes with the other HomeKit devices connected.

Compatibility with the IFTTT service: by using the free IFTT (If This Then That) web platform, simple cause-effect rules can be created, associating the services provided by the various applications.
For more information, visit the website www.ifttt.com/nice.

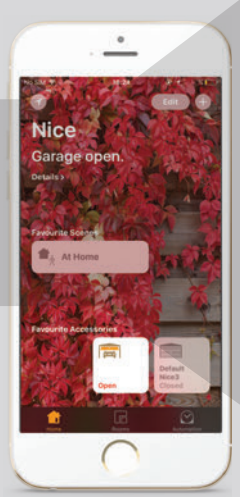
A complete offer

Home by Apple

Controlling the garage door by iPhone and Apple Watch using the Apple HomeKit protocol. Creation of scenes with the other HomeKit accessories.

Works with Apple HomeKit



Functions
Commands: open, close
Voice commands by Siri
Geolocation

Requisites
A maximum of 16 users can be associated with the IT4WIFI
iOS 10 operating system or later
Wi-Fi access point supporting Apple's Bonjour service
Domestic hub: 4th generation Apple TV with tvOS 10 or later versions

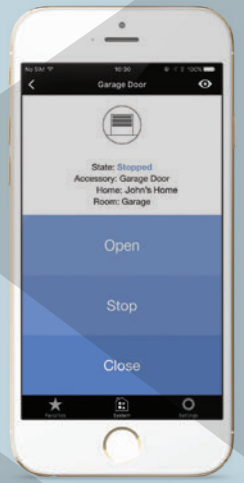
To configure IT4WIFI with the Home app, see **the instructions on the Apple site.**

https://support.apple.com/en-gb/HT204893

MyNice Welcome HK

Controlling the garage door by iPhone and Apple Watch using the Apple HomeKit protocol.

Download on the App Store · Works with Apple HomeKit



Functions
Commands: open, stop, close
Voice commands by Siri
Geolocation

Requisites
A maximum of 16 users can be associated with the IT4WIFI
iOS 10 operating system or later
Wi-Fi access point supporting Apple's Bonjour service
Domestic hub: 4th generation Apple TV with tvOS 10 or later versions

To configure IT4WIFI with the MyNice Welcome HK app, see the **instructions on the Nice site.**

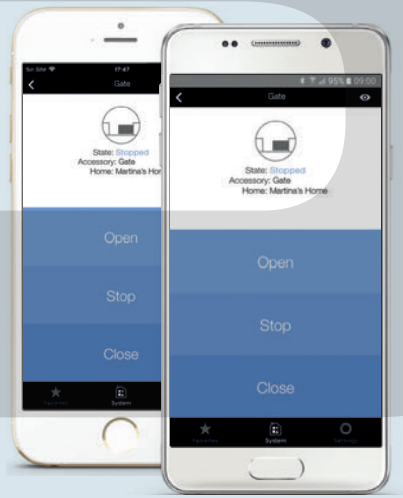
MyNice Welcome

Controlling the gate and garage door by smartphone, for iOS and Android users.

Download on the App Store · GET IT ON Google Play



Functions
Commands: open, stop, close, plus one other from among those provided by the automation
Geolocation and other actions are possible thanks to compatibility with the IFTTT service

Requisites
A maximum of 20 users can be associated with the IT4WIFI
iOS 10 or Android 5 operating system or later
Wi-Fi access point supporting Apple's Bonjour service

To configure IT4WIFI with the MyNice Welcome app, see the **instructions on the Nice site.**

https://www.niceforyou.com/en/support

Application of the Works with Apple HomeKit logo indicates that the electronic accessory in question has been designed specifically to connect with the iPod touch, iPhone or iPad respectively and that the developer certifies its compliance with the performance standards defined by Apple. Apple is not liable for functioning of the device or its compliance with legal and safety standards.

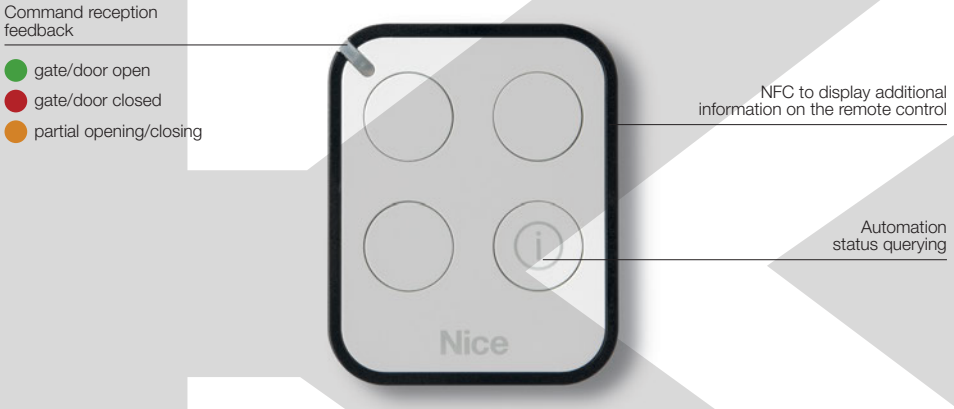
KOVOPOLOTOVARY.CZ

Nice

NEW BiDi Yubii

Era One BD & OXI BD

Bidirectional transmitters and receivers



4 key transmitter: 3 radio channels and 1 key to request automation status.

433.92 MHz radio frequency with rolling code encoding, identity code management and self-learning with 192 bit encoding, also compatible with receivers with Nice O-Code FloR encoding. Operating in unidirectional mode, the bidirectional Era One remote control is also compatible with previous versions of Nice receivers with connector or surface mounted.

Instantaneous commands: the new bidirectional radio protocol is about 30 times faster than the previous radio protocols. Automation control has never been faster!

Even at a distance from the system, you can enable a new transmitter by using another Era One transmitter already enabled in the receiver, thanks to exchange of the **identity code** between them.

Elegant and convenient: the Era One transmitter can be used as a stylish, high-tech keyring or fixed to the wall or your car's dashboard with the handy support included in the pack.

Era One bidirectional, ideal for use in cities or places where many devices are present. The bidirectional radio protocol uses GFSK modulation to improve immunity from interference.

Receiver with connector, bidirectional, with the functions of the Opera system.

The OXIBD is compatible with all Nice control units with SM connector and so can also make existing Nice automations bidirectional.

Ergonomic design: antenna connectors, programming LED and key in convenient, handy positions.

Maximum flexibility: can memorise up to 750 bidirectional transmitters or 1024 unidirectional transmitters.

OXIBD receivers can be used as signal repeaters to increase the operating distance between the transmitters and other Nice bidirectional receivers.

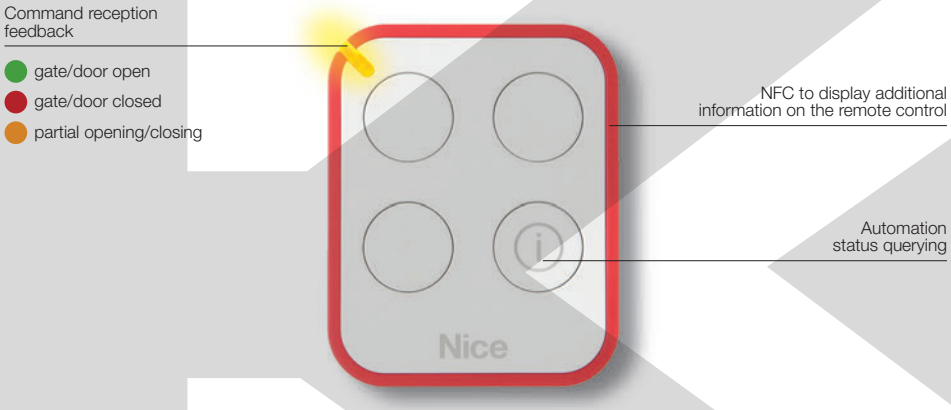
NEW BiDi

Era One LR & OXI LR

Bidirectional transmitters and receivers with LoRa® long range technology



4 key transmitter: 3 radio channels and 1 key to request automation status.

433.92 MHz radio frequency with rolling code encoding, identity code management and self-learning.

Long range commands: LoRa® technology sends commands over a distance about 10 times greater than previous radio protocols. Automation control has never been so efficient!

Even at a distance from the system, you can enable a new transmitter by using another Era One LR transmitter already enabled in the receiver, thanks to exchange of the **identity code** between them.

Elegant and convenient: the Era One LR transmitter can be used as a stylish, high-tech keyring or fixed to the wall or your car's dashboard with the handy support included in the pack.

Era One LR bidirectional, ideal for use in cities or places where many devices are present. The bidirectional radio protocol uses LoRa® modulation to improve immunity from interference.

Radio receiver with connector, bidirectional, with LoRa® technology.

The OXILR is compatible with all Nice control units with SM connector and so can also make existing Nice automations long range and bidirectional.

Ergonomic design: antenna connectors, programming LED and key in convenient, handy positions.

Maximum flexibility: they can memorise up to 1,024 bidirectional transmitters with LoRa® technology.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
ON3ELR	3 channels, 433.92 MHz, bidirectional, with LoRa® technology	10

Nice

Era P View

Multifunction radio transmitter

Multifunction radio transmitter with intuitive graphic interface, LCD colour screen (2.2”) navigation by 5-key joypad.

To manage up to 99 devices singularly or in groups (20 zones, groups or scenarios).

With clock and calendar to configure timed commands.

Advanced programming for professionals! The installer can access the transmitter and receiver programming and modify and create types and sets of commands.

Direct access from first start-up by inserting the batteries or subsequently using the keys on the back of the transmitter.

Easy to use for all requirements: can be used in either simple or advanced mode.

Advanced Users: Can modify the transmitter settings and the labels identifying the devices and create, time, modify and control zones, groups and scenarios. They can also limit access to the advanced menu by a numerical password.

Easy Users: Can simply and directly control a small number of devices pre-authorised by the advanced user.

They can consult the dashboard and suspend timed events.

Practical and functional: If not used for a few seconds, Era P View switches to stand-by to reduce battery consumption. Thanks to the built-in sensors, the device comes on again automatically when removed from the wall support or moved, or if any key is pressed.

USB socket: to recharge the batteries (if rechargeable).

With practical magnetic support for fixing to the wall.

Nice

Era Inti

Transmitters

The colourful line of 1 and 2 channel miniaturised transmitters, available in six colours.

433.92 MHz rolling code, with management of Identity Codes and Certificates, self-learning and built-in proximity receiver; with 72 bit O-Code encoding, also compatible with receivers with Nice FloR encoding.

Advanced: uses data processing and recognition systems that increase its degree of security and deliver a threefold reduction in automation response times.

Safe: if a transmitter is stolen or lost, it can be replaced through the O-Box, maintaining the same functions as before, and the old transmitter can be disabled by increasing the priority level on the new Inti.

Easy memorisation, even at a distance: thanks to Opera receivers.

There are two options for enabling a new Inti transmitter, even at a distance from the system:

- using a transmitter already programmed in the receiver, thanks to the enabling **Code exchange** between the two;
- using the Nice O-Box connection interface; the receiver's **Certificate** is entered by just placing the new Inti next to the O-Box and following the guided procedure on a PC or PDA.

Inti can be used as keyring thanks to the lace included in the pack.

TRANSMITTER TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
INTI1Y	1 channel, 433.92 MHz, yellow	10
INTI2Y	2 channel, 433.92 MHz, yellow	10
INTI1R	1 channel, 433.92 MHz, red	10

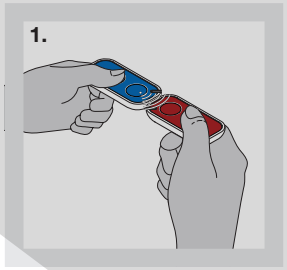
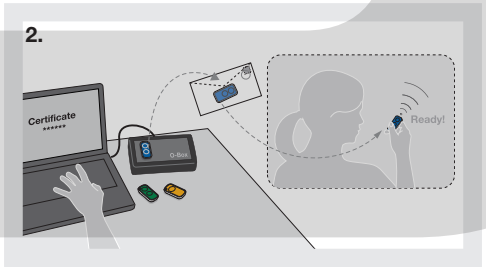
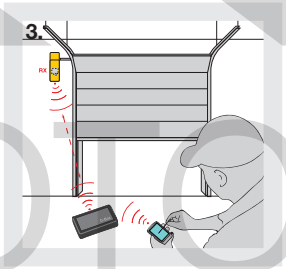
* Transmitter range and receiver reception capacity may be affected by any devices operating on the same frequency in the area.



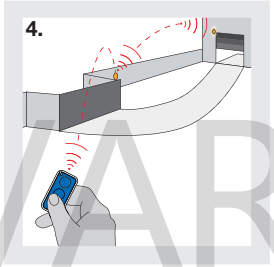
Code exchange between a memorized transmitter and a new one, to be memorized.



Possible memorisation using Nice O-Box and the "Certificate".



The presence of a "transmitter" in the OXIT, OX2T and OX4T receivers allows radio codes to be accessed by means of the O-Box multifunction interface.



OXIT, OX2T and OX4T receivers can be used as signal repeaters.

KOVOPOLOTOVARY.CZ

UNINTIVERSAL!

Inti, the universal control!

Ideal for use in apartment blocks or multi-user systems.

Easy and cheap to install: combined with the OX2 universal receiver, the Inti transmitter is able to control and manage any automation, including pre-installed systems.

Intikit

KOVO POLOTOVARY.CZ

Nice

Era One

Transmitters and receivers

1, 2, 4, 9 channel transmitters and prewired receivers with connector, with and without built-in transmitter.

433.92 MHz rolling code, with management of Identity Codes and Certificates, self-learning and built-in proximity receiver; with 72 bit O-Code encoding, also compatible with receivers with Nice FloR encoding.

Available in versions with multiple input sequential encoding (Era OneC).

Advanced: uses data processing and recognition systems that increase its degree of security and deliver a threefold reduction in automation response times.

Easy memorisation, even at a distance: thanks to Opera receivers.

Safe: if a transmitter is stolen or lost, with the O-Box the user can **replace it**, maintaining the same functions as in the previous one, **disable**the old transmitter by increasing the priority level on the new Era One.

There are two options for enabling a new Inti transmitter, **even at a distance from the system:**

- using a transmitter already programmed in the receiver, thanks to the enabling **Code exchange** between the two;
- using the Nice O-Box connection interface; the receiver's **Certificate** is entered by just placing the new Inti next to the O-Box and following the guided procedure on a PC or PDA.

Extremely practical: using the O-Box software, the Era OneC version allows whole packs of 10 devices to be programmed in a single procedure, without even opening them!

Elegant and convenient: the Era One transmitter can be used as a stylish, high-tech keyring or fixed to the wall or your car's dashboard with the handy support included in the pack.

Era OneFM, ideal for use in cities or places where many devices are present.

868.46 MHz Rolling Code transmitter line, using frequency modulation (FM), less sensitive to interference than amplitude modulation AM.

FLO1RE

FLO2RE

FLO4RE

1, 2, 4 channel transmitters with a new stylish design.

433.92 MHz rolling code system with self-learning function.

Also available in versions with multiple input sequential encoding (Era FlorCE).

Absolute security: rolling code transmission makes the transmitter impossible to clone.

Ideal solution for the management of multi-user apartment block systems thanks to the unique, personal code.

Easy duplication of new transmitter close to the system by using an authorised transmitter or directly using a key on the receiver, while a LED displays the various functions.

Extremely practical: using the O-Box programming unit, the Era Flor-CE version allows whole packs of 100 devices to be programmed in a single procedure, without even opening them.

The O-Box and dedicated software applications for PC and PDA allow:

- **quick, user-friendly programming** of receivers and transmitters;
- **management** and printout **of code list**;
- creation of individual **installation databases** (useful in multi-user systems).

Optimal autonomy and low consumption.

Elegant and convenient: the Era FloR transmitter can be used as a stylish, high-tech keyring or fixed to the wall or your car's dashboard with the handy support included in the pack.

Total compatibility: with previous Flor series receivers (universal, universal modular and with Nice or SM connector) and with the One receivers (OXI/OXIT, OX2/OX2T and OX4T).

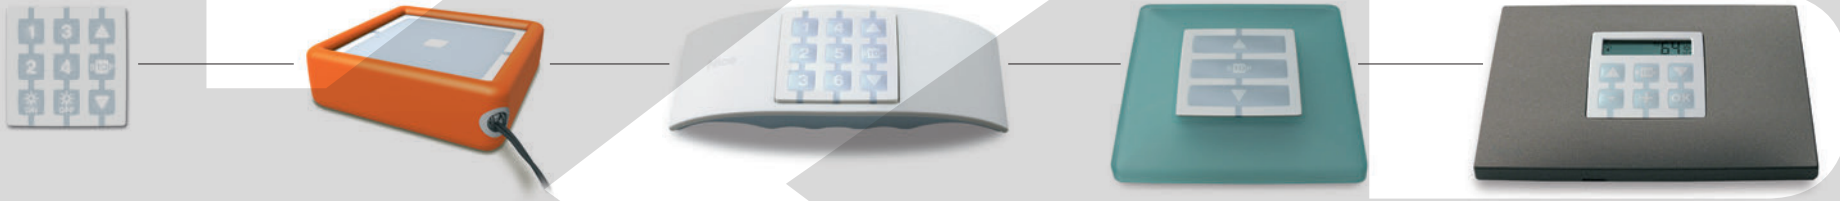
NiceWay

Modular control system to manage the range of Nice automations from any point within the home



The transmitter module

GO
The module holder cover

Ondo
Wall or table shockproof holder

Opla
Squared wall plate

Opla
Rectangular wall plate

The heart of the NiceWay system

The 1, 3, 6 and 9-channel modules for the control of single automations, groups or multi-groups: awnings, roller shutters, rolling doors, gates, industrial and garage doors, barrier gate operators, lighting and irrigation systems.

Modular: The NiceWay system is based on a number of transmitter modules that can be placed in four different holder models to create a flexible range of made-to-measure solutions.

Although the modules, available from 1 to 80 groups or 240 channels, are very small in size, they are extremely easy to operate.

Advanced and compatible: Frequency of 433.92 MHz, 52 Bit Rolling Code with (over 4.5 million of billion combinations); self-learning function.

Compatible with the 433.92 MHz Nice Ergo, Plano, FloR and VeryVR systems (Flo and Smilo with WM240C and WM080G).

Estimated range: 200 m in a free field, 35 m indoors.

Extended battery life (3 V lithium battery).

All the NiceWay solutions: The 240 channel module with display, which controls 80 groups and 70 multi-groups, is ideal for the management of sophisticated systems.

All the awnings, roller shutters and gates, as well as the office, home and hotel irrigation and lighting systems in just 14 g and 16 cm^2.

Made-to-measure: To protect the electronic parts from dirt and damp, the rubber function buttons are incorporated in the actual body of the control modules. NiceWay can be used anywhere in the home, in the garage, the living room, the kitchen as well as the bathroom.

Professional: For a more professional and practical use, the system can be programmed by means of the handy Nice palmtops.

TECHNICAL SPECIFICATIONS

Nice

Receivers

Era Inti, One, Flor, NiceWay

The complete line of receivers with Opera system functions, suitable for all installation requirements:

- **with connector**, compatible with latest-generation Nice control units with SM port;
- **universal prewired**, for use with all types of control unit, for the control of any automation, lighting or irrigation system or other electric circuits.

Maximum flexibility: up to 1024 transmitters can be memorised.

Convenient and practical: the inclusion of a transmitter in the OXIT/OXITFM, OX2T/OX2TFM and OX4T receivers allows radio codes to be accessed by means of the O-Box multifunction interface even when in inaccessible positions.

OXIT/OXITFM, OX2T/OX2TFM and OX4T receivers can be used as signal repeaters to increase the operating distance between transmitters and other One series receivers.

Secure use, thanks to the 3 password-protected levels.

The O-Box and dedicated software applications for PC and PDA allow:

- **quick, user-friendly programming** of receivers and transmitters;
- **management** and printout **of code list**;
- creation of individual **installation databases** (useful in multi-user systems).

SM plug-in receiver with Flor system functions, step-by-step and anti-burglar functions.

Management of multi-user system: through the unique, personal code: the recognition receivers can receive and memorise up to 255 codes.

Memorisation: a particular receiver output can be associated to each transmitter key (e.g. key 3 TX= output 1 RX).

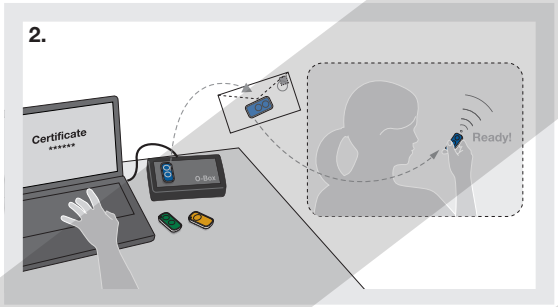
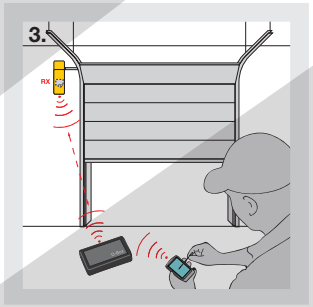
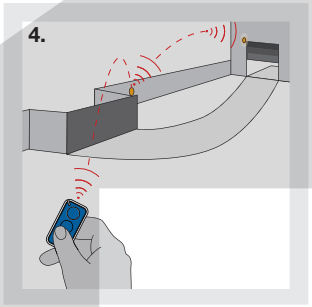
Code exchange between a memorized transmitter and a new one, to be memorized.



Possible memorisation using Nice O-Box and the "Certificate".



The presence of a "transmitter" in the OXIT, OX2T and OX4T receivers allows radio codes to be accessed by means of the O-Box multifunction interface.



OXIT, OX2T and OX4T receivers can be used as signal repeaters.

RECEIVER WITH OPERA SYSTEM - TECHNICAL SPECIFICATIONS

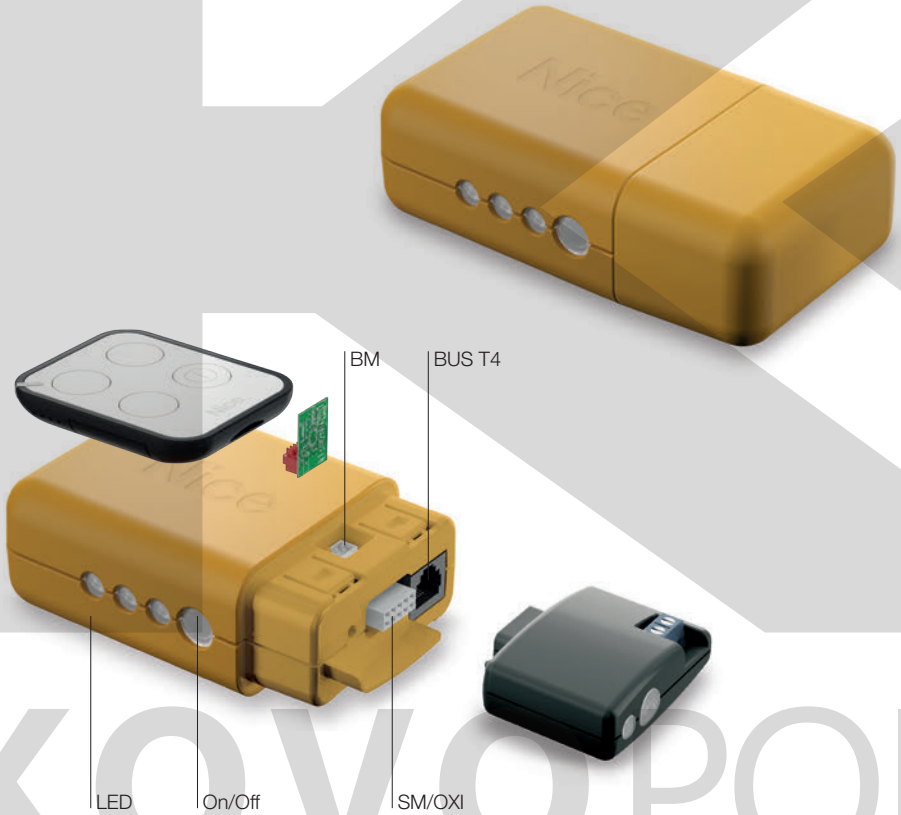
Nice

NEW BiDi

Pro-View

Multi-function interface

Product available from 2020



The new Pro-View interface connects to Nice control units by BUS T4 and enables Nice automation systems to be installed and configured by smartphone via the MyNice Pro App.

Advanced: the interface includes the functions of the traditional O-View and OBox and is also equipped with RFID and NFC readers. Thanks to the Nice bidirectional protocol, the new Nice bidirectional receivers and transmitters can be accessed and programmed.

By connecting the interface to the automation control unit, professionals can configure the device directly from their smartphone via the MyNice Pro App.

Pro-View is conceived to give professionals a new generation tool to make their work easier and facilitate installation. The numerous functions simplify the installer's work.

Advantageous: via the MyNice Pro App and the Nice Cloud, installers can configure the automation simply and intuitively following the guided programming procedure, control the status of its accessories, create and manage a database of their installations with absolute safety, monitor the status of the systems at all times, manage programming remotely and also provide the customer with remote assistance.

Sturdy: the special protective case is designed to stand up to the stress of a hard day's work.

Handy: compact and battery powered (2 hours autonomy), Pro-View is easy to take with you wherever you go.

Pro-View is compatible with all Nice receivers with SM/OXI and BM connector.

With Pro-View, you can also:

- via radio, programme One series unidirectional and bidirectional transmitters and Inti;
- via radio, manage all functions of One series unidirectional and bidirectional transmitters and Inti with built-in transmitter;
- read and write transponder Badges in the Moon series;
- program receivers in the series Smilo, Bio, FloR and One and memories of the control devices MOMB, MOTB and MORX.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
PROVIEW	Multi-function interface	1

Code	**PROVIEW**
Input	5V microUSB connector
Optional battery power	2x AA NiMh rechargeable
Maximum absorbed power (mW)	1,5
Wi-Fi interface with internal antenna	802.11b/g/n – 2,4 GHz (P<10mW)
Safety	OPEN/WEP/WPA-PSK/WPA2-PS
Interfaces	NFC, RFID (LF), SM, BM, T4
Dual band radio transmission	Dual band bidirectional 433.54 - 433.92 MHz 868,3 - 868,94 MHz (P<10mW)
Protection level (IP)	30
Operating temperature(°C Min/Max)	-20 ÷ +50
Dimensions (mm)	113x64x33
Weight (g)	100

* Transmitter range and receiver reception capacity may be affected by any devices operating on the same frequency in the area and by the position of the system's radio antenna.

NEW BiDi

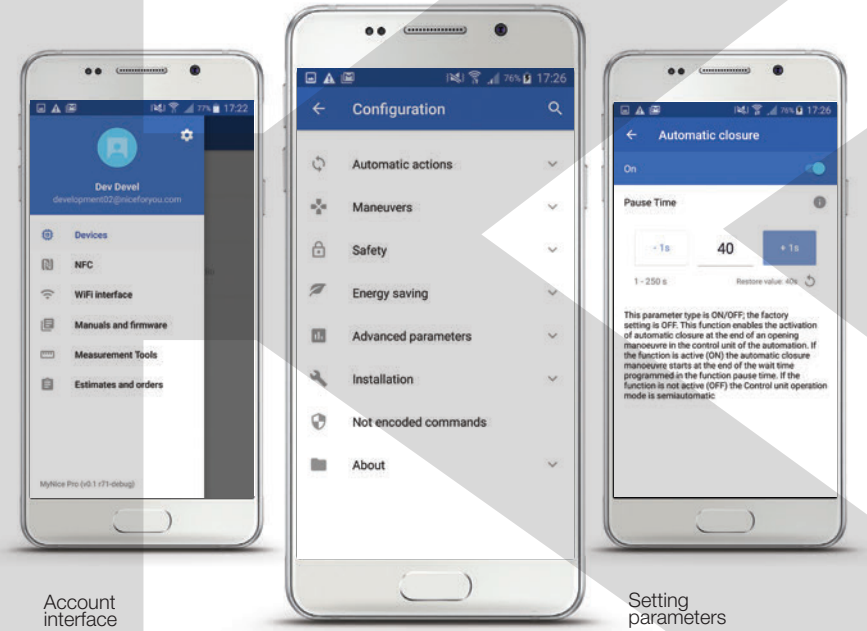
My Nice Pro App

Product available from 2020

The **MyNice Pro** App allows Nice installers to work on automations directly from their smartphone via the **Pro-View** multifunction interface.

A single tool, a great many functions, with the MyNice Pro App you can:

- set up the automation simply and intuitively following the guided programming procedure;
- set and manage all the configuration parameters of the automation systems;
- manage accessories such as transmitters and RFID devices;
- view diagnostics, manage programming remotely and also provide remote assistance;
- save the last backup of the control unit configuration on the Nice Cloud, archive the backup log on your device and call up the saved information whenever you want;
- rapidly access the product documentation or make remote assistance calls, with real time sharing of the screen and camera of the device;
- create, geolocate and manage installation remotely on an intuitive dashboard, include a photograph of the installation;
- automatically recognise the automation system, update the control unit firmware and download the instruction manual;
- draw up precise estimates using a guided tool and save them on the Nice Cloud to have them on hand at all times.



Account interface

Configuration tools

Setting parameters

Nice Cloud

Maximum speed and efficiency in managing the work. Through the Nice Cloud section dedicated to installers, you can:

- view all your installations;
- view all your interventions;
- include photographs of the installation;
- the administrator profile can create further users able to use all the functions, so you can monitor the work of the whole team at all times.

KOVOPOLOTOVARY.CZ

Nice

Opera

Opera Control, advanced management of automation systems also at a distance.

The Opera system enables the installer to manage, program and control automation systems, also remotely, simply and safely, with significant savings in time.

The Opera system comprises transmitters and One series receivers, the O-Box connection interface and the communication software “O-View Software Suite” and “O-Box Software Suite”.

All components communicate via BUS T4 or the O-Code Rolling Code system, making transmissions safer and reducing automation response times.

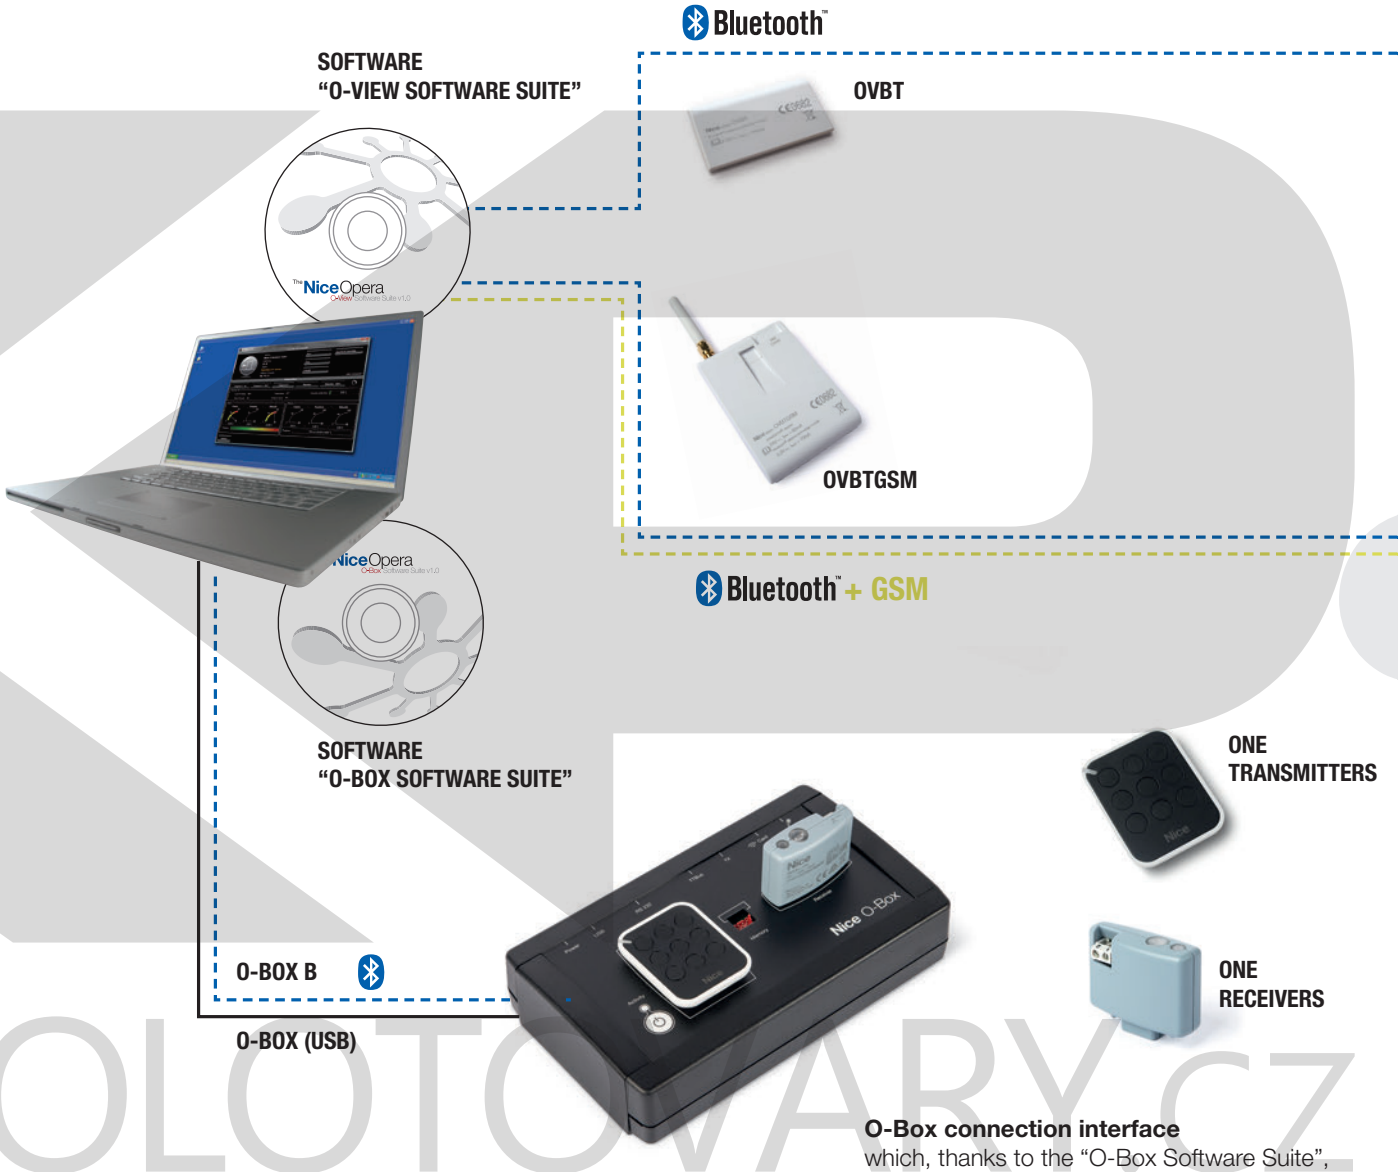
Nice Opera simplifies the installer’s work, making for easier programming, and enabling access to all control panel parameters to adapt the system to all requirements.

No specific procedures needed for each product: single programming mode with intuitive menus, with no need to consult instructions.

Constantly efficient assistance for all customers: simplifies system programming by means of the O-View multifunction display which when connected directly to the control panels compatible with the Opera system via BUS T4, enables full access to the system functions, for practical, rapid and advanced programming.

BUS T4 is the communication protocol that enables you to create extensive networks of compatible automation systems, managing them from a single point via O-View.

Device management can be protected by two password levels. By interfacing the system with the PC, you can control a complex automation system, such as those found in densely frequented buildings (hospitals, hotels, companies, etc.).



O-Box connection interface
which, thanks to the “O-Box Software Suite”, enables the configuration and programming of all Nice control devices, from the PC or PDA.

O-View

Multipurpose control unit

OVBT

OVBTGSM

O-VIEW SOFTWARE SUITE

Unit for control, programming and diagnostics for devices equipped with BUS T4 connection, on site or remotely via GPRS thanks to the connection with your PDA, Smartphone or PC.

Advanced management: O-View connects to the compatible control unit by IBT4N interface and BUS T4 cable (supplied), providing access to all control unit parameters to adapt the system to every need.

By connecting O-View permanently to a control unit or group of control units via BUS T4, a network can be created for local or remote centralised management.

Programmable: thanks to the built-in clock, it is also possible (with integrated backup battery) to program delivery of commands at a set time, for example to automate opening and closing of complex industrial and commercial systems or for the creation of “scenarios”.

A practical wall-mounted support supplied.

Simple programming mode: with intuitive menus valid for each product, with no need to consult the specific instructions.

O-View powers up and automatically recognises all devices on the network as soon as it is connected, displaying only the specific parameters of the device on which to intervene.

In the case of several devices on the network the BUS T4 address is identifiable by means of a text label personalised as required, enabling rapid recognition of the associated device.

Safe: two password- protected levels (for the user and the installer).

Practical: O-View is your portable office, and can be connected just when programming or for maintenance, or can be installed permanently on site to exploit all the benefits of local or remote centralised management.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
OVIEW	Unit for control, programming and diagnostics of devices equipped with BUS T4 connection	1
OVBT	Bluetooth module for O-View and “O-View Software Suite” application for PC, PDA or Smartphone	1
OVBTGSM	GSM module for O-View and “O-View Software Suite” application for PC, PDA or Smartphone	1

Graphic interface	LCD display 128x64 dots (46x29 mm); 2.2”
Operator input device	Joypad with 5 + 2 keys
Display/key lighting	White light
Time and date display	With backup battery (min. lifetime 10 years)

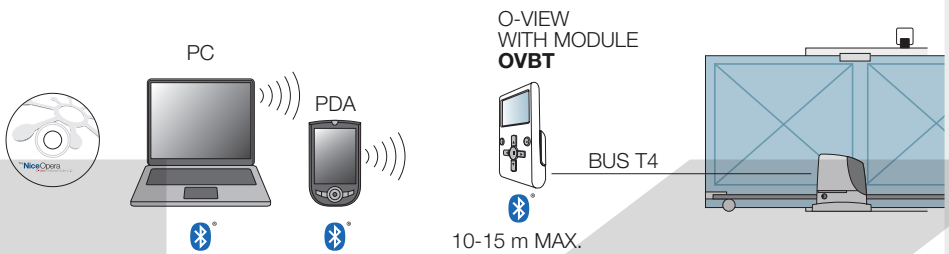
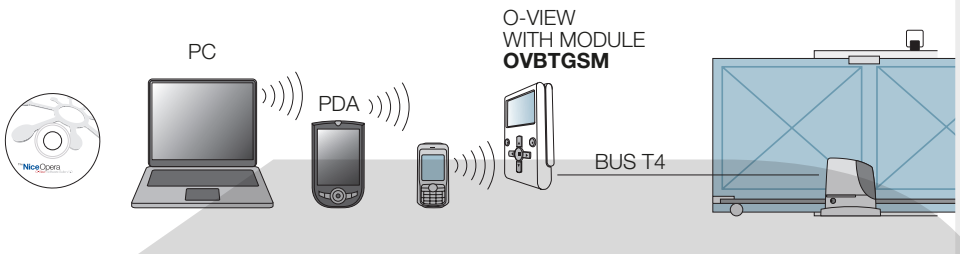
KOVOPOLOTOVARY.CZ





OVBT

Bluetooth connection module for O-View interface.

"O-View Software Suite" enables connection via PC or PDA to O-View in the vicinity of the system, to intervene on the control units on the BUS T4 network.

Maximum connection distance 15 m.

O-VIEW SOFTWARE SUITE

This application, supplied with OVBT and OVBTGSM, as well as expanding the functions of O-View enables the creation of a database of installations with personal data of clients and configurations of each system, even on more complex versions.

By connecting to the site www.niceforyou.com users can download the constantly updated firmware and software versions.

The interface of "O-View Software Suite" has been specially designed to enable rapid access to all parameters of the connected devices without the need for physical access, as well as quick diagnostics of malfunctions by consulting the event log, all the most practical and intuitive way possible.

The O-View control function has been expanded: in just one PC screen, all applications connected via BUS T4 can be controlled.

Minimum requirements

O-View Desktop version for PC:

- Processor: type AMD®/Intel® (500 MHz) - Recommended by Nice: type AMD®/Intel® (1 GHz)
- RAM: 128 MB - Recommended by Nice: 256 MB
- Free space on disk: 280 MB - Recommended by Nice: 512 MB
- Operating system: Operating system: Windows® 98 SE or later - Recommended by Nice: Windows® 2000 or later up to Win 7
- Connection: Bluetooth®
- Graphics resolution: 800 x 600, 256 colours
- Disk drive: CD-Rom (required for installation).

NOTE Software installation includes installation of the Microsoft®.NET Framework Redistributable 2.0 programme.

OVBTGSM

In addition to the benefits of the OVBT module, the automation or network of automations can now be **controlled via GSM** by connecting O-View to the system via BUS T4.

A GPRS connection also enables connection via the Internet to O-View to obtain all management functions offered by the software from any location with no need for presence on site.

The user can remotely control the automation via GSM, from any of the enabled numbers, and check status, such as opening a gate by means of a phone call or by sending 4 different controls via SMS text message, with the security offered by entry of a unique password.

INB, the Nice control interface that enables communication between the systems Nice Bus (TTBus and BusT4) and MyHome of BTicino (SCS).

KOVO POLOTOVARY.CZ

O-Box

Connection interface

O-Box is the multi-function interface which, thanks to the dedicated software "O-Box Software Suite", enables the configuration and programming directly from the PC or PDA, practically and intuitively, all transmitters, receivers and other Nice control devices.

O-Box interfaces with your PC or PDA palmtop, performing the control, entry, deletion, enabling or disabling of codes, programming of the memory, functions and typical parameters of the receivers, transmitters and other Nice control devices.

Universal: O-Box manages all programming procedures possible by means of BUPC.

It also enables import of databases previously created using the software for BUPC.

The convenience of remote control: O-Box enables a number of tasks to be performed directly from the office, without the need to visit the client's system.

For example the operator can program the functions and parameters of transmitters with the utmost of ease, and send them already configured and operative to the clients.

It is also possible to:

- program transmitters in the One series via radio;
- manage all functions via radio of the receivers in the One series fitted with built-in transmitter;
- read and write transponder Badges in the Moon series;
- receive data via radio from transmitters in the series Smilo, VeryVE, Flo, VeryVR, FloR, One, Niceway or via optical reader for transmitters in the Bio series;
- program receivers in the series Smilo, Bio, FloR and One and memories of the control devices MOMB, MOTB and MORX;
- create and manage an updated database with personal data of clients and configurations of the receivers installed in the respective systems.

The software "O-Box Software Suite" can be installed quickly and easily either on PC (O-Box Desktop version) or on PDA palmtop (O-Box Mobile version).

Minimum requirements

O-Box Desktop version for PC:

- Processor: type AMD®/Intel® (500 MHz) - Recommended by Nice: type AMD®/Intel® (1 GHz)
- RAM: 128 MB - Recommended by Nice: 256 MB
- Free space on disk: 280 MB - Recommended by Nice: 512 MB

KEYPOLICE.CZ

OX4T

Universal 4-channel receiver in the One series, with built-in transmitter

For remote control of any automation on gates, garage doors, road barriers, shutters, awnings, venetian blinds, irrigation and lighting systems or other electrical circuits.

Equipped with BUS T4 connector for connection to O-View.

An extended system: OX4T manages 4 outputs controlled by 4 relays, usable as power relays or voltage-free contacts, to extend use of the Opera system also to devices with specific provisions.

Thanks to the internal transmitter, OX4T can be used as a repeater, thereby increasing the operating range between transmitters and other receivers in the One series.

Practical and functional: OX4T can be connected via radio to the interface O-Box and via BUS T4 to the multifunction display O-View, to enable programming, diagnostics, timed functions and management of codes, also remotely by means of the modules OVBT and OVBTGSM.

2 programming modes: "Mode I" and the new "extended Mode II" which enables expansion of the number of controls to up to 14.

Multicode: OX4T is also compatible with the transmitters with encoding system O-code, Smilo, Flo, FloR, FloR and TTS.

OX4T is fitted with a generously sized memory to enable storage of up to 1024 transmitters, with the option for password protection.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
OX4T	Universal 4-channel receiver in the One series, with built-in transmitter	1

Power supply (Vac 50/60 Hz)	110 ÷ 240
Maximum absorbed current (mA)	80
Encoding	O-Code / TTS / FloR (Rolling Code); or Smilo (Rolling Code) or Flo
Frequency (MHz)	433,92
Antenna impedance (Ohm)	More than 0.5 for successful signal
Estimated range (m)	200 m in a free field, 35 m indoors
Radiated power (Dbm)	+2
Max. capacity of transmitter memory	1024 (maximum)
Outputs	4 relays with NO and NC contacts, voltage-free
Contact capacity	5 A - 250 V
Timer times	Programmable from 2 seconds to 540 minutes
Protection level (IP)	44 (with container intact)
Working temp. (°C Min/Max)	From -20° to +55°

Tag system

The ideal solution for refurbishment projects

Nice Tag system, the simpler solution: miniaturised control units and universal concealed transmitters for practical radio management of rolling shutters, awnings, blinds, lighting and electrical loads up to 500 W not reachable directly by cable.

Ideal for renovations and upgrades to existing systems, the units can be installed inside commonly available wall plates and in tight spaces.

No need to replace the existing automation installation or to carry out building work.

KOVOPOLOTOVARY.CZ

SYSTEM ADVANTAGES:

Easy to install and programme

No building work, no wired connections and no need to plan the electronic wiring.

Intuitive programming using the programming button and LED on the miniaturised control units.

Savings in time and costs.

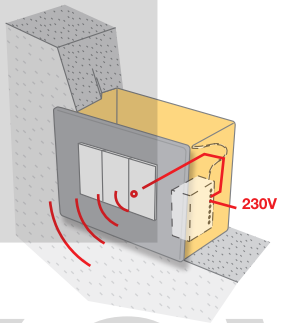
Perfect for every need

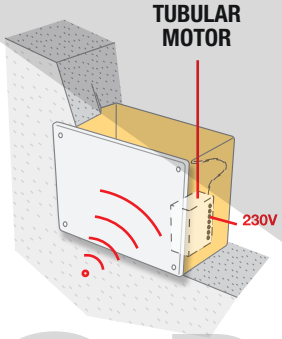
Simple individual or centralised automation management.

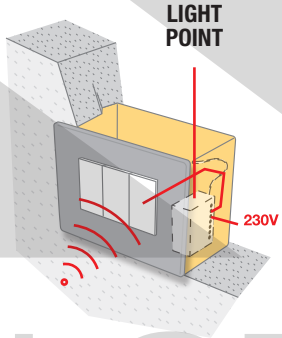
Possibility to comfortably control the entire system using portable or mains powered wall-mounted transmitters.

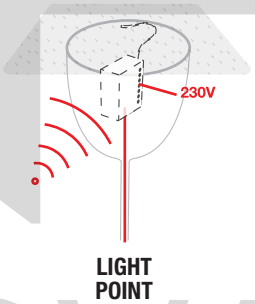
An additional control point can be created by connecting the miniaturised control unit via cable to the existing wall switch.

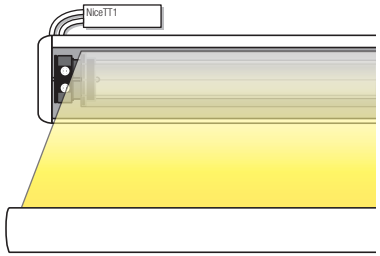
DISCOVER THE OTHER COMPONENTS IN THE SYSTEM:











1

Recessed transmitters, **model TTX4** with mains power supply, and **TTXB4**, battery-powered.

Ideal for controlling automations not reachable directly by wire.

2

TT2N, radio receiver and control unit to control one 230 Vac motors up to 500 W.

TT2Z, radio receiver and control unit for dry contact controlled motors, tubular motors with 4-wire power cable and lights.

3

TT2L radio receiver and control unit for lighting systems.

TT2D radio receiver and control unit to control lighting installations from a number of points, with built-in switching module.

4

Built-in TTDMS radio receiver for electrical loads up to 250 W, on/off and dimmer functions.

5

Mindy TT1 miniaturised radio receivers and control units for sun awnings, outdoor Venetian blinds, rolling shutters and lighting and irrigation systems.

IP protection class more than 50.

KOVOPOLOTOVARY.CZ

Nice

TTX4 / TTXB4

Recessed transmitters to control automations

Recessed transmitters ideal for controlling automations not reachable directly by cable.

433.92 MHz frequency, with 52 bit rolling code (more than 4.5 million billion combinations).

TTX4, with mains power supply and TTXB4, powered by long life battery.

Possibility of connecting up to 4 pushbuttons (optional) for wired control of the automations.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
TTX4	Recessed transmitter powered by mains electricity, 4 channels	1
TTXB4	Recessed transmitter, battery-powered, 4 channels	1

Code	**TTX4**	**TTXB4**
Power supply	120 or 230 Vac, 50/60 Hz; (limits 100 - 255 V)	3 Vdc; type CR2032 lithium battery
Carrier frequency	433.92 MHz ± 100 KHz	
Estimated range	35 m indoors	
Encoding	Digital 52 bit (4.5 million billion combinations)	
Protection level (IP)	20	
Working temp. (°C Min/Max)	-20° ÷ +55°	
Dimensions (mm)	18x33x40 h

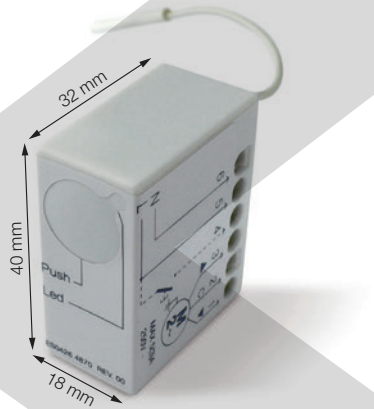
Nice

TT2N

Radio receiver and recessed control unit to control one 230 Vac motor



Recessed miniaturised radio receiver and control unit for controlling one 230 Vac motor, up to 500 W.

Protection class IP20.

Quick easy programming: thanks to the dedicated pushbutton.

An **LED indicator** helps the user follow the correct programming procedure, for example indicating when the set thresholds of the climatic sensor are exceeded.

Possibility of memorising up to 30 transmitters

- in Mode I: Up - Stop - Down - Man present down
- in Mode II: Step-by-Step - Up stop - Down stop - Stop - Man present down - Man present up.

Possibility of connecting a pushbutton for wired control with Step-by-Step - Always up - Always down mode.

Can be connected to Nemo and Volo S-Radio climatic sensors.

TECHNICAL SPECIFICATIONS

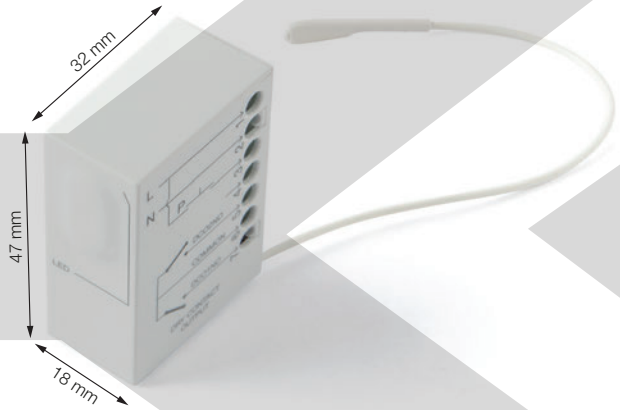
Range transmitters and climatic sensors	Estimated 150 m in open space, 20 m indoors

KOVOPOLOTOVARY.CZ

Nice

TT2Z

Radio receiver and recessed control unit to control motors and lights



Miniaturised radio receiver and recessed control unit to manage awnings, blinds, rolling shutters and other electrical loads via potential free output.

With Nice transmitters, the TT2Z lets you manage:

- **dry contact controlled motors**;
- **tubular motors with 4-wire power cable and absorption of less than 1A**;
- **two independent switches, for example, to control two lights**.

Possibility of memorising up to 30 Nice transmitters, including three climatic sensors.

If the transmitter has a slider, this can be used to control manoeuvres in “man present” mode.

Personalisation: The desired motor manoeuvre time can be set from a minimum of 10 seconds to a maximum of 4 minutes.

The stop command can be set in three different modes, thanks to the configurable dry contact.

Comfort: Three standard configurations for managing the climatic sensors: for indoor blackout screens, for rolling shutters and for outdoor awnings or blinds.

Sensor management is customisable.

Safety: When active, the Memory Locking function prevents memorising of further transmitters.

Easy quick programming: thanks to the PRG and ESC keys on Era P and Era W series transmitters. The **LED indicator** helps the user follow the correct programming procedure.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
TT2Z	Radio receiver and control unit for dry contact controlled motors, four-wire motors and lights	1

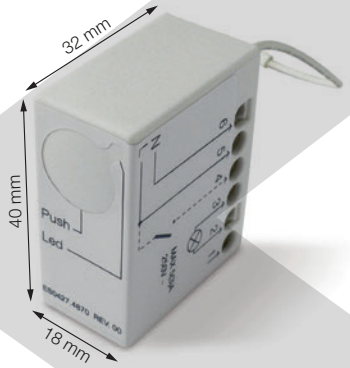
Nice

TT2L / TT2D

Radio receiver and recessed control units to control lighting systems



Miniaturised recessed radio receivers and control units compatible with Nice transmitters in the Era and NiceWay series.

To control loads at 230 Vac mains voltage with power up to 1000W / 500 VA.

Protection class IP 20

Quick easy programming: thanks to the dedicated pushbutton.

An **LED indicator** helps the user follow the correct programming procedure, for example indicating when the set thresholds of the climatic sensor are exceeded.

Possibility of memorising up to 30 transmitters

- in Mode I: On - Off
- in Mode II: ON/OFF - Hold to run - Timer1 - Timer2.

Connection to the Volo S-Radio climatic sensor enables lights to be turned on and off by means of the "Sun" sensor.

Timer programmable from a minimum of 0.5" to a maximum of about 9 hours; optimised programming procedure, maintenance of set values even during power failure.

Possibility of connecting a switch for wired control in ON/OFF mode.

TT2L, radio receiver and control unit for lighting systems.

Simplified electrical connection: thanks to the switch connected directly to the power supply.

TT2D, radio receiver and control unit to control lighting installations from a number of points, with built-in switching module.

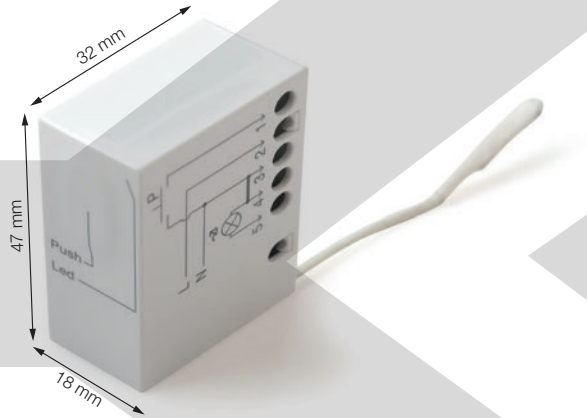
Manoeuvre duration (sec)	1 s - 9 h (default TIMER1= 1 min, TIMER2= 10 min)	
Levels Sun sensor (KLux)	5, 10, 15, 30, 45 Volo S-Radio	
Programmable functions (Mode I)	On - Off	
Programmable functions (Mode II)	On - Off - Man present - Timer1 - Timer2	
Operating temperature (°C Min/Max)	-20 ÷ +55	
Dimensions (mm)	40x18x32	
Weight (g)	20	
Frequency (MHz)	433,92	
Radio compatibility with	Era, NiceWay	
Range transmitters and climatic sensors	Estimated 150 m in open space, 20 m indoors	

KOVOPOLOTOVARY.CZ

Nice

TTDMS

Recessed control unit with radio receiver and dimmer



Mains electricity powered lamp dimmer with built-in radio receiver.

For electrical loads up to 250 W.

Possibility of memorising up to 30 transmitters

- in Mode I: Dimmer Up - Toggle - Dimmer Down
- in Mode II: Personalised programming

An external pushbutton can be connected to turn the lamp on and off and adjust light intensity.

Quick easy programming: thanks to the dedicated pushbutton.

An **LED indicator** helps the user follow the correct programming procedure, for example indicating when the set thresholds of the climatic sensor are exceeded.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
TTDMS	Recessed control unit with built-in radio receiver for electrical loads up to 250 W, on/off and dimmer functions	1

Code	**TTDMS**
Power supply (Vac/Hz)	230 Vac, ±10% 50 Hz
Maximum power of controlled load	250 W / 200 VA
Type of light source (with 230 Vac input power ±1S0%, 50 Hz)	Incandescent, halogen; adjustable: LED and neon
Maximum absorption (excluding absorption of controlled load)	< 500 mW in standby
Protection level (IP)	20
Operating temperature (°C Min/Max)	-20 ÷ +55
Dimensions (mm)	47x18x32
Weight (g)	30

KOVO POLOTOVARY.CZ

Nice

TT1N / TT1V / TT1L

Radio receivers and control units with passthrough installation

Mindy TT1 miniaturised radio
Mindy TT1 miniaturised radio with passthrough installation.

Protection class IP 55.

Built-in 433.92 MHz radio receiver with more than 4.5 million billion combinations.

Self-learning of Era and NiceWay series transmitters and NiceWay Sensor, Nemo, Nemo Vibe, and Volo S-Radio climatic sensors.

Possibility of memorising up to 30 transmitters.

With internal terminal board.

TT1N for awnings and rolling shutters

For motors up to 500 W.

Manages Nemo and Volo S-Radio Manages Nemo and Volo S-Radio commands.

- Mode I: Up - Stop - Down;
- Mode II: Step-by-step - Up only - Down only - Stop.

Manages Nemo and Volo S-Radio Manages Nemo and Volo S-Radio commands.

Operating time can be programmed from a minimum of 4 seconds to a maximum of 4 minutes.

TT1V for Venetian blinds

Pressing and holding the transmitter for less than 2 seconds activates the motor for the duration of the command only, adjusting the slant of the Venetian blind.

Pressing for more than two seconds activates the full opening/closing manoeuvre.

Maximum flexibility in controlling the motor with 2 transmitter memorisation modes:

- Mode I: Up - Stop - Down;
- Mode II: Step-by-step - Up only - Down only - Stop.

Manages Nemo and Volo S-Radio Manages Nemo and Volo S-Radio commands.

Operating time can be programmed from a minimum of 4 seconds to a maximum of 4 minutes.

TT1L for lighting and irrigation systems

To control loads at 230 Vac voltage with power up to 500 W.

Controls a max. of 2 timers for automatic turn-off.

Maximum control flexibility with 2 transmitter memorisation modes:

- Mode I: On - Off with separate keys;
- Mode II: On - Off - Man Present - Timer.

Timer can be programmed from a minimum of 0.5” to a maximum of about 9 hours.

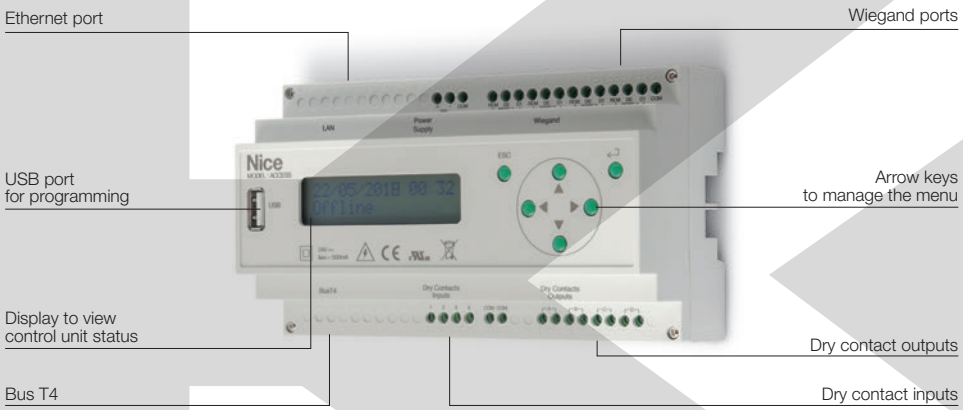
NEW

Nice Pass

DIN module for access control



DIN module for access control with BusT4 output, 4 Wiegand ports, 4 dry contact inputs used as input contacts and 4 used as output contacts, ethernet port.

Nice Pass is the access control conceived for buildings with multiple entrances, such as blocks of flats, commercial areas and public spaces.

With Nice Pass, at any moment the administrator user can view who is in the building, the date and time of each entry or exit, confirmed and denied accesses and the status of each associated automation. If necessary, the system administrator can also block one or more users, preventing them from entering the building or area.

The system is supplied with **default settings, so can be used immediately if a standard configuration is adopted**. It can also be programmed if necessary.

Advanced programming The system can be programmed using any web browser (Chrome, Explorer, Firefox, etc.). Products with different technologies can be connected, such as RFID, 433/868 MHz radio, potential free contact inputs and BusT4. The BusT4 output allows numerous Nice automations to be managed, while the Wiegand ports enable third-party devices to be connected. Up to 2000 radio channels can be memorised.

Advanced management Accessing the web area enables definition of areas, buildings and apartments, establishment of user access constraints and authorisations and definition of the access points and devices to be used. It also provides useful information, such as active and non-active users and those present on-site, number of accesses, accesses allowed/not allowed, details of the users who have had access to the controlled area, access date and time and access point used.

ETWI
Interface with Wiegand 26303437 protocol for use with a radio control device with Nice Pass.

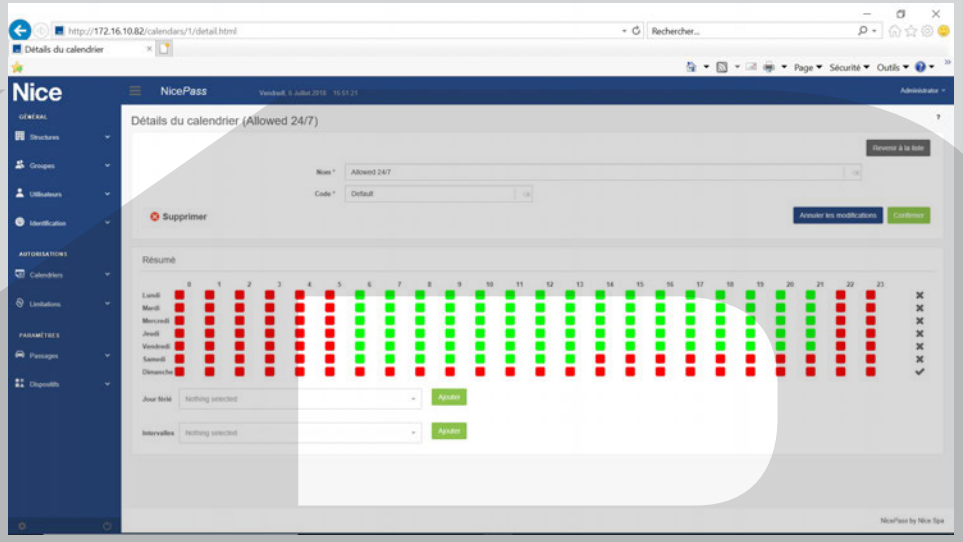
Pc./Pack 1

KOVOKLOTOVARY.CZ

Simple management via web

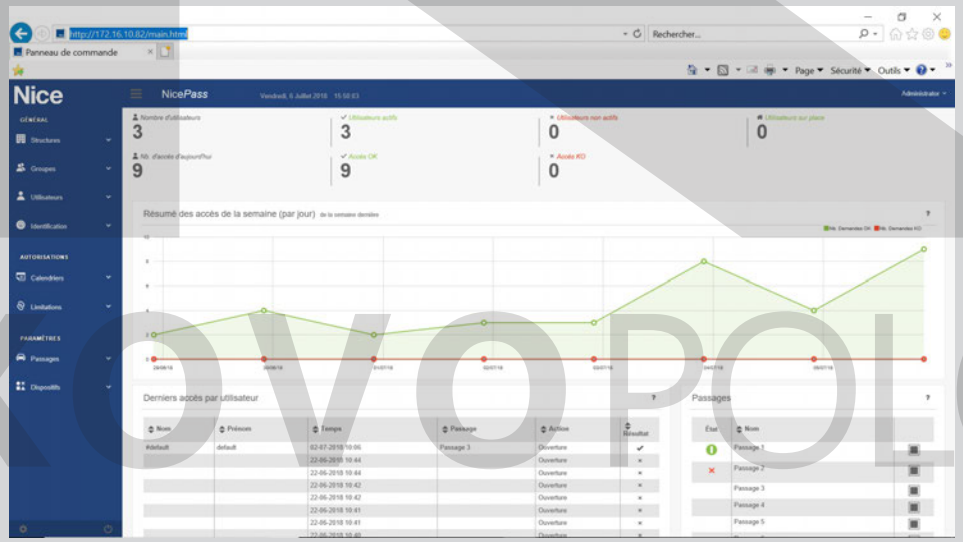
The complete and intuitive Nice Pass user interface integrates a web platform the administrator can access easily from a PC or other mobile device, both locally and remotely.

The platform displays detailed information on accesses, users and associated automations. The administrator can also modify system settings at any moment.



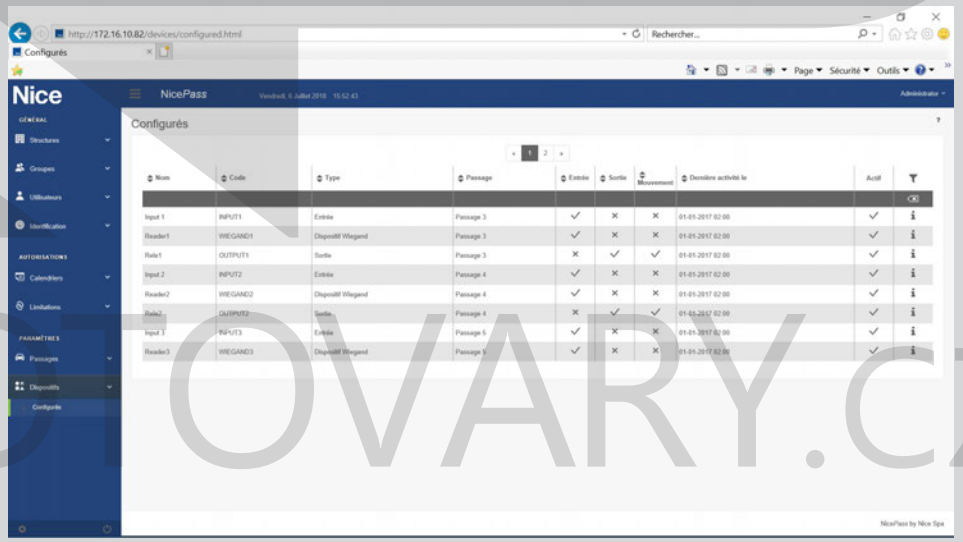
2. Calendar management enables access to be restricted at individual user or user group level according to a predefined calendar.

For example, the administrator can prevent the access of a group of users during weekends and holidays, or create ad hoc calendars.



1. The main dashboard displayed on the home page provides the administrator with statistics on the number of users and number of accesses taking place in a given period of time.

The system also provides information on users and respective access times.



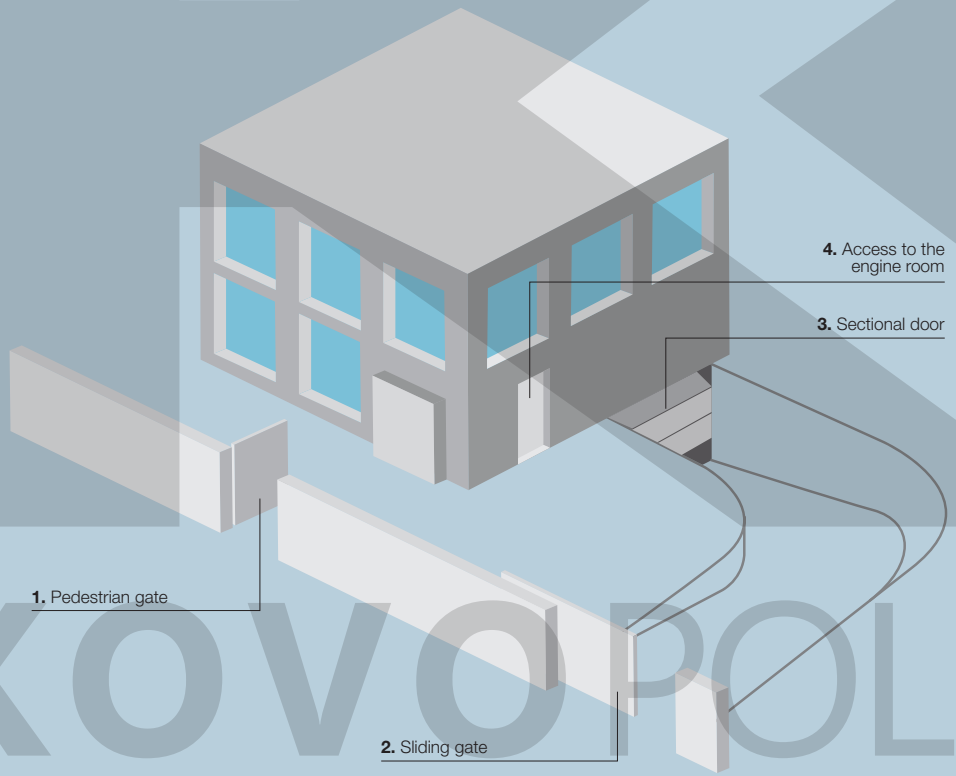
3. The administrator can configure the system architecture completely, by simply selecting inputs and outputs, combining devices and creating areas.

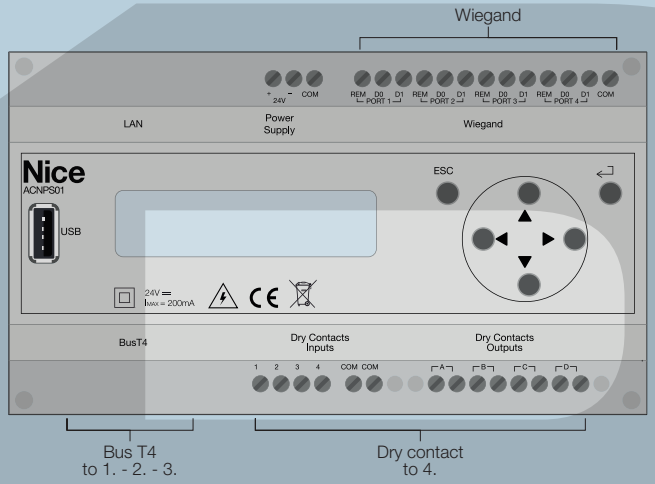
KOVOPLOTOVARY.CZ

Nice Pass, residential example

Access and remote control management in blocks of flats, a typical situation with a number of automations and a considerable number of people with access to communal and private areas according to their profile.

Efficient management NicePass enables administrators of a block of flats or concierges to manage accesses easily and directly: They can easily grant or revoke access for one or more users and the associated control devices, or group them as residents, maintenance staff and guests according to their profile. Area or time restrictions can be created for each of the different group levels.





EXAMPLE OF USER MANAGEMENT

GROUP	USER	1. PEDESTRIAN GATE	2. SLIDING GATE	3. GARAGE DOOR	4. PLANT ROOM
MAINTENANCE OPERATIVES	Gardeners	Weekdays 09:00 - 13:00		-	
	Plumber	07:00 - 23:00	-		07:00 - 23:00
	Electrician	07:00 - 23:00	-		07:00 - 23:00
RESIDENTS	Flat 1	24/7			
	Flat 2	24/7			
	Flat 3	24/7			
	Flat 4	24/7			

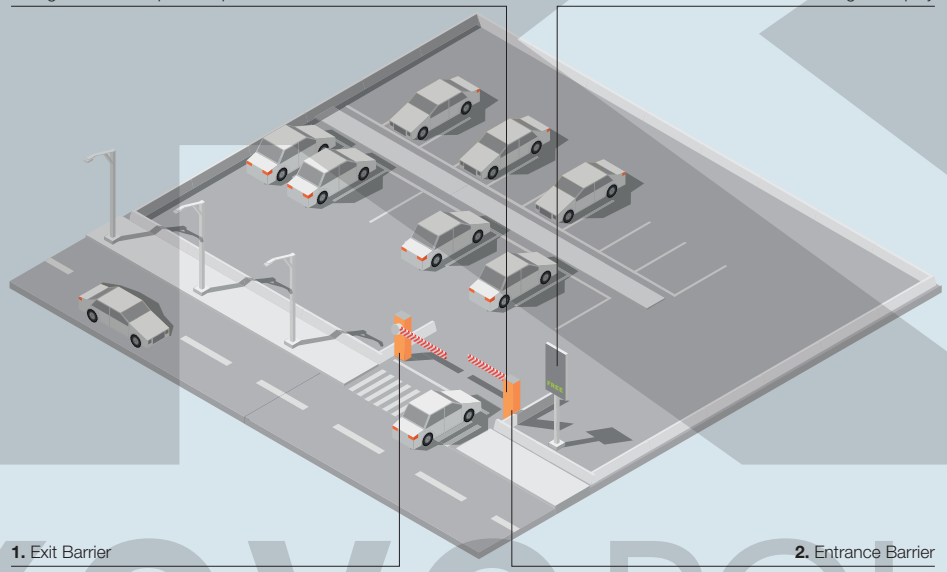
Example of applications in a residential context.

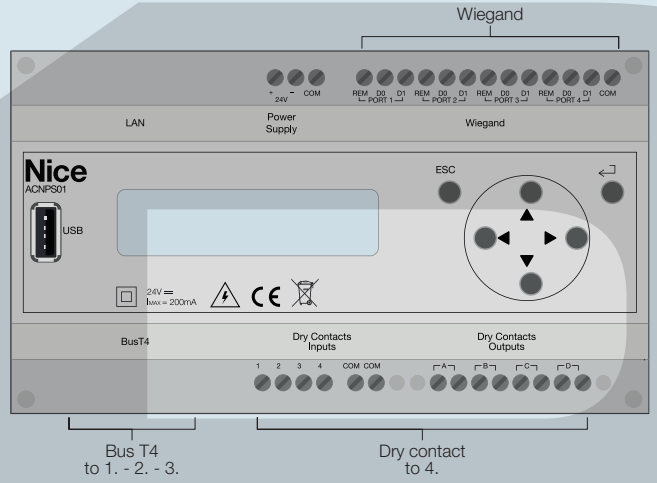
KOVOPOLOTOVARY.CZ

Nice Pass, car park example

Management of the automations delimiting a car park and the devices controlling access to a private or company car park.

NicePass enables the administrator user to restrict access to a car park to enabled users only, according to the access criteria defined at user or group level. The date and time of each entrance or exit is recorded.





EXAMPLE OF USER MANAGEMENT

GROUP	USER	ACCESS TO CAR PARK
EMPLOYEES	Morning shift	05:00 - 15:00
	Afternoon shift	13:00 - 23:00
	Night shift	21:00 - 07:00
Security personnel	Surveillance	24/7

Example of applications in a commercial context.

Nice Era photocells, selectors & proximity reader

The Nice generation of optical devices for automation safety, available with Nice BlueBUS technology for a simplified installation

Three different sizes of photocells synchronized to meet any need and complete the safety and comfort of every automation system, also in the tightest spaces, perfect for use with renovations to cover annoying existing set-ups.

> SLIM

With only 30 mm width, also in burglar-proof version, ideal for tight spaces.

> MEDIUM

In anti-intrusion, reflective, wireless and positionable versions, ideal for the most common systems.

> LARGE

Positionable, also in versions for recessed mounting with 9 mm projection, ideal for concealed installations.

KOVOPOLOTOVARY.CZ

> ERA KEYPAD

Extremely strong metal body, 27 millimetres depth and only 13 mm from the wall for the recessed mounting version.

DIGITAL SELECTOR WIRELESS (EDSWG)

Digital selector in burglar-resistant version 13 keys.

DIGITAL SELECTORS (EDS)

Digital selector in burglar-resistant version for outdoor and recessed installation.

> ERA KEY

Wafer thin, only 13 millimetres depth from the wall in the recessed versions.

KEY SELECTORS WITH EUROPEAN CYLINDER (EKSU)

Key selectors in version for outdoor or recessed mounting.

KEY SELECTORS WITH STANDARD CYLINDER (EKS)

Key selectors in version for outdoor or recessed mounting.

> ERA TRANSPONDER READER

Transponder proximity reader for cards and badges with customized programming.

PROXIMITY READERS (ETP)

Proximity readers for card and badge reading.

Transponder BADGE

Convenient transponder badge with a practical through hole to add the key chain on.

KOVOPOLOTOVARY.CZ

Nice

Era Photocell S

Fixed, synchronized photocells Slim, also with Nice BlueBUS technology

Safe: D type device according to specification EN12453 which allows to pick-up obstacles on the optical axis between transmitter (TX) and receiver (RX).

Using the fototest function it is possible to achieve class 2 safety fault according to specification EN 954-1.

Antiglare circuit which eliminates possible sunlight interference.

Practical: 8° angle of reception.

Resistant and vandal-proof: ABS body resistant to weather conditions, available also in burglar-resistant version with metal shell.

Nice BlueBUS technology: available with the Blue-BUS system, which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and selecting the jumpers for addressing according to the needed function. The system acquires automatically the devices connected to the BlueBus network.

Automatic synchronization between multiple photocell pairs in order to avoid other possible interferences between the devices.

IB interface: allows the connection of proximity readers with Nice BlueBUS technology to control units having terminals for traditional contacts.

BLUEBUS

Era Photocell M

Synchronized photocells Medium, fixed or positionable, also with Nice BlueBUS technology

Available in anti-intrusion, reflective and wireless versions.

Safe: D type device according to specification EN12453 which allows to pick-up obstacles on the optical axis between transmitter (TX) and receiver (RX).

Using the fototest function it is possible to achieve class 2 safety fault according to specification EN 954-1.

Antiglare circuit which eliminates possible sunlight interference.

Fast easy installation: the wireless technology (EPMOW) eliminates the need to wire the photocells to the control unit and provide routing and cable ducts. The devices interface with the control unit through an ultra-compact dedicated module (IBW) which can be housed directly in the motor or the control unit if separate. Up to 7 devices with Nice BlueBUS technology can be connected to the same IBW interface.

Thanks to the reflective technology (EPMOR), just the main photocell needs to be wired and not the reflective mirror, saving time.

Built in LED light in the EPMOR version: the optional ELMM LED light module can be installed in the EPMOR photocell to light the transit area, act as a flashing light or provide diagnostic information.

Universal system: EPMOR has a relay output for connection to any new or existing automation system.

Simplified maintenance: EPMOW photocells have a diagnostic LED which indicates possible anomalies and battery status, facilitating installation and maintenance.

Practical: 10° angle of reception. The positionable versions allow for the compensation of centering gaps up to 30°.

Resistant and vandal-proof: ABS body resistant to weather conditions, available also in burglar-resistant version with metal shell.

Nice BlueBUS technology: available with the BlueBUS system, which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and selecting the jumpers for addressing according to the needed function. The system acquires automatically the devices connected to the BlueBus network.

Automatic synchronization between multiple photocell pairs in order to avoid other possible interferences between the devices.

BLUEBUS

Era Photocell L

Synchronized photocells Large, fixed or positionable, also with Nice BlueBUS technology, both surface mounted and recessed

Easy and versatile: recessed versions EPLIO compatible with the most popular standards on the market to replace the old photocells or cover annoying existing setups without the need of extra adaptors.

Safe: D type device according to specification EN12453 which allows to pick-up obstacles on the optical axis between transmitter (TX) and receiver (RX).

Using the fototest function it is possible to achieve class 2 safety fault according to specification EN 954-1.

The models EPL, EPLO, EPLIO provide for 2 range levels.

Antiglare circuit which eliminates possible sunlight interference.

The positionable versions allow for the compensation of centering gaps up to 30°.

Discreet: polycarbonate body, extremely strong with minimal projection of 9 millimetres from the wall for the recessed mounting version.

Pratical: adapter bowl EKA03 to simplify useful preparations for recessed mounting.

Nice BlueBUS technology: all versions with the BlueBUS system allow an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and selecting the jumpers for addressing according to the needed function.

The system automatically acquires the devices connected to the BlueBus network and allows automatic synchronization with multiple photocells in order to avoid other possible interferences.

IB interface: allows the connection of photocells with Nice BlueBUS technology to control units having terminals for traditional contacts.

Nice

Era Keypad

12 key digital selector, also with Nice BlueBUS technology, available in the recessed mounting version

EDS
EDSB

EDSI
EDSIB

Wafer-thin: extremely strong metal body, 27 millimetres depth and only 13 mm from the wall for the recessed mounting version.

Safe: the combination is a 1 to 9 digit number, this allows the generation of 999,999,999 possible combinations!

Backlit keypad.

Easy programming:

- 2 programming modes: Easy or Professional;
- possibility to program the number of uses of a specific combination;
- 255 storable combinations expandable, on EDS and EDSI up to 510 combinations with a second additional memory BM1000.

With a O-Box interface you can manage easily any kind of programming of the BM1000 memory, in proximity of the system or also at a distance, directly from the office of the installer.

O-Box is interfaced with the PC, thus allowing an orderly storing of all installations.

Nice BlueBUS technology: vailable with BlueBUS system which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and other exclusive functions:

- 2 keys for the activation of two different commands chosen among 6 available ones (for example, step operation, close, open), depending on the control unit to which they are connected to;
- up to 4 control devices EDSB/EDSIB and ETPB which can be connected also with a mixed configuration;
- possibility of insertion of a block/unblock function.

Two different visual signalling depending on the state of automation:

- red: when the automation is closed or is closing;
- green: during opening operation or in the case in which the “automation block” function is active.

Nice

Era Keypad wireless

13 key digital selectors, with radio connection, 100% wireless

Digital radio selector with FloR 52 bit coding: is compatible with FloR with rolling code and generates 4.5 trillions of combinations, self-learning.

Complete: 3 transmission channels to control 3 automated systems or 3 different customized commands for the single automated system.

Convenient: no cabling needed and an estimated range of 25 m in free space and 15 m inside buildings.

Backlit keypad in poor light conditions.

Acoustic feedback.

Safe: the combination is a 1 to 9 digit number, this allows the generation of 999,999,999 possible combinations!

Economic: extremely reduced consumption, transmission is activated at the pressure of a key and turns off automatically.

The ambient light sensor activates lighting of the keyboard only when this is necessary.

Thin: extremely strong metal body, only 27 millimetre depth.

DIGITAL WIRELESS SELECTOR

Era Transponder reader

Transponder proximity reader for cards and badges, bimodal transmitters Flor-m, also with Nice BlueBUS technology

ETP

MOCARD
MOCARDP

HSB1

Easy programming:

- 2 programming modes: Easy or Professional;
- allows you to determine which cards/badges are enabled on the system;
- possibility of programming the number of uses available to a specific card or badge;
- 255 storable cards/badges expandable, on ETP, up to 510 cards/badges with a second additional memory BM1000;
- 2 modes (static and dynamic) to activate two different commands (ETP version).

With a O-Box interface you can manage easily any kind of programming of the BM1000 memory, in proximity of the system or also at a distance, directly from the office of the installer.

O-Box is interfaced with the PC, thus allowing an orderly storing of all installations.

Nice BlueBUS technology: available with BlueBUS (ETPB) system which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and other exclusive functions:

- 2 modes (static and dynamic) for the activation of two different commands chosen among 6 available ones (for example, step operation, close, open), depending on the control unit to which they are connected to;
- possibility of insertion of a block/unblock function;
- up to 4 control devices EDSB/EDSIB and ETPB which can be connected via BlueBUS, also with a mixed configuration.

Transponder badge HSB1 Practical in use, can be added to the key chain so as to be always available.

PROXIMITY READER

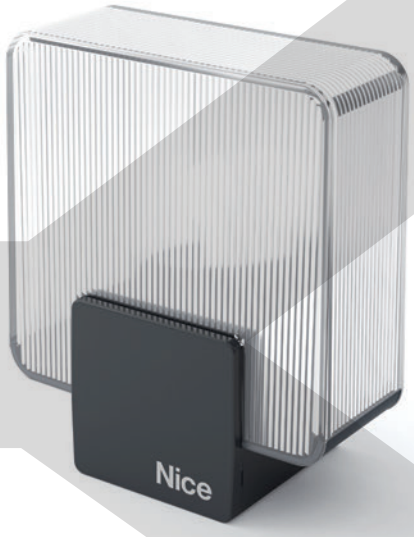
Era Light

Flashing LED signal light



Universal: The flashing light is available in two versions: 90-240 Vac and 12-36 Vdc.

Thanks to the wide range of power supplies, ELAC is compatible with different electrical standards and can also be installed in areas at risk of voltage surges.

Practical: body particularly shock resistant, designed for fixing in various positions.

Energy saving: Thanks to the LED technology, ELAC and ELDC consume about 80% less than traditional flashing lights.

All versions have a built-in 433.92 MHz antenna.

Protection class IP44.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack

Nice

Wallyght

Multi-function LED indicator

The only version with 12/24 Vac/Vdc power supply and flashing light function, courtesy light function or dusk sensor function.

A new idea for improved safety: when connected to compatible control units, Wallyght can act as a normal flashing light, or provide ambient lighting like a fixed courtesy light.

When connected to a 12/24 Vac/Vdc output, Wallyght can remain permanently lit, and also be activated at dusk to then turn off at dawn thanks to the integrated dusk sensor.

Optimal efficiency, extra long life: the two 1 W-LEDs guarantee a lifetime of 70.000 hours (continuous use).

Horizontal, wall or ceiling mounting: combined with the possibility of orienting the light beam and compact dimensions of the IP44 box, use of Wallyght is even more flexible.

Solemyo

Solar power system for automation systems

PSY24

SYP

Solemyo is the solar power system to automate gates, garage doors and road barriers, even those located far from the electrical mains.

Solemyo is available both in kit version and single products.

Installable anywhere: without the need for connections or excavations, even in the most remote locations or those difficult to access with the power mains.

Increased savings and respect for the environment: thanks to solar energy, free and clean: an ecological and intelligent choice with short term benefits.

Low consumption with no risk of blackouts: the extended duration of the energy reserve, combined with the low consumption of the automations, guarantee operation also in prolonged overcast conditions.

Less consumption, more autonomous operation!

Perfect operation ensured even at night time or in prolonged overcast conditions, guaranteeing comfort and safety.

Ease of use: the SYA1 auxiliary power supply unit enables rapid battery charging via a 230 Vac power mains, as an alternative to the photovoltaic module.

Battery charge status Led indicators.

Installation advice: if two or more parallel-connected solar panels have to be installed, purchase individually the items that make up the Solemyo system to increase the system's charging capacity or use just one SYA1 transformer to charge several PSY24 battery boxes.

The kit contains:

SYP: photovoltaic panel for 24 V supply.

PSY24: 24 V battery box with control circuit and carry handles. It stores the electrical energy produced by the SYP panel, with continuous and permanent supply throughout the day.

Cables and connectors necessary for the connection.

TECHNICAL SPECIFICATIONS

Code	Description	Pack/Pallet
SYKCE	Solar power kit comprising SYP photovoltaic panel and PSY24 battery box with charging control circuit	21
SYP	Photovoltaic panel for 24 V supply with maximum power 15 W	
SYP30	Photovoltaic panel for 24 V supply with maximum power 30 W	
PSY24	24 V battery box with control circuit and carry handles	

The SYP30 photovoltaic panel

Sold individually, is ideal in all the situations with low exposure to the sun or automations with high intensity of use.

Nice Solemyo Air Net System

LLW

PHW

PHWA1

PPH1

So many benefits!

Quick installation: no need to lay wiring to connect the accessories to the control unit, drilling holes or laying raceways: just position them as appropriate and let the control unit identify them.

Devices interface with the control unit by means of a special, very compact interface module that can be fitted directly inside the motor, or the control unit, if separate.

Better appearance, flexible positioning of devices over time: it is very easy to add (or remove) devices, with no need to search for a mains connection point or a contact for series connection.

Extremely reliable transmission: the radio system allows two-way communication - each device does not just respond to the control unit's instructions but sends a feedback signal, confirming that it is present and operational, and it also signals the occurrence of events such as the passage of an object between the two photocells.

Operating frequency: 868 MHz, less liable to interference.

Two separate channels are used, for a 100% guarantee of the system's operation and safety even in case of sudden interference.

Intelligent system: it detects whether any interference is from another Nice wireless automation unit. In this case, the "new" automation system just installed selects two communication channels different from those used by the existing system, keeping the two systems' channels separate.

Each device has LEDs in the bottom indicating the signal quality and troublefree operation of the system, which can be checked immediately in the event of malfunction or at first start-up.

A LED flashes when the device is receiving enough solar power to allow recharging.

Solemyo Era Photocell

Pair of PHW two-way wireless photocells, bidirectional, with power supply by photovoltaic cells.

Easy to install: the receiver photocell has a special LED that indicates the degree of alignment with the transmitter photocell, very useful during initial installation.

Solemyo Era Light

Wireless LLW flashing light, with extremely high-efficiency: LEDs lower consumption and virtually unlimited lifetime (no more blown lamps needing frequent changing).

Light output adapts to ambient conditions to ensure good visibility even in direct sunlight and to save energy during the hours of darkness.

Can be used as flashing signal or courtesy light.

COMPATIBILITY/INTERFACE TABLE

Code	Description	Pc/Pack
PHW	Pair of wireless photocells with built-in photovoltaic panel	1
PPH1	PHW photocell post, h. 50 cm	2
PHWA1	Pair of adapters for PHW on PPH1 posts	1

* There may be any limitations on the number of devices managed.
** Not managed in automation for swing gates (MC824H; Walky; Hopp, Hyke) and in some automations for garage doors (SN6020*; SN6021*; SPIN2*; SPIN20*; SPIN21*; SPOK).

KOVOPROLOTOVARY.CZ

Nice

Era TCW

Sensitive edge sensors

TCW2

TCW1

Even safer automation thanks to the Nice Solemyo Air Net System's new sensitive edge sensors.

No connection, totally wireless, powered by the sun.

Energy saving: thanks to the solar power cell built into the TCW2, with rechargeable batteries.

Version with battery-only operation is also available in case of installations with low exposure to sunlight.

Maximum safety: thanks to the "wireless" system for detection and communication between sensitive edge, interface and control unit, allowing swift action when an obstacle is detected.

Fast easy installation: maximum flexibility in installing the devices. Possibility of connection to 8.2 KOhm resistive sensitive edges.

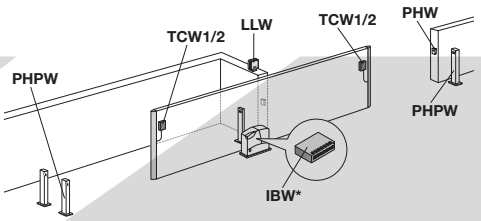
State-of-the-art technology: IBW interfaces, for Nice BlueBUS-compatible control units, and IRW, interfaces, for control units without BlueBUS connection, allow radio communication with TCW sensors.

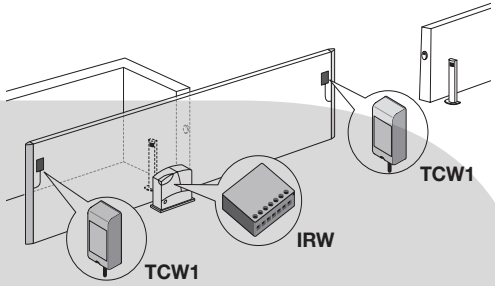
Suitable for any architectural context

Compact size: 99x49x33.

INSTALLATION DIAGRAM

* IBW or IRW depending on the motor (only IBW accepts also PHW and LLW)





TCW + IBW

The IBW is connected to the control unit's BlueBUS terminal and communicates with the TCW by radio. Compatible also with PHW wireless photocell and LLW wireless flashing light.

TCW + IRW

IRW is connected to safety input (Stop and Photo) of control unit and communicates via radio with TCW.

TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
TCW1	Battery-powered wireless transmitter for sensitive edges. Suitable for internal use or sparsely sunny areas	1
TCW2	Photovoltaic panel and rechargeable battery-powered wireless transmitter for sensitive edges. Suitable for external use or sunny areas	1
IBW	BlueBUS wireless interface for sensitive edges with wireless transmitter for BlueBUS system control units	1
IRW	Relay wireless interface for sensitive edges with wireless transmitter for control units with classical connections (Stop and Photo)	1

Code	TCW2	TCW1
Technology used	Radio data reception and transmission, with choice of 2 frequencies in the 868 MHz band	
Power supply	Photovoltaic cell with electricity stored in a rechargeable AAA NiMH battery	2 alkaline batteries
Battery life	estimated 4-5 years *	estimated 2-3 years, with 1200 mAh alkaline batteries
Maximum number of operations per day	15 operations lasting no more than 1 minute (1 cycle = opening + closing)	
Sensitive edge (RS) input range	typically 8.2 KOhm	
Radio operating range (max)	20 m (40 m)	
Failsafe category	2 (under EN 945-1 standard) depending on "Fototest" input and output connection type

Operating temperature	-20 ÷ +55°C	
Dimensions (mm)	99x49x33	
Weight (g)	130	145

* The estimated values refer to edge activity of about 15 manoeuvres per day, with a complete manoeuvre time of 60 seconds (900 seconds per day).

KOVOPOLOTOVARY.CZ

Nice

Nice&Safe

8.2 KOhm resistive sensitive edges

Maximum safety and control of the automation.

Safer: if there are any faults in the system like, for example, the product itself has broken down, the edges will communicate this to the control unit.

The TCE interface board enables users to connect sensitive edges (with 8.2 KOhm resistance) to those control units which are not equipped with a special input.

The length can be personalised: the components supplied in the kits enable installers to build sensitive edges of the correct dimension.

Practical: they adapt to any kind of situation and can be installed quickly.

Reliable: the new Class3 technology means that the control unit, the sensitive edges are connected to, can understand if the device is functioning correctly, or if it is out of use.

8.2 KOhm analogical-type input.

RESISTIVE SENSITIVE EDGES AND ACCESSORIES

Code	Description	Pc/Pack

PASSIVE SENSITIVE EDGES

Code	Description	Pc/Pack
TCBS60	Passive sensitive edge in 10 m rolls	1

Inductive magnetic detector loop.

The inductive magnetic detector loop system is used to detect vehicles and control vehicle transit in the presence of automated gates and garage doors and road barrier and car park management systems.

Two versions are available, to control one or two magnetic loops.

Even more intuitive programming and use thanks to the simple DIP switch function control.

The user can set the parameters directly on the device. For example, the detection sensitivity of the loop detectors can be adjusted to 4 different levels to meet different installation requirements.

The loop detector can vary the detection signal from continuous to pulsed and the LP22 two loop detector can establish the direction of the vehicle moving over the magnetic loops.

The LEDs on the detectors provide continuous diagnostics.

At regular intervals, the detector can calibrate the parameters essential to correct operation of the system.

BLUEBUS

FT210

Pair of optical devices for sensitive edges

PPH2 PPH1 FA1

Optical device, with wireless transmitter to secure on moveable leaf, horizontally adjustable through 210° and 30° vertically, for an automation according to Standards.

Consideration towards personal safety and product quality.

The safety level of the main edge, required by the EN12453 standard, can be achieved for any “type of use” and any “type of activation” by integrating a FT210/FT210B device to an 8.2 KOhm TCB65 type resistive sensitive edge

The FT210/FT210B device, integrated with a “resistive” sensitive edge (8.2 KOhm), is safe against individual faults (category 3 according to the EN 954-1 standard) or can be used with automated systems with self-diagnosis at the start of every manoeuvre (category 2 according to the EN 954-1 standard).

Additional models

Versions with relay output (FT210), with Nice BlueBUS technology (FT210B), available with 2 Ah (FTA2) and 7 Ah (FTA1) battery Kit, for intensive use.

Cutting-edge technology

The anti-collision circuit avoids interference with other out-of-sink receivers.

The FT210/FT210B optical devices are equipped with a special sensor capable of recognizing when the gate is motionless, which remains in a low consumption mode and activates only when the gate is in motion.

Range adjustable on 2 levels; alignment with proportional LED for easy and safe installation.

Suitable for any architectural environment and easy to install.

Compact size: Reduced dimensions: 46x128x45; electrical connections can also be made from the lower section of the box.

Resilient and safe Polycarbonate casing; FA1 vandal-proof metal shell (optional); low transmitter battery indicator.

BLUEBUS

F210

Synchronised photocells adjustable

PPH2 PPH1

F210 - FA1

Synchronised photocells horizontally adjustable through 210° and 30° vertically.

Simply perfect installations.

The 210° solution

The beam of the Nice F210 and F210B photocells has a horizontal scope of 210°, thereby increasing the safety level of the system and simplifying installation: the gate or garage door to be automated quite often slide flush with the wall making it very difficult to position the photocell.

Numerous models and countless advantages

The new photocells are available with relay output (F210) or with the Nice BlueBUS technology (F210B).

With the BlueBUS technology, all devices can be easily connected to the control unit with just two wires.

Sensors with the BlueBUS technology can be connected to incompatible control units by means of an IB interface.

The system acquires automatically the devices connected to the BlueBus network.

Suitable for any architectural environment and easy to install.

Compact size: Reduced dimensions: 46x128x45; electrical connections can also be made from the lower section of the box.

Resilient and safe Polycarbonate casing; FA1 vandal-proof metal shell (optional).

Cutting-edge technology The problem of interference between the sensors and the automatic synchronisation between several pairs of photocells is solved by the anti-blinding circuit.

High range adjustable on 2 levels; synchronising circuit; alignment with proportional Led for easy and safe installation.

TECHNICAL SPECIFICATIONS

Kio

Key-operated selector switch for low voltage contacts

With release mechanism for metal cable, ideal for automating sectional doors, rolling doors and folding doors.

User-friendly: Kio is both a key-operated selector switch and a release device. Its design makes it very convenient and effortless to use, and easy to install anywhere thanks to its very narrow outline.

Long-lasting: made from cast aluminium, epoxy-power coated.

Easy: LED allows you to locate the selector switch even in total darkness.

More safety: coded key. Release device activated directly by opening the door or by the winding device.

The very first product to incorporate the key-operated control and release motor functions.

Code	Description	Pc/Pack
KIO	Key-operated selector switch for low voltage contacts, with release mechanism for metal cord	1
KA1	6 m cable release kit for KIO	1

KIO

KA1

Nice

Kiomini

Aluminium key switch

With control button and release mechanism for metal cable.

Practical: Kiomini is both a lever for the release mechanism for metal cord and a control mechanism for the direct or through a control unit activation of a single phase motor.

Resistant: a vandal-proof die-cast aluminium casing. The access to the sector is possible by a thick door with closing key.

Convenient: thanks to its small dimensions, it is easy and compact to install.

Code	Description	Pc/Pack
KIOMINI	Aluminium key switch with control and release mechanism	1
KA1	6 m cable release kit for KIO	1

Heating device

PW1 heating element for gearmotors:

it maintains a suitable temperature for the automation system to operate correctly, even under the most severe of weather conditions.

Resistor: able to reach temperatures of almost 100°C in standard ambient conditions.

Effective: each element has a consumption of 20 W and is extremely efficient thanks to the silicone sheath that covers the resistance and increases the diffusion of heat.

Indipendent: the device is directly fed by a 230/120 Vac power supply through the TW1 thermostat, and because it doesn't burden the transformer of the product itself, the performance characteristics of the gear motor remain the same.

TW1, regulation thermostat for PW1:

when the detected temperature drops below the set threshold, the thermostat activates the heating element PW1 thereby slowly increasing the internal temperature of the product itself; the heating action is maintained until the detected surrounding temperature stabilizes at the set levels.

Easy to programme: the intervention threshold can be regulated between 0°C and -20°C.

Safe: with key to verify functioning and LED to verify the status of the outputs.

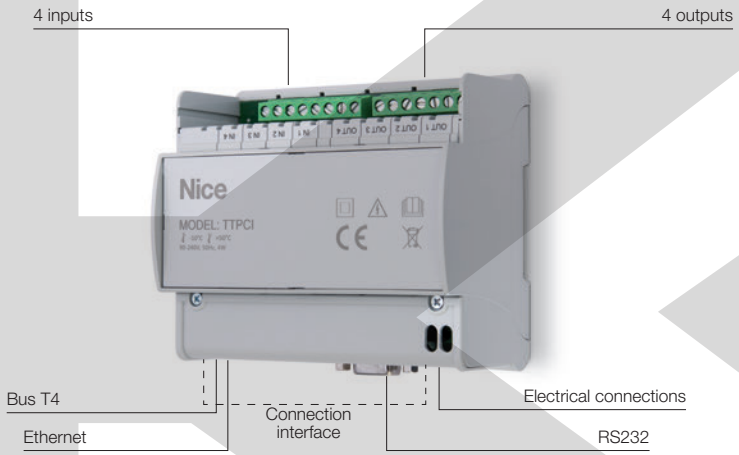
Nice

NEW

TTPCI

BusT4 – PC interface



The TTPCI electronic device allows Nice products to be interfaced with other automation systems and controlled by PC.

TTPCI interfaces with the Nice products by BusT4 via the standard communication channel (serial/ethernet), enabling customers to control the automations directly via PC.

Device and automation management The presence of four opto-isolated inputs and four relay outputs allows input signals and electrical loads to be managed, making it possible to create a simple access control system. Mounting inside an electrical panel with DIN rail for anchoring.

Management by PC The device can be connected to a PC with terminal emulator to programme and manage the automations using commands with a specific syntax.

TECHNICAL SPECIFICATIONS

Control unit for swing gates with one or two motors **Moonclever** pages 242/244

- with encoder, for 24 Vdc motors → with BlueBUS technology, compatible for operation with Solemyo and Opera → **MC824H**
- without encoder, for 24 Vdc motors → compatible for operation with Solemyo and Opera, with built-in radio receiver → **MC424L**
- without encoder, for 230 Vac motors → with BlueBUS technology, compatible for operation with Opera → **MC800**

For rolling doors **MC200** page 245

- for one 230 Vac motor with built-in receiver → with automatic closing feature and flashing light output, compatible for operation with Opera → **MC200**

D-Pro 500 page 246

- three-phase 400 V or three-phase / single-phase 230 Vac motor, 2.2 kW, IP55 case → compatible for operation with Opera → **DPRO500**

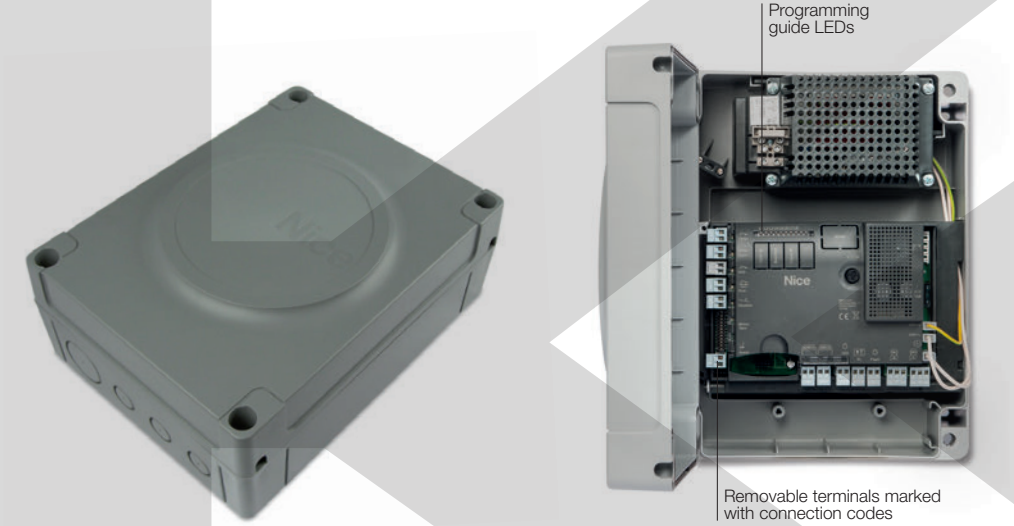
D-Pro 924 page 247

- for one motor, with 24 Vdc encoder, built-in battery charger, IP55 case, (only for Sumo) → **DPRO924**

KOVOPOLOTOVARY.CZ

Moonclever

Control units for motors for 24 Vdc swing gates, with magnetic encoder



With Nice BlueBUS technology, compatible with the Solemyo solar power kit (MC824H, MC824L) and Opera system for automation management, programming and diagnostics, including remotely.

Compatible with the Opera system whose multifunction O-View display (mountable in the box) enables the system to be personalised, modifying the opening and closing positions, staggered closing of the leafs and decelerations, diversifying the parameters such as force, speed and obstacle sensitivity for each motor.

Microprocessor logic: Moonclever control units combine the advantages of the Opera system with the advanced functions of the Nice systems (gradual start and deceleration, automatic memorising of both limit switch positions and pedestrian pass door function).

Safe and reliable: thanks to obstacle detection with dual technology and monitoring of motor absorption and speed via the encoder, throughout door/gate travel, with provision for connection of latest generation resistive sensitive edges.

Smart: on start-up, indicator to confirm correct power supply and efficient operation of the control unit; automatic fault diagnostics and signalling via the flashing light and confirmation LEDs.

Savings, respect for the environment, and autonomy: when connected to the buffer battery or Solemyo kit (MC824H, MC824L), consumption on standby is reduced to just 0.1 W.

Installation couldn't be simpler: thanks to the system BlueBUS, enabling connection of the control unit, motors and accessories by means of just two wires.

No black out: operation in the event of a power failure by means of optional batteries (PS324) with compartment in control unit.

Radio receiver: designed to take SM plug-in receivers.

NEW BiDi Yubii SOLEMYO OPERA 24V

D-Pro 924

Control unit for motors for sectional doors, 24 V, with encoder or electromechanical limit switch, suitable for Sumo

Compatible with the solar power kit Solemyo.

Compatible with the Opera system; thanks to the multifunction O-View display (mountable in the box), this enables the system to be personalised, modifying the opening and closing positions and decelerations and diversifying the parameters such as force, speed and obstacle sensitivity for each motor.

Practical and safe: new box with 3 built-in buttons in the cover to control the automation. Ample internal space for wiring and accessories. Protective inner cover to guarantee maximum installation safety and prevent accidental damage to the electronics.

User-friendly: the new programming procedure with button and DIP switch and practical removable connectors further simplifies installation.

Compatible with the IBT4N interface: The dedicated slot enables connection of Bus T4 compatible accessories and programming interfaces.

Complete: the inputs and outputs programmable with O-View, new relay outputs and compatibility with all the sensitive edges most popular on the market (resistive and optical) make it ideal for all needs.

Safe and reliable: thanks to obstacle detection throughout door/gate travel, with provision for connection of latest generation resistive sensitive edges.

Savings, respect for the environment, and autonomy: when connected to the buffer battery or Solemyo kit, consumption in standby is reduced to just 0.1 W.

Intelligent: automatic fault diagnostics and signals via flashing light and confirmation leds.

No black out: continues to work even during power failures using optional (PS124) batteries that fit inside the control unit

KOVOPOLOTOVARY.CZ

Alphabetical index

Code	Product line	Page
ABF	Tuned directional aerial, for mounting on bracket	188
ACNPS01	DIN module for NicePass access control	206
ALA1	Battery charger power supply unit	196
BCU1	Spare control unit for M-Bar and L-Bar	121
BFAB5024	Big-Fab, Motor for swing gates, underground installation, with leaves up to 5 m, with mechanical limit switch on closing	87
BFABBOX	Fab accessory, Foundation box with cataphoresis paint finish	87
BFABBOXI	Fab accessory, Stainless steel foundation box	87
BM1000	Additional memory card (255 codes memory)	223
BMA1	L-Fab and Big-Fab accessory, Accessory for opening up to 360°	31
BMA2	L-Fab and Big-Fab accessory, Adapters for the installation of two motors	85
BMA3	Lever-type key unlock system	31
CABLA01	Cable for connecting O-Box to the computer	196
CABLA02	Optical reader for programming transmitters Bio and FloR	196
CABLA03	Cable for cloning transmitters in the series Very	196
CABLA04	Cable for cloning transmitters in the series FloR	196
CABLA05	Cable for programming tubular motors, equipped with port TTBUS	196
CABLA06	Cable for programming receivers universal in the series SMX and OX	190
CABLA07	Cable for cloning transmitters in the series Ergo and Plano	196
CABLA09	Cable for cloning transmitters in the series Era-Flor	196
CB	Mechanical sensitive edges - protective rubber pad	233
CHEU	Neutral key for EKSEU, EKSIEU	222
CHS	Neutral key for EKS, EKSI	222
CM-B	Mechanical sensitive edges, length 1.5 m	105
CMA 1,5MT	Mechanical sensitive edges, length 1.7 m	233
CMA 1,7MT	Mechanical sensitive edges, length 2 m	233
CMA 2,5MT	Pawl with two metal release keys	233
CMA 2MT	Mechanical sensitive edges, length 2.5 m	233
CMBK4	Kit for installing a low mechanical edge, with aluminium profiles measuring 4 m (to use together with CB)	233
CMBK6	Kit for installing a low mechanical edge, with aluminium profiles measuring 6 m (to use together with CB)	233
CORE	Nice Wi-Fi-Radio Gateway	172
CRA1	Mechanical accessory, shaft with 18-tooth pinion	159
CRA2	Mechanical accessory, joint for chain	159
CRA3	Mechanical accessory, 1/2" chain, 1 m pack, plus joint for chain	159
CRA4	Mechanical accessory, 1/2" chain, 5 m pack, plus joint for chain	159
CRA5	Mechanical accessory, tensioner drive with brackets	159
CRA6	Mechanical accessory, 36-tooth pinion	159
CRA7	Mechanical accessory, 18-tooth pinion	159
CRA8	Mechanical accessory, wall-fixing bracket	159
CRA9	Mechanical accessory, adapter for shafts	157
DBM10	Complete kit for electrical connection of sensitive edges, for gates up to 10 m	232
DBM5	Complete kit for electrical connection of sensitive edges, for gates up to 5 m	232
DBM7,5	Complete kit for electrical connection of sensitive edges, for gates up to 7.5 m	232
DPCU1	Spare control unit for DPRO924	247
DPRO500	Control unit for 230 Vac, 2.2 kW single phase motor, or 400 Vac, 2.2 kW three phase motor	246
DPRO924	Control unit for 24V motor (suitable for Sumo), with provision for Solemyo and Opera	247
EDS	Era Keypad, digital selector 12 keys to be combined with the MORX decoder	220
EDSB	Era Keypad, 12 key digital selectors with nice BlueBUS technology, burglar-resistant metal body	220
EDSI	Era Keypad, 12 key digital selectors with nice BlueBUS technology, for recessed mounting burglar-resistant metal body	220

KOVOPOLOTOVARY.CZ

Code	Product line	Page
EDSIB	Era Keypad, digital selector 12 keys, for recessed mounting, to be combined with the MORX decoder	220
EDSWG	Era Keypad wireless, 13 key digital selector, with radio connection	221
EKA01	Era Post, plug for mounting of EKS, EKSEU, EDS, EDSB, EDSW, ETP, ETPB, on PPH2 post	225
EKA02	Finishing kit for EDSI, EDSIB, EKSI, EKSIEU installation	220
EKA03	Bowl for recessed mounting (depth 66 mm) for installation of EKSI, EKSIEU. also compatible with EPLIO, EPLIOB, EDSI, EDSIB	219
EKS	Key selector Era series, for outdoor installation	222
EKSEU	Key selector Era series, European cylinder, for outdoor installation	222
EKSI	Era Key Switch, key selector for recessed mounting	222
EKSIEU	Key selector Era series, European cylinder, for recessed mounting	222
ELAC	Flashing LED signal light, neutral, 90-240 Vac, for compatible control units	226
ELDC	Flashing LED signal light, neutral, 12-36 Vdc, for compatible control units	226
ELMM	LED light module for EPMOR	217
EPL	Era Photocell L, pair of surface-mounted photocells Large	219
EPLB	Era Photocell L, pair of surface-mounted photocells large, 30° positionable	219
EPLIO	Era Photocell L, pair of surface-mounted photocells large, 30° positionable, with Nice BlueBUS technology	219
EPLIOB	Era Photocell L, pair of surface-mounted photocells large, with Nice BlueBUS technology	219
EPLO	Era Photocell L, pair of photocells large for recessed mounting, 30° positionable	219
EPLOB	Era Photocell L, pair of photocells large for recessed mounting, 30° positionable, with Nice BlueBUS technology	219
EPM	Era Photocell M, pair of outdoor photocells	217
EPMA	Era Photocell M, pair of outdoor photocells, 30° positionable	217
EPMAB	Era Photocell M, pair of outdoor photocells, 30° positionable, with Nice BlueBUS technology	217
EPMAO	Era Photocell M, pair of outdoor photocells, burglar-resistant metal body	217
EPMAOB	Era Photocell M, pair of outdoor photocells, 30° positionable, burglar-resistant metal body	217
EPMB	Era Photocell M, pair of outdoor photocells, 30° positionable, burglar-resistant metal body, with Nice BlueBUS technology	217

Code	Product line	Page
EPMO	Era Photocell M, pair of outdoor photocells, burglar-resistant metal body, with Nice BlueBUS technology	217
EPMOB	Era Photocell M, pair of outdoor photocells, with Nice BlueBUS technology	217
EPMOR	Era Photocell M, surface-mounted reflective photocell + reflective mirror 1	217
EPMOW	Era Photocell M, pair of self-synchronised surface-mounted wireless photocells	217
EPS	Era Photocell S, pair of outdoor photocells Slim	215
EPSA	Era Photocell S, pair of outdoor photocells slim, burglar-resistant metal body	215
EPSAB	Era Photocell S, pair of outdoor photocells slim, with Nice BlueBUS technology, burglar-resistant metal body	215
EPSB	Era Photocell S, pair of outdoor photocells slim, with Nice BlueBUS technology	215
ERA P VIEW	Multifunction radio transmitter with intuitive graphic interface, to manage up to 99 devices singly or in groups	178
ETP	Proximity reader for transponder cards MOCARD and MOCARDP to be combined with the MORX decoder	223
ETPB	Era Transpoder Reader, proximity reader for transponder cards with Nice BlueBUS technology	223
ETWI	Interface with Wiegand 26303437 protocol for use with a radio control device with Nice Pass	206
F210	Pair of synchronised photocells, with relay output	235
F210B	Pair of synchronised photocells, with the Nice BlueBUS technology	235
FA1	Vandal-proof metal shell for optical devices	234
FA2	Bracket for fixing vandal-proof metal shell to PPH2 and PPH1 columns	234
FLO1RCE	Era FloR transmitter, 1 channel, with sequential code for multiple insertion	183
FLO1RE	Era FloR transmitter, 1 channel	183
FLO2RCE	Era FloR transmitter, 2 channels, with sequential code for multiple insertion	183
FLO2RE	Era FloR transmitter, 2 channels	183
FLO4RCE	Era FloR transmitter, 4 channels, with sequential code for multiple insertion	183
FLO4RE	Era FloR transmitter, 4 channels	183
FT210	Pair of optical devices for sensitive edges, with relay output	234
FT210B	Pair of optical devices for sensitive edges, with BlueBUS technology	234

Alphabetical index

Code	Product line	Page
FTA1	7 Ah battery kit for FT210/FT210B transmitters, for intensive use	234
FTA2	2 Ah battery kit for FT210/FT210B transmitters	234
GR170	Giro, Irreversible gear motor, with brake and release device, lifting force up to 170 kg	165
GR170E01	Giro, Irreversible gear motor, with brake and release device, lifting force up to 170 kg, power supply cable included	165
GR170R	Giro, Reversible gear motor, without brake, lifting force up to 170 kg	165
GR170RE01	Giro, Reversible gear motor, without brake, lifting force up to 170 kg, power supply cable included	165
GR340E01	Giro, Irreversible gear motor, bi-motor with brake and release device, lifting force up to 340 kg, power supply cable included	165
GRA01	Giro accessory, second motor for GR170 complete with accessories for simultaneous release	165
GRA02	Giro accessory, adapter for 48 mm diameter shafts	165
GRA03	Giro accessory, adapter for 240 mm diameter pinion	165
HK7024	Hyke, Motor for swing gates up to 3.5 m, with articulated arm and control unit	71
HK7024HS	Hyke HS, Hi-Speed motor for swing gates up to 3 m, with magnetic encoder, complete with articulated arm and control unit	27
HK7224	Hyke, Motor for swing gates up to 3.5 m, with articulated arm	71
HK7224HS	Hyke HS, Hi-Speed motor for swing gates up to 3 m, with articulated arm, without built-in control unit	27
HKA2	Hyke HS accessory, Spare control unit for HK7024HS	27
HO7124	Hopp, Motor for swing gates up to 2.4 m, with articulated arm and control unit	67
HO7224	Hopp, Motor for swing gates up to 2.4 m, with articulated arm, without control unit	67
HOPPBDKCE	Hopp, Kit for swing gates with a leaf length of up to 2.4 m, surface mounted, bidirectional. **Contains:** 1 x HO7124 + HO7224, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x ELDC	69
HSB1	Trasponder badge for proximity reader	223
HY7005	Hyppo, Motor for swing gates up to 3 m, articulated shear-proof arm, with limit switch on opening and closing	75
HY7024	Hyppo, Motor for swing gates up to 3 m, with magnetic encoder, with shear-proof articulated arm	75
HY7100	Hyppo, Motor for folding 2-leaf doors, 230 Vac, with telescopic arm and limit switch on opening and closing	161
HY7124	Hyppo, Motor for folding 2-leaf doors, with telescopic arm and limit switch on opening and closing, with magnetic encoder	161
HYA11	Hyppo, Unlock from inside with a 6 m cord	161

Code	Product line	Page
HYA12	Hyppo, Longer articulated arm	75
HYKEBDKCE	Hyke, Kit for swing gates with a leaf length of up to 3.5 m, with articulated arm, surface mounted, bidirectional. **Contains:** 1 x HK7024 + HK7224, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	73
IB	Interface for connecting BlueBUS photocells up to control units which have not been manufactured for this purpose	215
IBT4N	Interface for connecting the O-View programming unit	21
IBW	Interface between PHW/LLW and control units with BlueBUS system	217
INB	Communication interface between Bticino Bus (SCS) and Nice Bus (TTBus and BusT4)	195
INTI1	Era Inti transmitters,1 channel, 433.92 MHz, black	180
INTI1B	Era Inti transmitters,1 channel, 433.92 MHz, blue	180
INTI1G	Era Inti transmitters,1 channel, 433.92 MHz, green	180
INTI1L	Era Inti transmitters,1 channel, 433.92 MHz, liliac	180
INTI1R	Era Inti transmitters,1 channel, 433.92 MHz, red	180
INTI1Y	Era Inti transmitters,1 channel, 433.92 MHz, yellow	180
INTI2	Era Inti transmitters, 2 channels, 433.92 MHz, black	180
INTI2B	Era Inti transmitters, 2 channels, 433.92 MHz, blue	180
INTI2G	Era Inti transmitters, 2 channels, 433.92 MHz, green	180
INTI2L	Era Inti transmitters, 2 channels, 433.92 MHz, liliac	180
INTI2R	Era Inti transmitters, 2 channels, 433.92 MHz, red	180
INTI2Y	Era Inti transmitters, 2 channels, 433.92 MHz, yellow	180
INTIKIT	Era Inti, Kit composed by three 2-channel transmitters Era Inti (red, green, blue) and one receiver OX2	180
IRW	Wireless relay interface for sensitive edges	231
IT4WIFI	Kit containing: 1 Wi-Fi interface, 1 RJ-11 phone cable, 1 IBT4N adapter	174
KA1	6 m cable release kit for KIO	236
KI1	Outside release kit with metal pull-cord and lock and key	37
KIO	Key-operated selector switch for low voltage contacts with release mechanism for metal cord	27

KOVOPLOTOVARY.CZ

Code	Product line	Page
KIOMINI	Aluminium key switch with control and release mechanism	236
L9BAR	Road barrier system for bars from 7 to 9 m, steel case with protective cataphoresis treatment	125
L9BARI	Road barrier system for bars from 7 to 9 m, stainless steel case	125
LFAB4000	L-Fab, Motor for swing gates, underground installation, with leaves up to 4 m, with mechanical limit switch on closing	85
LFAB4024	L-Fab, Motor for swing gates, underground installation, with leaves up to 4 m, with encoder and mechanical limit switch on closing	85
LFAB4024HS	L-Fab HS, Hi-Speed motor for swing gates, underground installation, with leaves up to 4 m or 400 kg, with encoder and mechanical limit switch on closing	31
LFABBOX4	L-Fab accessory, Foundation box with cataphoresis paint finish	31
LFABBOX4I	L-Fab accessory, Stainless steel foundation box	31
LLW	Wireless flashing light with built-in photovoltaic panel	230
LP21	Single-channel metal mass detector 24 V power supply	233
LP22	Two-channel metal mass detector 24 V power supply	233
M3BAR	Road barrier system for bars of 3 m, steel case with protective cataphoresis treatment	121
M3BARI	Road barrier system for bars of 3 m, stainless steel case	121
M5BAR	Road barrier system for bars of 4 or 5 m, steel case with protective cataphoresis treatment	121
M5BARI	Road barrier system for bars of 4 or 5 m, stainless steel case	121
M7BAR	Road barrier system for bars of 5, 6 or 7 m, steel case with protective cataphoresis treatment	121
M7BARI	Road barrier system for bars of 5, 6 or 7 m, stainless steel case	121
MC200	Control unit for a 230 Vac motor for rolling doors	245
MC424L	Control unit for swing gates with one or two 24 Vdc motors, with Solemyo technology	243
MC800	Control unit for one or two 230 V motors with Nice BlueBUS technology and provision for the Opera system	244
MC824H	Control unit for one or two 24 V non-reversible motors with encoder, with Nice BlueBUS technology and provision for Opera and Solemyo	242
MC824HR	Control unit for one or two 24 V reversible motors with encoder, with Nice BlueBUS technology and provision for Opera and Solemyo	242
MC824L	Control unit for one or two Oltre 1824 motors without encoder, with Nice BlueBUS technology and provision for Opera and Solemyo	242
MCA1	Spare control unit for MC824H	242

Code	Product line	Page
MCA2	Spare control unit for MC424L	243
MCA3	Spare control unit, for MC824HR	242
MCA4	Spare control unit, for MC824L	242
MCA5	Spare control unit for MC800	244
MEA1	Mechanical accessory for opening up to 360° for gates max. 2.5 m in length	29
MEA2	Fab accessory, Key unlock system	29
MEA3	Fab accessory, Lever-type key unlock system	29
MEA5	Fab accessory, Lever-type unlock key for MEA3	29
MEA6	Fab accessory, Limit switch bracket	29
MFAB3000	M-Fab, Motor for swing gates with leaves up to 3 m, underground installation, grease lubrication, increased speed	83
MFAB3000L	M-Fab, Motor for swing gates with leaves up to 3 m, underground installation, grease lubrication, cruising speed	83
MFAB3024	M-Fab, Motor for swing gates with leaves up to 3 m	83
MFAB3024HS	M-Fab HS, Hi-Speed motor for swing gates with leaves up to 3 m, with magnetic encoder	29
MFABBOX	Fab accessory, Externally chamfered foundation box with cataphoresis finish with mechanical stop on opening	29
MFABBOXI	Fab accessory, Externally chamfered foundation box in stainless steel with mechanical stop on opening	29
MOCARD	Transponder card programmable via OBOX	223
MOCARDP	Transponder card programmable via OBOX, with sequential coding	223
MORX	Decoder for 1 ETP or up to 4 EDS/EDSI connected in parallel with memory BM1000	220
NDA040	Module for optional potential free outputs	112
NKA3	Spare control unit	93
NKSL400	Naked, Concealed motor for swing gates up to 400 kg, with control unit and absolute encoder	93
NSEA	Instrument for force impact measurement, angular extension	232
NSEL	Instrument for force impact measurement, straight extension	232
NSFB	BlueForce SMART instrument for measuring the impact force compliant with EN12445, with Plug Bluetooth/USB and software included	232

KOVOPLOTOVARY.CZ

Alphabetical index

Code	Product line	Page
NSFS	BlueForce SMART instrument for measuring the impact force compliant with EN12445, with USB interface and software included	232
OBOX2	Connection interface complete with software "O-Box Software Suite", with USB connection cable supplied	189
OBOX2B	Connection interface complete with software "O-Box Software Suite", with USB connection cable and integrated Bluetooth module	189
OLTRE1824	Oltre, invisible motor for swing gates weighing up to 100 kg and with a leaf length of up to 1.8 m, with release lever	61
ON1CE	Era One transmitter, 1 channel, 433.92 MHz, with sequential code for multiple insertion	182
ON1E	Era One transmitter, 1 channel, 433.92 MHz	182
ON1EFM	Era One transmitter, 1 channel, 868.46 MHz	182
ON2CE	Era One transmitter, 2 channels, 433.92 MHz, with sequential code for multiple insertion	182
ON2E	Era One transmitter, 2 channels, 433.92 MHz	182
ON2EFM	Era One transmitter, 2 channels, 868.46 MHz	182
ON3EBD	Era One BD transmitter, 3 channels, bidirectional, 433.92 MHz	176
ON3ELR	Era One LR transmitter, 3 channels, bidirectional, with LoRa® technology, 433.92 MHz	177
ON4CE	Era One transmitter, 4 channels, 433.92 MHz, with sequential code for multiple insertion	182
ON4E	Era One transmitter, 4 channels, 433.92 MHz	182
ON4EFM	Era One transmitter, 4 channels, 868.46 MHz	182
ON9E	Era One transmitter, 9 channels, 433.92 MHz	182
ON9EFM	Era One transmitter, 9 channels, 868.46 MHz	182
ONELRKIT	KIT with LoRa® technology. **Contains:** 2 x ON3ELR, 1 x OXILR, 1 x OX2UBP	177
OTA11	Mechanical accessory, Kit for external unlocking with a metal cord	153
OTA12	Mechanical accessory, Kit for external unlocking with key ratchet	153
OTA2	Mechanical accessory, Motor support bracket (1250 mm long)	153
OTA3	Mechanical accessory, Motor support bracket (2000 mm long)	153
OTA9	Mechanical accessory, Motor support bracket (520 mm long)	153
OVA1	O-View Accessory, Clamp for fitting connectors RJ14	194
OVA2	O-View Accessory, Connectors RJ14, type 6/4, for flat 4-wire cable	194
OVA3	O-View Accessory, RJ14 splitters, type 6/4, for cascade connection	194
OVA4	O-View Accessory, Flat 4-wire cable for connection of devices	194
OVBT	O-View, Bluetooth module for O-View and software for PC, PDA or Smartphone	194
OVBTGSM	O-View, GSM module and software for PC, PDA or Smartphone	194
OVIEW	Unit for control, programming and diagnostics of devices equipped with BUS T4 connection	194
OX2	Prewired receiver 433.92 MHz, 2 channels, without built-in transmitter	188
OX2FM	Prewired receiver 868.46 MHz, 2 channels, without built-in transmitter	188
OX2T	Prewired receiver 433.92 MHz, 2 channels, with built-in transmitter	188
OX2TFM	Prewired receiver 868.46 MHz, 2 channels, with built-in transmitter	188
OX4T	Universal receiver 433.92 MHz, 4 channels, with built-in transmitter	188
OXI	Receiver with connector, 433.92 MHz, 4 channels, without built-in transmitter	188
OXIBD	Radio receiver with connector, 433.92 MHz, 4 channels, with built-in transmitter	176
OXIFM	Receiver with connector, 868.46 MHz, 4 channels, without built-in transmitter	188
OXILR	Radio receiver with connector, bidirectional, with LoRa® technology, 433.92 MHz, 4 channels, with built-in transmitter	177
OXIT	Receiver with connector, 868.46 MHz, 4 channels, with built-in transmitter	188
OXITFM	Prewired receiver 868.46 MHz, 4 channels, with built-in transmitter	188
PHW	Pair of wireless photocells with built-in photovoltaic panel	230
PHWA1	Pair of adapters for PHW on PPH1 posts	230
PLA10	Mechanical accessory, Vertical 12 V electric lock	21
PLA11	Mechanical accessory, Horizontal 12 V electric lock	21
PLA13	Mechanical accessory, Mechanical travel stops for closing and opening manoeuvres	45
PLA14	Mechanical accessory, Screw-adjustable rear bracket	23
PLA15	Mechanical accessory, Screw-adjustable front bracket	23

KOVOPOLOTOVARY.CZ

Code	Product line	Page
PLA6	Mechanical accessory, Rear bracket 250 mm long	45
PLA8	Mechanical accessory, Screw-adjustable front bracket	47
POA3	Spare control unit for HO7124	67
POE	Wall support for Era Photocells	217
PPH1	Era Post, Outdoor aluminium post for 1 photocell medium and large, height 500 mm	225
PPH2	Era Post, Outdoor aluminium post for 2 photocells medium and large, height 1000 mm	225
PPH3	Era Post, Outdoor aluminium post for 1 photocell medium size, height 500 mm	225
PPH4	Era Post, Outdoor aluminium post for 2 photocells medium size, height 1000 mm	225
PPK	Era Post, Outdoor aluminium post for 1 selector, height 1100 mm	225
PROVIEW	Multi-function interface	190
PS124	24 V battery with integrated battery charger	27
PS224	24 Vdc buffer battery	121
PS324	24 V battery with integrated battery charger (for motor in 24 Vdc version)	21
PS424	Buffer battery	63
PS524	Charge card for 7 Ah batteries	35
PSY24	24 V battery box with control circuit and carry handle	229
PW1	Heating element for gearmotors	237
RB1000	Robus, Motor for sliding gates up to 1000 kg with control unit and electromechanical limit switch	99
RB1000P	Robus, Motor for sliding gates up to 1000 kg with control unit and inductive limit switch	99
RB250HS	Robus HS, Hi-Speed motor for sliding gates up to 250 kg with control unit and electromechanical limit switch	33
RB400	Robus, Motor for sliding gates up to 400 kg with control unit and electromechanical limit switch	99
RB400BDKCE	Robus, Kit for sliding gates up to 400 kg with control unit and electromechanical limit switch, bidirectional. **Contains:** 1 x RB400, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	101
RB500HS	Robus HS, Hi-Speed motor for sliding gates up to 500 kg with control unit and electromechanical limit switch	33
RB600	Robus, Motor for sliding gates up to 600 kg with control unit and electromechanical limit switch	99

Code	Product line	Page
RB600BDKCE	Robus, Kit for sliding gates up to 600 kg with control unit and electromechanical limit switch, bidirectional. **Contains:** 1 x RB600, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	103
RB600P	Robus, Motor for sliding gates up to 600 kg with control unit and inductive limit switch	99
RBA1	Accessory for sliding gates, Inductive limit switch	33
RBA3	Robus accessory, Spare control unit for RB400, RB600/600P, RB1000/1000P and RUN1500/1500P	99
RBA3/HS	Spare control unit for RB250HS and RB500HS	33
RBA4	Road accessory, Spare control unit for RDKCE	105
RDKCE	Road, Kit for sliding gates up to 400 kg and with a leaf length of up to 6 m, with control unit and receiver. **Contains:** 1 x RD400, 1 x FLO2RE, 1 x EPM, 1 x EKS, 1 x ELDC, 1 x TS	105
RN2040	Rondo, Irreversible motor with brake and release device for balanced rolling doors up to 170 kg	167
ROA40	Spare control unit for ROX600	107
ROA6	M4 25x20x1000 mm slotted nylon rack with metal insert for gates weighingup to 500 kg	33
ROA7	M4 rack, zinc coated, 22x22x1000 mm	33
ROA8	M4 rack, 30x8x1000 mm, zinc coated with spacers and screws	33
ROA81	M6 rack, 30x30x1000 mm, zinc coated	35
ROX600KCE	Kit for automating sliding gates up to 600 kg. 230 Vac, built-in control unit, built-in radio receiver. **Contains:** 1 x ROX600, 1 x FLO2RE, 1 x EPM, 1 x EKS, 1 x ELAC, 1 x TS	107
RUA1	Spare control unit for RUN1800/1800P and RUN2500/2500P	111
RUA12	12-teeth pinion, module 6, to be coupled with rack ROA81	35
RUA2	Run accessory, Spare control unit for RUN2500I	111
RUA3	Run accessory, Spare inverter for RUN2500I	111
RUA6	Run accessory, Spare control unit for RUN400HS e RUN1200HS	35
RUN1200HS	Run HS, Hi-Speed motor for sliding gates up to 1500 kg, with control unit and electromechanical limit switch	35
RUN1500	Run, Motor for sliding gates up to 1500 kg, with control unit and electromechanical limit switch	109
RUN1500P	Run, Motor for sliding gates up to 1500 kg, with control unit and inductive limit switch	109
RUN1800	Run, Motor for sliding gates up to 1800 kg, with control unit and electromechanical limit switch	111
RUN1800P	Run, Motor for sliding gates up to 1800 kg, with control unit and inductive limit switch	111

Alphabetical index

Code	Product line	Page
RUN2500	Run, Motor for sliding gates up to 2500 kg, with control unit and electromechanical limit switch	111
RUN2500I	Run, Motor for sliding gates up to 2500 kg, with control unit, inverter and electromechanical limit switch	111
RUN2500P	Run, Motor for sliding gates up to 2500 kg, with control unit and inductive limit switch	111
RUN400HS	Run HS, Hi-Speed motor for sliding gates up to 400 kg, with control unit and electromechanical limit switch	35
S4BAR	Bar system for bars up to 4 m, with steel case with protective cataphoresis treatment and paint finish	119
S4BARI	Bar system for bars up to 4 m, with stainless steel case	119
SFAB2024	S-FAB, Motor for swing gates with leaves up to 2.3 m, underground installation	77
SFAB2024BDKCE	S-FAB, Kit for swing gates with a leaf length of up to 2.3 m, underground installation, bidirectional. **Contains:** 2 x SFAB2024, 2 x SFABBOX, 2 x ON3BD, 1 x MC424L, 1 x OXIBD, 1 x EPM, 1 x ELDC, 1 x TS	79
SFAB2124	S-FAB, Motor for swing gates with leaves up to 2.3 m with encoder, underground installation	77
SFAB2124BDKCE	S-FAB, Kit for swing gates with a leaf length of up to 2.3 m, underground installation, BlueBUS, comp. with Opera, bidirectional. **Contains:** 2 x SFAB2124, 2 x SFABBOX, 2 x ON3BD, 1 x MC824H, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	81
SFABBOX	Fab accessory, Externally foundation box, with cataphoresis paint finish	77
SIA1	S4BAR and WIDE accessory, Anchorage base with clamps	119
SIA2	WIDE accessory, Anchorage base with clamps	133
SLH400	Slight, Irreversible motor for sliding gates up to 400 kg with built-in control unit and absolute encoder	95
SLH400BDKCE	Slight Kit, Kit for sliding gates up to 400 kg with control unit and absolute encoder, built-in LED light, bidirectional. **Contains:** 1 x SLH400, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	97
SMXI	Universal pre-wired receiver, up to 4 channels, with memory containing 256 codes - Flo coding	188
SN6031	Spinbus, Motor for sectional doors and up-and-over garage doors, with built-in control unit, 800 N	147
SN6041	Spinbus, Motor for sectional doors and up-and-over garage doors, with built-in control unit, 1000 N	147
SNA1	Spinbus accessory, Spare control unit for SPIN10KCE and SPIN11KCE	151
SNA16	Spinbus accessory, Quick-connect brackets for ceiling mounting	145
SNA20	Spinbus accessory, Spare control unit for SPIN23KCE	149
SNA3	Spinbus accessory, Spare control unit for SPIN30/SN6031	145
SNA30	Spinbus accessory, Preassembled 3 m guide	147
SNA30C	Spinbus accessory, Pre-mounted 3 m chain track	147
SNA31	Spinbus accessory, 1 m extension for guide SNA30	147
SNA31C	Spinbus accessory, 1 m extension for guide SNA30C	147
SNA4	Spinbus accessory, Spare control unit for SPIN40/SN6041	145
SO2000	Soon, Motor for sectional door up to 5 m, with absolute encoder	157
SOA2	Soon accessory, Spare control unit SO2000	157
SPA10	Kit with additional ceiling fixing bracket for Spyrail	37
SPA2	Spinbus accessory, Kit for unlocking from the outside with cable	37
SPA5	Spinbus accessory, Oscillating arm sliding on bearings with optimised structure for projecting up-and-over doors	37
SPA6	Spinbus accessory, Large 585 mm long connecting arm	37
SPA7	Spinbus accessory, Kit of two additional fixing brackets	145
SPIN10KCE	Spinkit, For sectional doors up to 8.8 m^2 and up-and-over doors up to 9.8 m^2. **Contains:** 1 x SN6011, 1 x FLO2RE, guide in three 1-metre long sections	151
SPIN11KCE	Spinkit, For sectional doors up to 8.8 m^2 and up-and-over doors up to 9.8 m^2. **Contains:** 1 x SN6011, 1 x FLO2RE, pre-mounted 3 m guide	151
SPIN20BDKCE	Spinbuskit, For sectional doors up to 10.5 m^2 and up-and-over doors up to 11.8 m^2, bidirectional. Compatible with Solemyo and Opera. **Contains:** 1 x SN6021, 1 x ON3EBD, guide in three 1-metre long sections	149
SPIN22BDKCE	Spinbuskit, For sectional doors up to 10.5 m^2 and up-and-over doors up to 11.8 m^2, bidirectional. Compatible with Solemyo and Opera. **Contains:** 1 x SN6021, 1 x ON3EBD, guide in one 3-metre section + one 1-metre section	149
SPIN23BDKCE	Spinbuskit, For sectional doors up to 10.5 m^2 and up-and-over doors up to 11.8 m^2, bidirectional. Compatible with Solemyo and Opera. **Contains:** 1 x SN6021, 1 x ON3EBD, pre-mounted 3 m guide	149
SPIN30	Spinbus, For sectional doors up to 12.5 m^2 and up-and-over doors up to 11.8 m^2, 800 N	145
SPIN40	Spinbus, For sectional doors up to 12.5 m^2 and up-and-over doors up to 11.8 m^2, 1000 N	145
SPY550KCE	Spykit 550, For sectional doors up to 9 m^2 and up-and-over doors up to 10.5 m^2, 550 N. **Contains:** 1 x SPY550, 1 x SPYBOX, 1 x FLO2RE	141
SPY650BDKCE	Spykit 650, For sectional doors up to 10.5 m^2 and up-and-over doors up to 11.5 m^2, 650 N, bidirectional. **Contains:** 1 x SPY650, 1 x SPYBOXHS, 1 x OXIBD, 1 x ON3EBD	143
SPY650HSBDKCE	Spykit 650 HS BD, For sectional doors up to 10.5 m^2 and up-and-over doors up to 11.5 m^2, 650 N, bidirectional. **Contains:** 1 x SPY650HS, 1 x SPYBOXHS, 1 x OXIBD, 1 x ON3EBD	37
SPY800BDKCE	Spykit 800, For sectional doors up to 12.5 m^2 and up-and-over doors up to 14 m^2, 800 N, bidirectional. **Contains:** 1 x SPY800, 1 x SPYBOXHS, 1 x OXIBD, 1 x ON3EBD	143
SPYLIGHT	LED light module accessory for SPYRAIL	37
SPYRAIL081	Spy accessory, 0.8 m extension with assembly accessories (to add to the SPYRAIL321 or SPYRAIL162 rails)	37

KOVOPLOTOVÁRY.CZ

Code	Product line	Page
SPYRAIL162	Spy accessory, 2 x 1.6 m rails with assembly accessories	37
SPYRAIL321	Spy accessory, 1 x 3.2 m rail with assembly accessories	37
SU2000	Sumo, For sectional doors and two-wings sliding doors up to 35 m²	159
SU2000V	Sumo, For sectional doors and two-wings sliding doors up to 25 m², high speed	159
SU2000VV	Sumo, For sectional doors and two-wings sliding doors up to 15 m², super high speed	159
SU2010	Sumo, For sectional doors and two-wings sliding doors up to 35 m², IP54	159
SYA1	Solemyo accessory, Power supply unit for charging the battery PSY24 from the supply mains	229
SYKCE	Solar power kit comprising SYP photovoltaic panel and PSY24 battery box with charging control circuit	229
SYP	Photovoltaic panel for 24 V supply with maximum power 15 W	229
SYP30	Photovoltaic panel for 24 V supply with maximum power 30 W	229
TCA65	Sensitive edges accessory, Aluminium profile L=200 cm	232
TCB65	Sensitive edge in 10 m rolls	232
TCBS60	Passive sensitive edge in 10 m rolls	233
TCE	Sensitive edge accessory, Control interface for sensitive edge	232
TCF	Sensitive edge accessory, Scissors for cutting safety sensitive edges	232
TCK	Sensitive edge accessory, Kit for 8 sensitive edges composition	232
TCW1	Sensor for sensitive edge with wireless technology and battery power supply	231
TCW2	Sensor for sensitive edge with wireless technology and PV power supply	231
TN2010L	Ten, Upgraded motor for projecting and non projecting up-and-over doors, with control unit, absolute encoder and BlueBUS	153
TN2020L	Ten, Upgraded motor for projecting and non projecting up-and-over doors, without control unit	153
TN2030L	Ten, Upgraded motor for projecting and non projecting up-and-over doors, with control unit and receiver, mechanical limit switch	153
TNA1	Ten accessory, Spare control unit for TN2030L and TNLKCE	153
TNA2	Ten accessory, Spare control unit for TN2010L	153
TNA38	Ten accessory, Driving device for transmission shafts	153

Code	Product line	Page
TNA4	Ten accessory, 20x20 mm drive shaft (1500 mm long)	153
TNA5	Ten accessory, Pair of standard straight telescopic arms	153
TNA6	Ten accessory, Pair of standard curved telescopic arms	153
TNA8	Ten accessory, 20x20 mm drive shaft (200 mm long)	153
TNA9	Ten accessory, Additional connection cable and supports for wall-mounting of PS324 battery	37
TNLKCE	Ten, Upgraded kit for projecting and non projecting up-and-over doors with control unit, receivers and mechanical limit switch	155
TO4005	Toona, Motor for swing up to 3 m, with limit switch on opening, increased speed	45
TO4006	Toona, Motor for swing up to 3 m, with limit switch on opening and closing, increased speed	45
TO4015	Toona, Motor for swing up to 3 m, with limit switch on opening, cruising speed	45
TO4024	Toona, Motor for swing up to 3 m, mechanical stop on opening	45
TO4605	Toona, Motor for swing up to 3 m, limit switch on opening, increased speed	45
TO5015	Toona, Motor for swing up to 5 m, with limit switch on opening, cruising speed	47
TO5016	Toona, Motor for swing up to 5 m, with limit switch on opening and closing, cruising speed	47
TO5024	Toona, Motor for swing up to 5 m, mechanical stop on opening	47
TO5024HS	Toona 5 HS, Hi-Speed motor for swing up to 5 m, with magnetic encoder, mechanical stop on opening and closing	21
TO5024I	Toona, Motor for swing up to 5 m, mechanical stop on opening, for intensive use	47
TO5605	Toona, Reversible motor for swing up to 5 m, limit switch on opening, increased speed	47
TO6024HS	Toona 6 HS, Hi-Speed motor for swing up to 6 m, with magnetic encoder, mechanical stop on opening and closing	21
TO7024	Toona, Motor for swing up to 7 m, mechanical stop on opening and closing	49
TOONA4024BDKCE	Kit for automating swing gates with a leaf length of up to 3 m, 24 Vdc, surface mounted, bidirectional. **Contains:** 1 x TO4024, 2 x ON3EBD, 1 x MC824H, 1 x OXIBD, 1 x EPMB, 1 x ELDC, 1 x TS	51
TS	Signboard	21
TT1L	Control unit for installations for lighting/irrigation systems, with radio receiver, IP55 protection	205
TT1N	Control unit for a 230 Vac motor, with radio receiver, IP55 protection	205
TT1V	433.92 MHz frequency receiver, rolling code. For Venetian blinds. To control motors up to 500 W	205

KOVOPLOTOVARY.cz

Alphabetical index

Code	Product line	Page
TT2D	Control unit for installations for 230 Vac lighting systems, with receiver and switching module	203
TT2L	Control unit for installations for 230 Vac lighting systems, with receiver	203
TT2N	Miniaturized control unit for a 230 Vac motor, with radio receiver	201
TT2Z	Radio receiver and control unit for dry contact controlled motors, four-wire motors and lights	202
TTDMS	Recessed control unit with built-in radio receiver for electrical loads up to 250 W, on/off and dimmer functions	204
TTN3724HS	Titan HS, non-reversible Hi-Speed motor, 24 Vdc, with magnetic encoder, for swing gates with leafs of up to 3.7 m or 450 kg	25
TTN3724RHS	Titan HS, reversible Hi-Speed motor, 24 Vdc, with magnetic encoder, for swing gates with leafs of up to 3.7 m or 450 kg	25
TTN6024HS	Titan HS, non-reversible Hi-Speed motor, 24 Vdc, with magnetic encoder, for swing gates with leaves of up to 6 m or 450 kg	25
TTN6024RHS	Titan HS, reversible Hi-Speed motor, 24 Vdc, with magnetic encoder, for swing gates with leaves of up to 6 m or 450 kg	25
TTPCI	BusT4 – PC interface	238
TTX4	Recessed transmitter, 4 channels, with mains power	200
TTXB4	Recessed transmitter, 4 channels, with long battery life power	200
TUB4000	Irreversible gear motor for sliding gates weighing up to 4000 kg, electromechanical limit switch, 400 Vac, with built-in D-PRO 500 control unit	112
TW1	Regulation thermostat with trimmer	237
WA10	Bars accessory, Red adhesive reflector strips	119
WA11	Bars accessory, Adjustable stand for bars	119
WA12	Bars accessory, Mobile stand for bars	123
WA13	Bars accessory, Aluminium rack (2 m) for WA1, WA21, WA22	123
WALKY1024BDKCE	Walky, Kit for swing gates with a leaf length of up to 1.8 m, bidirectional. **Contains:** 1 x WL1024C, 2 x ON3EBD, 1 x OXIBD, 1 x TS	63
WALKY2024BDKCE	Walky, Kit for swing gates with a leaf length of up to 1.8 m, bidirectional. **Contains:** 1 x WL1024C + 1 x WL1024, 2 x ON3EBD, 1 x OXIBD, 1 x EPMB, 1 x WLT, 1 x TS	65
WAX	Ondo, Table holder for Nice Way, white plastic + Ice Blue rubber	187
WCF	Go, Mini cover for NiceWay, fern green	187
WCG	Go, Mini cover for NiceWay, graphite	187
WCI	Go, Mini cover for NiceWay, Ice Blue	187
WCO	Go, Mini cover for NiceWay, orange	187
WG3524HS	Wingo HS, Hi-Speed motor for swing gates with leaves up to 3 m, with magnetic encoder, mechanical stop on opening and closing	23
WIA10	Wide accessory, Pivot joint	132
WIA11	Wide accessory, Joint for bar for Wide M	132
WIA20	Wide accessory, Spare control unit	131
WIDEL	Wide, Electromechanical road barrier system for bars up to 7 m, with painted galvanised steel case	131
WIDELI	Wide, Electromechanical road barrier system for bars up to 7 m, with stainless steel case	131
WIDEM	Wide, Electromechanical road barrier system for bars up to 4 m, with painted galvanised steel case	131
WIDEMI	Wide, Electromechanical road barrier system for bars up to 4 m, with stainless steel case	131
WIDES	Wide, Electromechanical road barrier system for bars up to 4 m, with painted galvanised steel case	131
WIDESI	Wide, Electromechanical road barrier system for bars up to 4 m, with stainless steel case	131
WINGO4024BDKCE	Wingo, Kit for swing gates with a leaf length of up to 2 m, 24 Vdc, surface mounted, bidirectional. **Contains:** 1 x WG4024, 2 x ON3EBD, 1 x MC424L, 1 x OXIBD, 1 x EPM, 1 x ELDC, 1 x TS	55
WINGO4BDKCE	Kit for automating swing gates with a leaf length of up to 2 m, surface mounted, bidirectional. **Contains:** 1 x WG4000, 2 x ON3EBD, 1 x MC800, 1 x OXIBD, 1 x EPM, 1 x ELAC, 1 x TS	53
WINGO5024BDKCE	Wingo, Kit for swing gates with a leaf length of up to 3.5 m, 24 Vdc, surface mounted, bidirectional. **Contains:** 1 x WG5024, 2 x ON3EBD, 1 x MC424L, 1 x OXIBD, 1 x EPM, 1 x ELDC, 1 x TS	59
WINGO5BDKCE	Wingo, Kit for swing gates with a leaf length of up to 3.5 m, surface mounted, with MC800, bidirectional. **Contains:** 1 x WG5000, 2 x ON3EBD, 1 x MC800, 1 x OXIBD, 1 x EPM, 1 x ELAC, 1 x TS	57
WLA1	Walky accessory, Spare control unit for WL1024C	63
WLT	Wallyght, Multi-function Led indicator	227
WM001C	Niceway, Single channel module to control 1 automation system	185
WM001G	Niceway, Module to control 1 Open-Stop-Close automation system	185
WM002G	Niceway, Module to control 2 Open-Stop-Close automation systems	185
WM003C	Niceway, Three channel module to control 3 automation systems	185
WM003C1G	Niceway, Module to control 3 Step-by-Step and 1 Open-Stop-Close automation systems	185
WM003G	Niceway, Module to control 3 Open-Stop-Close automation systems	185
WM004G	Niceway, Module to control 4 Open-Stop-Close automation systems and sun sensor activation command	185

Code	Product line	Page
WM006G	Niceway, Module to control 6 Open-Stop-Close automation systems	185
WM009C	Niceway, Nine channel module to control 9 Step-by-Step automation systems	185
WM080G	Niceway, Module to control 80 Open-Stop-Close automation systems and sun sensor activation command	185
WM240C	Niceway, Module to control 240 Step-by-Step automation systems	185
WRA	Opla, Rectangular wall plate, aluminium	186
WRB	Opla, Rectangular wall plate, black	186
WRG	Opla, Rectangular wall plate, graphite	186
WRS	Opla, Rectangular wall plate, seawater	186
WRT	Opla, Rectangular wall plate, neutral transparent	186
WRW	Opla, Rectangular wall plate, white	186
WSA	Opla, Squared wall plate, aluminium	186
WSB	Opla, Squared wall plate, black	186
WSG	Opla, Squared wall plate, graphite	186
WSS	Opla, Squared wall plate, seawater	186
WST	Opla, Squared wall plate, neutral transparent	186
WSW	Opla, Squared wall plate, white	186
WWW	Ondo, Magnetic wall support for Ondo	187
XBA10	Bars accessory, Pivoting connection for bars up to 4 m	122
XBA11	Joint for bars XBA15 and XBA14 (from 1950 mm to 2400 mm)	122
XBA13	Bars accessory, Rubber impact protection strip	119
XBA14	Bars accessory, White paint-finished aluminium bar 69x92x4150 mm	123
XBA15	Bars accessory, White paint-finished aluminium bar 69x92x3150 mm	122
XBA16	Bars accessory, Anchorage base with clamps	122
XBA17	Bars accessory, Anchorage base with clamps	126

Code	Product line	Page
XBA18	Bars accessory, Indicator lights for click fixture on upper or lower side of bar. Lenght 8 m	123
XBA19	Bars accessory, White paint-finished aluminium bar 45x58x4000 mm	119
XBA20	Spare control unit for S4BAR	119
XBA4	Bars accessory, Indicator lights for click fixture on upper or lower side of bar	119
XBA5	Bars accessory, White paint-finished aluminium bar 69x92x5150 mm	123
XBA6	Bars accessory, Indicator lights for click fixture on upper or lower side of bar. Length 6 m	123
XBA7	Bars accessory, Integrable flashing light	119
XBA8	Bars accessory, Integrable traffic light	122
XBA9	Bars accessory, Expansion joint	123

Nice SpA
Oderzo, TV, Italy

Nice

NiceLoveEarth

Nice cares for the environment.
Using natural paper it avoids excessive use of raw materials and forest exploitation.
Waste is reduced, energy is saved and climate quality is improved.
